9	THE VIDEOGRAPHER: We are now on the
10	record. Today's date is December the 22nd, 2022.
11	The time is approximately 8:08 a.m., Central
12	Standard Time. This begins the videorecorded
13	deposition of Eric Waldo in the matter of The State
14	of Missouri, et al. versus Joseph R. Biden, Junior,
15	et al., Case Number 3:22-cv-01213 in the United
16	States District Court for the Western District of
17	Louisiana.
18	This deposition is being held via
19	Zoom video. The reporter's name is Tammie Heet.
20	My name is David Doell, and I'm the legal
21	videographer. We are here with Lexitas.
22	The attorneys attending remotely and
23	in person, please introduce yourselves and the
24	parties you represent.
25	MR. SAUER: John Sauer on behalf of

Page 9

1	Plaintiff State of Missouri, and I'm joined by my
2	colleagues Ken Capps and Todd Scott of the Missouri
3	Attorney General's office.
4	MS. CHUZI: Amanda Chuzi for
5	Defendants, and I'm joined by Josh Gardner of the
6	Department of Justice and Anant Kumar of the
7	Department of Health and Senior Services.
8	And before we begin, I'd like to
9	reserve the right to read and sign.
10	MR. SHORT: I'm Tracy Short on behalf
11	of the Office of the Attorney General of the State
12	of Louisiana.
13	MS. YOUNES: Jenin Younes on behalf
14	of NCLA, the New Civil Liberties Alliance.
15	THE VIDEOGRAPHER: Court reporter
16	please swear in the witness and we may proceed.
17	ERIC WALDO,
18	of lawful age, produced, sworn, and examined on
19	behalf of Plaintiffs, deposes and says:
20	EXAMINATION
21	QUESTIONS BY MR. SAUER:
22	Q. Mr. Waldo, could you please state
23	your full name for the record?
24	A. My name is Eric William Waldo.
25	Q. And have you ever given a deposition

Page 10

1	before?
2	A. I have not.
3	Q. So this is your very first
4	deposition?
5	A. That is correct.
6	Q. Can I just go over a few kind of
7	ground rules for today that are common in all
8	depositions. Will that be okay?
9	A. You may.
10	Q. First of all, could you and I be
11	careful not to interrupt each other because it
12	makes it difficult for the court reporter to take
13	down what we're saying. So can we try to do our
14	best to sort of wait until the other one finishes
15	talking as we go forward today?
16	A. That sounds reasonable, yes.
17	Q. And also, could you make an effort to
18	give a verbal answer to my questions, you know,
19	instead of saying shaking our head or nodding or
20	saying "huh-uh," "uh-huh," you know, try and give
21	an affirmative yes or no. And again, that helps
22	the clarity of the record.
23	A. I'll do my best, sir.
24	Q. In addition to that, if at any time
25	you have a difficulty hearing me, because we're on

Page 11

1 :	a remote link or don't understand the qu	uestion,
2	could you please ask for clarification	instead of
3 .	trying to guess at my meaning and answer	ring a
4	question that you think I may have asked	d, but
5	you're not sure. Can you do that?	
6	A. Yes. Yes, I do can that.	
7	Q. In addition to that, can ye	ou listen
8 .	to the questions that I'm asking and ans	swer the
9 (	question that I ask instead of addressing	ng some
10	other topic that you may be interested :	in
11 (	discussing?	
12	A. I will do my best to answer	r the
13 (	questions you ask, sir.	
14	Q. Thank you. Let's just get	started.
15 (	Can you tell us what your current job to	itle is?
16	A. Senior advisor to the Surge	eon
17 (	General.	
18	Q. And then how long have you	held that
19 ·	title?	
20	A. Since late June.	
21	Q. Is that	
22	A. Of 2022.	
23	Q. And then prior to that, die	d you work
24	in the Surgeon General's office?	
25	A. I did.	

Page 12

1	Q. What was your title then?
2	A. Chief engagement officer.
3	Q. And when how long were you chief
4	engagement officer for the Surgeon General' office?
5	A. From June 20th or so of 2021 to
6	around June 20th of 2022, so about one year, sir.
7	Q. And then did you hold any titles in
8	between those two?
9	A. No, sir.
10	Q. What were your job duties when you
11	were chief engagement officer?
12	A. Primarily working as liaison, helping
13	connect with the public and stakeholder groups
14	about the issues of importance in the Surgeon
15	General's office around public health.
16	In addition, I was in charge of our
17	youth mental health outreach coordination, but in
18	general, was the person helping connect the public
19	with subject matter experts and our priorities
20	around our issues.
21	Q. What issues were you particularly
22	involved in?
23	A. As I mentioned, I was the I was
24	sort of in charge of our youth mental health work.
25	That was the of our priority issues, that was

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

Page 13

1	the one that I ran.
2	Q. Any other issues that you were
3	engaged on?
4	A. Engaged? Can you define what do
5	you mean by engaged on, sir?
6	Q. Are there any other issues when you
7	were chief engagement officer that you were
8	involved in addressing for the for the Surgeon
9	General's office?
10	A. Yeah, so there were various issues
11	that the office was working on, and I was in some
12	way engaged on on most of them. So that
13	included COVID-19, including our our general
14	public engagement around our efforts to educate the
15	public about COVID-19, including our vaccination
16	efforts, our rollout of our COVID-19 misinformation
17	advisory.
18	Then I work on youth mental health,
19	and then our our in addition, I work on
20	workplace sort of sorry, health worker,
21	mental health, which we announced later, and then
22	some development work on our work around workplace
23	mental health and social isolation and loneliness.
24	Q. And so you had some role in the
25	rollout of the misinformation advisory, I believe

Page 14

1	you said; is that right?
2	A. That's correct.
3	Q. What was your role in that regard?
4	A. So I came into the office after the
5	advisory had already been created. I started the
6	week of June 20th of 2021, so the advisory had
7	already been developed, so I didn't have any part
8	in the development of it, but I I worked with
9	the team on the rollout. So how we were going to
10	communicate to the public about this advisory.
11	Q. Who was involved in developing it, to
12	your knowledge?
13	A. To my knowledge, that would have been
14	that moment Daniel Tartakovsky in the science and
15	policy team I think was the chief author in terms
16	of, like, the policy development behind the scenes.
17	At that point, he reported to Adam Beckman, who was
18	a senior advisor and I think the acting policy
19	director. We were sort of lightly staffed at the
20	beginning of the administration. Certainly,
21	Dr. Murthy would have worked on it, and then there
22	were probably some other staffers in the science
23	and policy team, like Tyiesha Short, perhaps. But
24	that's not an exhaustive list, but that's off the
25	top of my head, sir.

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

Page 15

1	Q. What was that you mentioned a man
2	named Daniel as the principal author. Can you
3	spell his last name?
4	A. I can try, sir. It's a it's a
5	Russian name, Tartakovsky.
6	Q. Yeah.
7	A. $T-A-R-T-A-K-O-V-S-K-Y$ . I may be
8	incorrect, and I'm sure there are some e-mails in
9	the record that we can find, if we need to find
10	that, sir.
11	Q. And you say Dr. Murthy worked
12	directly on directing the health advisory of the
13	misinformation advisory?
14	A. I don't have direct knowledge of
15	that, but we worked on all our advisories, so I
16	I have no reason to believe he didn't work on on
17	the advisory, wouldn't have had had a pen and
18	seen the drafts that Daniel put together and been
19	final signoff.
20	Q. Okay. When you say he was involved
21	in all your advisories, what what generally is
22	his role? Does he edit them? You know, what does
23	he do?
24	A. So I can only speak to the you
25	know, I saw the advisories come out for youth

Page 16

1	mental health that came out after I started. I was
2	deeply involved in that and our workplace advisory.
3	Each was a little different because our team grew
4	in size and scope, but Dr. Murthy typically
5	certainly was helping the team understand that, you
6	know, the was signing off on whether we were
7	going to issue an advisory or not because that's a
8	large undertaking for the office, and then in
9	addition, you know, he was certainly someone who
10	would review drafts and have and final signoff.
11	Q. And did he also kind of provide the
12	big picture of what the advisory would address? I
13	mean, the idea to issue a health advisory on
14	misinformation, would that originate from him or is
15	that kind of staff decision?
16	A. I don't know with respect to health
17	misinformation because that came that was before
18	my time in the office, but in general, there it
19	could have been it could have come in either
20	way. Sometimes a staff member may have had a
21	suggestion and say I think we ought to do an
22	
23	advisory on this or we ought to do a report on this
	advisory on this or we ought to do a report on this and might make a recommendation. Or the Surgeon
24	
24 25	and might make a recommendation. Or the Surgeon

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

Page 17

1	Q. And you don't know how this I
2	mean, I take it this health advisory on
3	misinformation that we're talking about is the one
4	that was launched on July 15th of 2021, correct?
5	A. That's the one I'm referring to, sir,
6	yes.
7	Q. Just for clarity. And you don't know
8	whose idea that was originally to do an advisory?
9	A. I do not. As I mentioned, that was
10	I didn't join until June of 2021, so whatever
11	the development was, or process, I was not a part
12	of it.
13	Q. Prior to June 2021, were you in
14	government? Were you working for HHS or were you
15	somewhere else?
16	A. I was not in government, sir.
17	Q. What were you doing before that?
18	A. I was working at a nonprofit.
19	Q. At which one?
20	A. The Common Application.
21	Q. What what is what is the nature
22	of that nonprofit?
23	A. The Common Application is a
24	technology nonprofit that helps students around the
25	country apply to college, so they have about 900

Page 18

1	member colleges, and it's an online application so
2	that you can apply to multiple colleges at the same
3	time.
4	Q. Did that nonprofit have any
5	involvement to issues related to COVID-19 and
6	and health misinformation?
7	A. No, sir, none to my knowledge.
8	Q. You mentioned you had a role in
9	communicating with the public about the
10	misinformation advisory that we're talking about.
11	Can you characterize that? Describe what did you
12	actually do to to to kind of communicate
13	about that.
14	A. So to communicate about the advisory,
15	this was our first advisory so we didn't have a
16	template, but my my general experience in
17	government was trying to reach out to stakeholders
18	who might be interested or affected by the advisory
19	to give them a heads-up that the advisory was going
20	to come out. So setting up some stakeholder calls
21	with relevant parties.
22	And then in partnership with the
23	communications team, the policy team, and others in
24	the office, we had a general rollout, what I would
25	call what is called a tick-tock in the parlance

Page 19

Fax: 314.644.1334

- of DC to say, here, we're communicating on this day with these parties, these are the stakeholders who
- 3 will receive an e-mail, these are who might post a
- 4 tweet, these are who -- partners we might do an
- 5 event with. And then we have a press team that
- 6 also will do communications and press for an event
- 7 and a rollout.
- 8 Q. You mentioned key stakeholders that
- 9 you communicated with. What kinds of stakeholders
- 10 are we talking about?
- 11 A. So you know, the science and policy
- 12 team who developed this advisory helped put
- 13 together a list, including some subject matter
- 14 experts, policy experts, folks affected by this.
- 15 So -- so, for instance, the technology
- 16 organizations, government organizations, other
- 17 membership nonprofits like teacher unions, et
- 18 cetera. Just what I would consider a robust group
- 19 of partners who might be interested in this work or
- 20 might help share the -- the advisory or be
- 21 interested in what the advisory has to say.
- Q. What -- when you mentioned technology
- organizations, what does that mean?
- 24 A. So given that the advisory called for
- 25 an all-society approach and mentioned what

LEXITAS LEGAL Phone: 1.800.280.3376

Page 20

- 1 technology and social media companies could do, we
- 2 reached out to some technology and social media
- 3 companies.
- 4 Q. You -- you mentioned reaching out to
- 5 social media companies. Who was that, to your
- 6 recollection?
- 7 A. We definitely did pre-rollout calls
- 8 with Twitter, Facebook, Google/YouTube. Sorry --
- 9 you -- sorry. Twitter, Facebook, YouTube/Google.
- 10 Those are the ones I can remember off the top of my
- 11 head, sir.
- 12 Q. And then you mentioned technology
- 13 companies other than social media companies. What
- 14 are those?
- 15 A. I don't -- maybe I'm putting more
- 16 social media companies. I'm trying to think if
- 17 there were any other technology organizations we
- 18 would have reached out to. I can't recall.
- 19 Q. Let me switch gears a little bit.
- 20 I'm going to e-mail your counsel a few exhibits and
- 21 share one of them with you on the screen that will
- 22 be marked Exhibit 1.
- 23 MR. SAUER: Okay. And, Amanda, that
- 24 e-mail should be popping up in your inbox
- 25 momentarily.

Page 21

1	MS. CHUZI: I don't see it yet, but I
2	am looking out for it.
3	Q. (BY MR. SAUER) And then, Mr. Waldo,
4	I have attempted to screen share. Can you see this
5	document that's marked Exhibit 1 down here? That's
6	just a copy of your online LinkedIn resume.
7	A. Yes, sir. I can see it on the
8	screen.
9	Q. And then if I scroll down here a few
10	pages, the most recent entry you have here is chief
11	engagement officer for the U.S. Surgeon General,
12	correct?
13	A. That's correct, sir. That's what it
14	says.
15	Q. Yeah. And, in fact, I take it
16	recently, last June, you actually adopted a new
17	title, which is senior advisor to the
18	A. That's correct. I've not updated my
19	LinkedIn.
20	Q. Sure, yeah. What's the difference
21	between your duties as senior advisor to the
22	Surgeon General and chief engagement officer?
23	A. We now have a different chief
24	engagement officer, so I'm no longer managing
25	staff. I also have some reduced hours because I'm

Page 22

Fax: 314.644.1334

1	taking care	of some family members, and so I'm
2	mostly engag	ed on partnership work with respect to
3	youth mental	health.
4	Q.	Okay. Are you involved
5	Α.	The previous
6	Q.	Go ahead.
7	Α.	Pardon me, sir. Go ahead.
8	Q.	No, you go ahead and finish what you
9	said.	
10	Α.	I'm okay.
11	Q.	Okay. So you're as senior
12	advisor, you	do list here general senior advisor to
13	Surgeon Gene	ral, right? And I take it that since
14	June of this	year, is that your only duty?
15	Α.	That's correct.
16	Q.	And you say right now, you deal with
17	the youth me	ntal health issues?
18	Α.	That's correct.
19	Q.	Generally speaking, what do you do

24 So helping to destigmatize youth mental health and

to try to, you know, help build campaign interests

in addressing the issues of youth mental health.

Working with external organizations

25 helping raise awareness on youth mental health.

with respect to those?

20

21

22

23

Page 23

1	Q. And did you kind of step away from
2	more active duties because you had family issues?
3	A. That's correct, sir.
4	Q. And that started last June, I take
5	it?
6	A. That that started June 20th of
7	2022, sir.
8	Q. Okay. So you were in the chief
9	engagement officer role for almost exactly a year,
10	correct?
11	A. That's correct.
12	Q. And I believe you said you started on
13	June 20th of 2021?
14	A. Exactly. It's, like, literally
15	I'd have to go look. It's about I think it's
16	approximately a year.
17	Q. And I take it you're you said one
18	of the reasons of that is you're taking care of
19	some family members; is that right?
20	A. That's correct.
21	Q. Yeah. And that's, in fact, why we're
22	doing this deposition by Zoom today, correct? You
23	asked for it to be done by Zoom because you're
24	worried about, you know, having exposure, correct?
25	A. I asked to be able to be deposed with

Page 24

1	my mask on, that because I wanted to reduce
2	exposure to my family members, that's correct.
3	Q. Okay. Yeah. And we ended up in a
4	compromise where we're taking it by Zoom and people
5	observing are masked, correct?
6	A. That's correct.
7	Q. So since last June, at least, you've
8	had to observe restrictions in your personal life
9	to be careful around people that might expose you
10	to illnesses?
11	A. That's correct.
12	Q. Okay. Looking here, you say senior
13	advisor Surgeon General, and you describe your
14	duties on LinkedIn as, quote, advising and
15	designing constituent and public-facing campaigns
16	around the country and the world around and you
17	mention COVID-19 vaccines and health
18	misinformation, correct?
19	A. That's correct.
20	Q. Yeah. What is what constituent
21	and public-facing campaigns did you advise and
22	design for that related to health misinformation?
23	A. I think it was really our rollout and
24	then advising on on how we were engaging with
25	the public on health misinformation and how it

Page 25

- 1 should sit as a -- how we wanted to continue to
- 2 follow up from our -- our -- our advisory.
- 3 Q. What kind of follow-up to the
- 4 advisory were you involved in?
- 5 A. We worked in the office to also do
- 6 a -- I guess I'd call it -- it was like a community
- 7 toolkit for how folks could have conversations with
- 8 others around health misinformation in their
- 9 community.
- 10 Q. Was there anything else? Was there
- any other follow-up related to the health advisory
- 12 that you recall?
- 13 A. Can you be more specific about what
- 14 type of follow-up?
- Q. Well, I thought that was the phrase
- 16 that you used when I asked you what you meant --
- 17 A. I see.
- 18 Q. Yeah, yeah. And I just wanted to
- 19 know what you meant.
- 20 A. With respect to campaigns, that --
- 21 you know, that was the only sort of, like, product
- 22 we put out or additional pieces. Certainly,
- 23 Dr. Murthy continued from a communications
- 24 perspective to talk about health misinformation
- 25 using his bully pulpit.

Page 26

1	But that's you know, we sort of
2	I think our our role in the Surgeon General's
3	office is to elevate issues of public health that
4	are priorities for the Surgeon General's office,
5	and we want to make sure the public is aware, and I
6	think that was done vis-a-vis the advisory. And so
7	now, you know, as the advisory calls for an
8	all-society approach, I think we're also, you know,
9	continuing to see how folks are doing that. But
10	that's it's sort of deprioritized after our
11	announcement.
12	Q. Yeah, I think you mentioned Surgeon
13	General Murthy using his bully pulpit to elevate
14	the issue of health misinformation that's addressed
15	in the advisory. What do you mean by that?
16	A. So, you know, this is a little bit
17	the Office of the Surgeon General, as opposed to,
18	let's say, the secretary of HHS, you know, the
19	Office of the Surgeon General doesn't have a
20	doesn't have a budget in terms of, you know, we
21	don't give out grants, we aren't a regulatory
22	agency in terms of you know, I worked at the
23	Department of Education in a previous life, and
24	it's not like we have Title IX authority.
25	We're not showing up to regulate

Page 27

1	people, we're not giving out grants. So the
2	primary power of the office is, I think, around its
3	reputational authority, its ability to convene
4	people, its ability to help drive attention to an
5	issue.
6	I think most famously is certainly
7	the Surgeon General's report on smoking or the
8	Surgeon General's report on HIV/AIDS. So being
9	able to make sure the public is aware of issues
10	that are of public interest for the public health.
11	Q. And you describe that as the
12	principal power of the office is to drive this kind
13	of public awareness. How has that power been used
14	by the Surgeon General's office while you've been
15	there to address misinformation?
16	A. Again, I think primarily by issuing
17	the reports. So again, I think I think it's
18	having the infomateur of the Surgeon General saying
19	this is a big public health issue is helps,
20	whether you're a nonprofit, whether you're a doctor
21	in the field, whether you're a constituent or just
22	a citizen of the country, oh, wow, I didn't know
23	this was an issue, I should be aware of it.
24	Again, much like smoking, you may not
	rigatii, macii tike bmokilig, you may noe
25	have been aware that smoking was a hazard to your

Page 28

- 1 health before someone said this is hazardous, I
- 2 need to be thoughtful about it. So raising this, I
- 3 think, helps the field, you know, say we want to
- 4 understand this more, we want to work on it, et
- 5 cetera.
- 6 Q. And does the Surgeon General's power
- 7 extend to, for example, persuading social media
- 8 companies to be more proactive in addressing health
- 9 misinformation?
- 10 A. I think certainly the Surgeon General
- 11 has the ability to -- to talk to the relevant
- 12 stakeholders and say we want you to be aware of
- 13 this issue and that we think you have a role to
- 14 play to improve the health outcomes, yes.
- 15 Q. And that -- that -- when you say "the
- 16 relevant stakeholders" there, that includes social
- media platforms?
- 18 A. Yes, we call out social media
- 19 platforms in the advisory.
- Q. Yeah, yeah. And you say "call out,"
- you mean you're kind of calling for them to take
- 22 more substantial or aggressive action to address
- 23 misinformation on their platforms, correct?
- 24 A. I believe the advisory says what
- 25 social -- it has a section that says what social

Page 29

1	media companies can do with some potential steps or
2	actions that social media companies could take, and
3	it's a a range of actions.
4	Q. Uh-huh. And then does the Surgeon
5	you've mentioned the Surgeon General's bully pulpit
6	earlier. What what's that exactly? Is that
7	visibility to kind of make public speeches and, you
8	know, put kind of public pressure on an issue?
9	A. I think the bully pulpit, the way I
10	mean it, is really the fact that he commands
11	attention, including being able to, as you
12	mentioned, you know, speak with the press, speak
13	with the public, and I think people take him
14	seriously as a as, you know, I think we think of
15	the Surgeon General as the nation's doctor. But
16	when he says something is an issue of public
17	health, we think that people will you know, are
18	more likely to listen and hear and hopefully take
19	steps to improve health outcomes.
20	Q. And you say "take steps to improve,"
21	the idea would be the Surgeon General's use of the
22	power that you described as the bully pulpit would
23	drive change, you know, change that the Surgeon
24	General views as positives when it comes to the
25	dissemination of health misinformation?

Page 30

1	A. In that respect with in all
2	all the issues that he's raising, we are trying to
3	improve health outcomes, and, yes, absolutely
4	including health misinformation.
5	Q. And so the goal of the use of that
6	power is to kind of reduce the dissemination of
7	health misinformation and promote the dissemination
8	of kind of accurate health information. Fair to
9	say?
10	A. That sounds fair. I think in
11	general, the Surgeon General saying health
12	misinformation is an is an issue, misinformation
13	is an issue that we need to address, and I think he
14	calls for an all-society approach, including
15	studying it, taking steps to, you know, essentially
16	reduce that harm, which I think there are multiple
17	ways, and you know, again a little bit to go
18	back to the smoking analogy, we need to learn what
19	are the steps you can take, you know, is it is
20	it stopping smoking, is it is it reducing, is
21	it, you know, Nicorette gum? What are the things
22	you can do?
23	And again, in the advisory, the
24	Surgeon General makes some potential
25	recommendations of what, again, everyone can do

Page 31

_	
1	across the society, but certainly among the
2	technology/social media companies.
3	Q. Right. And particularly, I seem to
4	recall there's recommendations of specific steps
5	the social media platforms are, as you said
6	earlier, called out to take to reduce the spread of
7	misinformation on the platforms. Fair to say?
8	A. I think that's fair to say.
9	Q. Has that been a common theme, not
10	just in this misinformation, but in this Surgeon
11	General's public communications about health
12	misinformation on social media platforms?
13	A. I would say across, actually,
14	everything the Surgeon General is saying and doing
15	with our advisories, he's certainly tries to
16	provide ways that we can improve the public health
17	outcomes.
18	So for youth mental health, we say
19	here's what different organizations, stakeholders
20	can do. We did that for our health worker
21	advisory, and certainly we did it for the
22	misinformation advisory as well.
23	Q. And that includes communications that
24	are conducted both publicly, like in public
25	speeches and so forth, and also communications kind

Page 32

1	of conducted in private and kind of direct
2	engagements with social media platforms?
3	A. Sorry, can you can you rephrase
4	the question or repeat the question, sir?
5	Q. Does that, you know, message of
6	calling out the social media platforms to take
7	steps to reduce the spread of misinformation on
8	their platforms, has the Surgeon General's office
9	conveyed that message in private through private
10	engagement with social media platforms as well as
11	<pre>public engagement?</pre>
12	A. Yes, I think that what we're saying
13	publicly, we're also, you know, between the rollout
14	said that privately to them as well.
15	Q. What what kind of private
16	engagement was there in 2021 with respect to social
17	media platforms?
18	A. So I think I mentioned this before,
19	sir. We did what I would call, like, a rollout
20	calls. So before the advisory came out, these were
21	calls where I was reaching out to mostly either
22	government relationsy (phonetic), public policy
23	folks to get on the phone to give them a heads-up
24	that the advisory was coming out, that it was still
25	embargoed, to give them a rough sense of what it

Page 33

1	was going to say, and that we would share the
2	advisory with them when it came out. Those are the
3	original calls that occurred.
4	And then I think because of you
5	know, because of, I think, some of the rollout
6	statements that were made, we ended up doing an
7	additional call with Facebook, who I think was
8	upset about how the rollout had gone.
9	Q. You you recall an
10	additional call with Facebook. Do you remember
11	what was discussed in that call?
12	A. So again, we had two I think a
13	rollout there was an original rollout call with
14	Facebook that was at, I think, what I would call a
15	staff level. We were trying to schedule it before
16	the rollout. Facebook was unable to schedule it,
17	and it ended up happening, I think, the day of
18	rollout.
19	So on that day, Press Secretary
20	General Jen Psaki had already made remarks
21	specifically about Facebook, and then I believe
22	that's either in congruity with the call or
23	sometime either before or after was when President
24	Biden made his remarks that social media and
25	Facebook were killing people. So that call was

Page 34

Fax: 314.644.1334

- 1 more originally just a high level, we put this out, and I connected the Facebook folks with our -- one 2 3 of our subject matter experts. So I think there 4 was some back-and-forth questions, but it wasn't 5 really -- not -- I wouldn't call it the most 6 productive call. 7 Then later, with our call, we had a 8 call with Nick Clegg from Facebook, and at his 9 request, and that was, I think, a call meant to -his intentions were to sort of I think deescalate 10 11 and just find ways that we could work together, 12 given how Facebook would -- was -- was treated in 13 that rollout day. 14 Did you find ways to deescalate and Ο. 15 work together? 16 I -- I -- I'm not sure in the sense
- 17 that we didn't really do any much more work 18 together. We certainly had a call that I think was 19 cordial where Dr. Murthy, I think, acknowledged that it must have been hard for the Facebook team 20 21 to go through that rollout day, given how they were 22 called out by the -- the President and the Press 2.3 Secretary, and you know, we had asked questions 24 and -- and brainstormed on ways to work together.

Q. When you say "brainstormed on ways to

LEXITAS LEGAL Phone: 1.800.280.3376

25

Page 35

1	work together," were the people from the Surgeon
2	General's office, you know, communicating with
3	Facebook about what the Surgeon General would like
4	to see them to do more or to do better about the
5	spread of misinformation on their platforms?
6	A. The Surgeon General on the call
7	with Nick Clegg, the Surgeon General did, I think,
8	reiterate the idea that, you know, as we described
9	in the advisory, that we think there's more that
10	the technology that Facebook and other social
11	media companies can do, and I think this yeah,
12	that's that's what we we reiterated that.
13	Q. Sorry. And what was it specific
14	do you remember Dr. Murthy saying, hey, you
15	know, honestly the health advisory has some pretty
16	specific proposals in it? Did Dr. Murthy say in
17	this call with Nick Clegg that, you know, hey, we'd
18	really like to see you do this specific thing and
19	that specific thing?
20	A. Not to my recollection. I think the
21	most specific questions were about understanding
22	the data around the spread of misinformation and
23	how we were measuring that, and whether or not, you
24	
	know, how how we could have external researchers

Page 36

1	helping us as a field understand the depth of the
2	problem.
3	Q. When you say "external researchers,"
4	what sort of people would we be talking about? Are
5	you talking about people outside of the Surgeon
6	General's office?
7	A. Yeah. So I think in general
8	again, I haven't I'd have to go back and look at
9	the advisory, but I think the notion is how I
10	mean, we would want external researchers outside
11	the Surgeon General's office, you know, academics
12	to be able to say just like we would with any
13	other public health issue, we think you know,
14	here's how we're measuring the harm and the impact,
15	and that it I think the conversation was, like,
16	it's currently difficult to do so.
17	Q. Do you know how many academics who do
18	that kind of research?
19	A. I do know at least we did a
20	rollout event for the for the for the day of
21	the I think the day or the week of the advisory
22	with Renee DiResta from the Stanford Internet
23	Observatory. That's one person I know externally.
24	Q. Anyone else?
25	A. Not off I'd have to ask someone

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

Page 37

- 1 like Daniel from the policy team who would be other
- 2 external folks, but my -- my imagination is, again,
- 3 sort of, you know, tier one research institutions
- 4 and partners who would -- would have researchers
- 5 who are certainly interested in this data.
- 6 Q. Do you know if -- you say Daniel with
- 7 the Russian last name and the policy team, do you
- 8 know if they worked with those kinds of external
- 9 researchers when they were developing the health
- 10 advisory?
- 11 A. I don't have any specific knowledge
- 12 about that, sir.
- 13 Q. Do you know if it was -- you
- 14 mentioned, I think, Renee DiResta. Do you know if
- 15 there was any interaction between the Surgeon
- 16 General's office and Professor DiResta in the
- 17 leading up to the development of the July 15th
- 18 misinformation advisory?
- 19 A. I'm not familiar. As I mentioned,
- 20 the -- the advisories were developed before --
- 21 before I arrived, so I don't know who -- who was
- 22 consulted for that.
- Q. Do you know, were there
- 24 communications or coordination with Professor
- 25 DiResta after the advisory came out?

Page 38

1	A. I know there was coordination with
2	her with respect to the launch of the there was
3	a panel, a public sort of virtual town hall that we
4	hosted with with the Sanford Internet
5	Observatory that Dr. Murthy spoke at, and that was
6	part of the launch day. So certainly there would
7	have been coordination with with her, with
8	respect to that panel.
9	Q. And you I think you mentioned that
10	launch would have occurred in the day or the week
11	of the of the advisory in July of 2021?
12	A. Yeah, it it was either that week
13	or, like, shortly thereafter. It would have been
14	within the, I would say a week, of the of the
15	launch we would have had that event with her. I
16	don't recall the date off the top of my head.
17	Q. Is is Professor DiResta affiliated
18	with an academic institution or a think tank or
19	what?
20	A. I believe that that was with
21	Stanford, so but I don't I don't know.
22	Q. Are you aware of any other kind of
23	communications or coordination with Professor
24	DiResta after that launch event?
25	A. I think that we had another subject

Page 39

1	matter expert, Kyla Fullenwider, who was a subject
2	matter expert and and worked on the advisory
3	with Daniel. And I believe she maybe did a
4	follow-up call with Renee after the event.
5	Q. Was she when you say "subject
6	matter expert," is she an and employee of the
7	Surgeon General's office?
8	A. I believe so. I think she was
9	detailed to the office. I'm not I don't
10	precisely know what her employment status was. I
11	don't know if it was a contractor, I'm not sure if
12	it was an IPA, or or if it was a direct hire.
13	But she certainly had a some relation some
14	more formal relationship with the Surgeon General's
15	office.
16	Q. Where was she actually employed?
17	A. I'm not sure, sir.
18	Q. Okay. What what is her subject
19	matter expertise?
20	A. What's that?
21	Q. You mentioned that she's a subject
22	matter expert. What exactly is she a subject
23	matter expert in?
24	A. I believe she's a subject matter
25	expert in health mis- and disinformation.

Page 40

1	Q. So she's a health mis- and
2	disinformation researcher, like Professor DiResta,
3	to your understanding?
4	A. I'm not I don't know that I'm
5	not deeply familiar with her bio, but she certainly
6	was considered a subject matter expert that was
7	working on this issue. She may have multiple areas
8	of expertise.
9	Q. You mentioned that there was some
10	kind of communication or later communication
11	between her and Professor DiResta at Stanford. Do
12	you know what the nature of that communication was?
13	A. I believe we did a call that was more
14	of a brainstorm around, you know, again, potential
15	other events or, you know, public-facing
16	public-facing events that we could do to talk about
17	this issue.
18	Q. And you were on that call along with
19	Ms. Fullenwider and the professor from Stanford?
20	A. I was, yeah.
21	Q. What else was discussed in that call?
22	A. I don't recall, but I just remember
23	I do remember that we talked about sort of if
24	there were events that we could do for follow-up.
25	But that's that's that's the most of my

Page 41

1	recollection.
2	Q. Did Ms. Fullenwider and Professor
3	DiResta discuss misinformation issues in the calls?
4	A. I mean, most likely. It was it
5	was about how we would follow up about
6	misinformation, so that was broadly the subject.
7	Q. And what what else was discussed
8	in that call, to your recollection, if anything?
9	A. I don't have any other recollection
10	of that call.
11	Q. Did you talk in the call?
12	A. I think I was more listening. This
13	is some mis- and disinformation was not in my
14	area of subject matter expertise coming into this
15	job, and so I was just trying to learn and and
16	make sure I was aware of, from a public engagement
17	perspective, how we might think about talking with
18	stakeholders or, you know, just move continue
19	if we wished to moved the ball forward and continue
20	to have public engagement, how we might do so. So
21	I was more in listening mode.
22	Q. Gotcha. But I take it
23	Ms. Fullenwider was acting on behalf of the Surgeon
24	General's office in that call. She's not an
25	outside researcher that you're connecting with

Page 42

1	Professor DiResta, but she's a has some, in your
2	understanding, formal role with the Surgeon
3	General's office, correct?
4	A. That's my understanding, sir.
5	Q. Okay. But you don't know exactly
6	what it is, whether she's an employee or an outside
7	contractor or anything like that?
8	A. I do not.
9	Q. Okay.
10	A. There are various ways that one can
11	be employed in the Office of the Surgeon General,
12	so I don't know what her employment status what
13	formal structure she had in place.
14	Q. Other than that call, are you aware
15	of any other kind of communications with Professor
16	DiResta or anyone at Stanford relating to mis- and
17	disinformation after the health advisory was rolled
18	out in July of 2021?
19	A. Not to my recollection.
20	Q. How about any other outside
21	researchers at any other institution, are you aware
22	of communication and coordination between the
23	attorney sorry, the Surgeon General's office
24	and and any other outside researchers or
25	research entities?

Page 43

1	A. There was at least one entity that
2	briefed I think it was not just the Surgeon
3	General's office, it briefed I think it was
4	brought in by someone else at HHS that was an
5	external group that had research on, like, their
6	their views on on mis- and disinformation and
7	the effects of mis- and disinformation so I
8	definitely sat in on one other briefing.
9	Q. Do you know who that was, what group
10	that was?
11	A. I don't. It was it was an outside
12	group that I think was brought in by someone at
13	HHS, and their it was a separate HHS sort of
14	public affairs shop, and they had requested a
15	briefing, so I was looped in, given that we had
16	done the outreach. So I sort of sat and listened
17	to the a briefing on the health and mis- and
18	disinformation from their perspective.
19	Q. Do you remember who at HHS called for
20	that meeting or called for the briefing?
21	A. It was the person who invited me, I'm
22	blanking on her name. She's now left the office,
23	but she worked for Marvin Figueroa was my
24	recollection.
25	Q. Who's Marvin?

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

Page 44

1	A. Marvin has some a senior public
2	affairs job. I don't know what his official title
3	is.
4	Q. What was the nature of the outside
5	group? Was it a think tank, was it a set of
6	academic researchers?
7	A. I think it was I think it was a
8	mix of those things, sir. I don't really recall.
9	I'm not positive.
10	Q. Do you know when the meeting
11	happened?
12	A. It's sometime probably within two
13	weeks, you know, before or after the rollout. I
14	think probably after, given that I think that's why
15	I got looped in, because we put out the advisory.
16	Q. Okay. So probably within a couple
17	weeks of that July 15th health advisory rollout?
18	A. Yeah.
19	Q. What was what kind of
20	misinformation issues or concerns were addressed in
21	that that briefing?
22	A. I think what I remember the most was
23	this group talking talking about the
24	misinformation dozen.
25	Q. Was this the Center for Countering

Page 45

1	Digital Hate, by any chance?
2	A. That may be it, sir. I'm not
3	positive. That sounds that sounds familiar.
4	Q. Yeah, CCDH I mean, they're the
5	ones who identified the Disinformation Dozen. Does
6	that ring a bell?
7	A. That does. That sounds familiar.
8	I'd have to check my e-mails to be or calendar
9	to be certain, but that sounds accurate.
10	Q. That is so you attended a
11	briefing, along with HHS officials, from the Center
12	for Counter Countering Digital Hate around
13	second half of July 2021, to the best of your
14	recollection?
15	A. I would want to check to make sure
16	that's the group, but it was certainly if it's
17	not the group, it's certainly those same issues,
18	sir.
19	Q. And what did they say about the
20	Disinformation Dozen?
21	A. I mean, I I think overall, it was
22	highlighting that they were the the main source
23	of health misinformation around COVID-19 and
24	
	vaccines was my recollection.

Page 46

1	"highlighting that they were a main source," that
2	means highlighting that the so-called
3	Disinformation Dozen were a main source of online
4	social media disinformation?
5	A. Correct.
6	Q. And did they propose any action
7	items? Did they want actions to be taken against
8	the Disinformation Dozen?
9	A. I don't recall.
10	Q. Do you know if that group
11	communicated with anyone else in the federal
12	government about the Disinformation Dozen?
13	A. I don't I'm not sure.
14	Q. Do you remember anything else that
15	was said in that that meeting with HHS
16	officials, Mr. Figueroa's office, yourself, and the
17	CCDH, was anything else discussed?
18	A. I don't recall. I think it was
19	mostly a listening session. We were they had a
20	presentation that they were giving, so it was
21	mostly an information in session.
22	Q. So did they give, like, a PowerPoint
23	or something like that?
24	A. That's correct.
25	Q. Do you know what the PowerPoint said?

Page 47

1	A. I think as we discussed, sir, the
2	it was a presentation about the Disinformation
3	Dozen and sort of how they were measuring those
4	that those were the folks primarily responsible for
5	a lot of misinformation online.
6	Q. And they're actually external
7	researchers who are kind of tracking misinformation
8	online, correct?
9	A. I don't have deep expertise about
10	that organization or group, so I'm not sure.
11	Q. Did you do anything with the
12	information you got in that briefing, like did you
13	relay it back to anyone in the Surgeon General's
14	office?
15	A. In all likelihood, I probably
16	forwarded the PowerPoint to some members of the
17	policy team, probably Daniel and Kyla would be my
18	guess, but I'd have to go back and check.
19	Q. And that's the two Daniel and Kyla
20	is Daniel with the Russian name and Kyla
21	Fullenwider, correct?
22	A. That's correct.
23	Q. And you believe most likely you
24	e-mailed them the the the PowerPoint from
25	this presentation about the Disinformation Dozen?

Page 48

1	A. That's correct.
2	
	Q. Anyone else was anyone else at
3	that meeting, other than the HHS official,
4	yourself, and the presenters?
5	A. I'm not positive. I don't recall.
6	It was probably a big call in terms of I think
7	there were a lot of folks from that organization,
8	and then I I think I had invited Daniel and Kyla
9	to the call. I don't think they made it. And I
10	would have perhaps also invited Rafael Compos, who
11	was another member of the engagement team.
12	Rafael helped create the event with
13	with with the Sanford Internet Observatory
14	for the launch, so this was in his sort of
15	portfolio on my team. So I would have invited
16	Rafael, perhaps.
17	Q. How do you spell his name?
18	A. Rafael is just R-A-F-A-E-L, and then
19	Compos is C-O-M-P-O-S.
20	Q. Was he I think you mentioned he
21	was the point person working with Stanford and
22	Professor DiResta and the launch event?
23	A. So Rafael, yes, that is correct.
24	Q. Did he have other communications with
25	Stanford or Professor DiResta?

Page 49

1	A. I'm not sure. I imagine he would
2	have in the run-up to the event. So Rafael was a
3	member of my team who was helping plan that rollout
4	event, and it was prior to my arrival was the
5	main engagement person working on rollout.
6	Q. How about after the event, did he
7	have communications with them afterwards?
8	A. I'm not sure.
9	Q. I'm showing you a document that's
10	previously marked Exhibit 2 that I e-mailed to your
11	lawyer a little while ago as well. Can you see
12	that?
13	A. I do.
14	Q. You see this document called OSG
15	high-level org chart marked Exhibit 2?
16	A. I see it, sir, yes.
17	Q. And then down here, you're listed
18	right here as the leader of the engagement team for
19	the Surgeon General's office?
20	A. That's correct.
21	Q. And it says that you lead outreach
22	and engagement with key stakeholders and groups,
23	correct?
24	A. That's correct.
25	Q. And it talks about how you have

Page 50

1	relationship management with nonmedical groups and
2	key influencers?
3	A. That's correct.
4	Q. What does that mean "relationship
5	management with nonmedical groups and key
6	influencers"?
7	A. So I think the notion that we had as
8	we were continuing to build and design this version
9	of Surgeon General's team, which is certainly
10	unique is that we would the engagement team
11	would be designed a little bit like the White House
12	Office of Public Engagement.
13	So we would think about different
14	constituent groups and how we were reaching out to
15	them. So whether that's so you might think
16	there's civil rights groups, education groups,
17	mayors, governors, sort of a litany of
18	organizations, foundations, philanthropy, et
19	cetera, that there's sort of a list of high-level
20	organizational groups who we might want to reach
21	out to about our issues or might have feedback for
22	us as well.
23	And then our team would be the main
24	liaison. So we'd be the person helping have a
25	point of contact at the PTA or at the at the

Page 51

1	NEA, at AFT, and say, great, we have that
2	relationship, and we may connect them with
3	different members of our team, but when we're doing
4	an event on youth mental health, we know, well,
5	gosh, if we want to talk to parents, you know, the
6	engagement team has the contact and the Rolodex
7	with the the PTA or with the AFT or with the
8	teacher union or with a school district. So we
9	were sort of that was the notion of how we could
10	help the relationship management.
11	Q. And I take it that that those
12	contacts would extend to social media platforms as
13	well, that you as the engagement team leader would
14	be the one in charge of maintaining the contacts
15	and the relationships with representatives of
16	social media platforms?
17	A. That's correct.
18	Q. Yeah, and you
19	A. I think social media, there's, like,
20	two versions of that where also given that on
21	some in other cases, we are working social media
22	on just, you know, the the Surgeon General might
23	be having a Twitter town hall that our coms team
24	might take the lead or we might loop in other
25	members of the team as appropriate. So if it was

Page 52

1	more of a press event, we may, you know there
2	may be some co-ownership.
3	Q. Gotcha. Whereas other kind of
4	engagements would fall more under your wheelhouse
5	that wasn't about, you know, rolling something out
6	
	on Twitter and Facebook, right?
7	A. I'm sorry, can you repeat that, sir?
8	Q. Other engagement that wasn't kind of
9	about the Surgeon General's office pushing public
10	communications onto social media platforms, other
11	engagement with social media platforms would fall
12	under your responsibilities?
13	A. I think so. Again, trying to my
14	view is that our team would be the help maintain
15	the relationships, and then connect them with the
16	subject matter experts on the policy team or or
17	more we're a more, very cross-functional team,
18	but we were the ones who would be sort of the folks
19	helping manage those relationships, know who we
20	needed to reach out to in the constellation and
21	then connect them to the right people to help share
22	the information.
23	Q. Who did you develop contacts with,
24	social media platforms? Like how'd you know who to
25	talk to at Facebook or Twitter, you know, when

Page 53

1	you I think you mentioned earlier you reached
2	out to them, you know, to loop them in, that the
3	health advisory was coming. How did you know who
4	to talk to there?
5	A. During the rollout when I arrived,
6	there had had already been a lot of work done
7	again, this was our first rollout, and it was
8	really, you know, my first two days I got looped
9	in. I think Daniel had taken a crack at, again, a
10	rollout tick-tock of here's who we need to reach
11	out to, here's the days we're going to do it.
12	And I think there was a list of
13	of of technology companies and people were
14	dropping in names of, you know, the folks they knew
15	or who we might reach out to.
16	So I think I know certainly
17	Dr. Murthy was the one who flagged for me that we
18	should reach out to Nick Clegg, so he had his
19	his contact information. For the other
20	organizations, I'm not I don't really recall.
21	It probably came from a spreadsheet that Daniel
22	had.
23	I'd worked with Twitter certainly in
24	other jobs, and I knew at least, like, a person or
25	two. I may have sent a you know, I had contact

Page 54

1	at at Google from a different from a previous
2	employment and asked, hey, who's the government
3	affairs person? So I may have asked that. I don't
4	really recall, but it was either crowd-sourced in a
5	Google or in an Excel spreadsheet or previous
6	spokes
7	So we can see when you're typing, if
8	someone's typing an e-mail an e-mail right now.
9	Q. Sorry, yeah. I'll get rid of that.
10	Let me ask you this: I think you had
11	mentioned that Daniel had a spreadsheet of
12	contacts. Do you know where he got those contacts?
13	A. I do not.
14	Q. How about do you know if he had
15	communicated with them prior to your starting in
16	June? On June 20th of 2021, had he been touching
17	base with social media platforms before that?
18	A. I don't know. I don't think so.
19	Because when we were talking about the rollout, a
20	very specific decision was made that I would do the
21	outreach to the to those organizations, and I
22	took the implication, but I don't really remember
23	that there hadn't been deep contact with them. I
24	think partly because we didn't think they would be
25	happy about this you know, the content of the

Page 55

1	advisory.
2	Q. Let me ask you this: What do you
3	know if anyone prior to your starting on
4	June 20th of 2021, do you know if anyone in the
5	Surgeon General's office had any contact with
6	social media platforms like Facebook, Twitter
7	Google/YouTube?
8	A. I think there was at least one call
9	that I'm aware of that the Surgeon General had with
10	Facebook during the transition.
11	Q. When you say "during the transition,"
12	would that have been prior to the inauguration of
13	the President?
14	A. That's correct. During the
15	transition team, sometime between November I
16	guess I don't know when the election was
17	November 8th and and January 2020.
18	Q. Do you know roughly when in that time
19	frame there would have been a call
20	A. I don't.
21	Q between
22	A. I do not.
23	Q. Go ahead. Were you involved in that
24	call?
25	A. I was not.

Page 56

1	Q. Okay. How do you know about it?
2	A. When we were setting up our call with
3	Nick Clegg, I mentioned to folks who had been on
4	the call with Facebook for that rollout call, and
5	Dr. Murthy had mentioned that he had been on a call
6	with that person during the transition.
7	Q. What person was that, other than Nick
8	Clegg?
9	A. It was a someone it was, like,
10	a data person from the Facebook team.
11	Q. Do you know what was discussed in
12	that call between Surgeon General Murthy and the
13	data person from the Facebook team during the
14	transition?
15	A. I'm not positive, but I believe it
16	was, again, about that issue of trying to
17	understand the reach of the mis- and disinformation
18	and understanding, you know, how far it was
19	spreading.
20	Q. Do you know do you know anything
21	that was said in that call?
22	A. I do not.
23	THE REPORTER: I'm sorry, what was
24	that?
25	Q. (BY MR. SAUER) Do you know anything

Page 57

1	that was said in that call?
2	A. I do not.
3	Q. And are you aware or do you know
4	what the nature of the concern was about the reach
5	of mis- and disinformation that was raised in that
6	call?
7	A. I'm not sure.
8	Q. Do you know if anyone participated in
9	that call from the Surgeon General's team, so to
10	speak, other than Dr. Murthy?
11	A. I'm not sure.
12	Q. How about how about any other
13	calls prior to your starting on June 20th of '21,
14	or any other communications, between anyone on the
15	Surgeon General's team and social media platforms?
16	A. I am not aware of any.
17	Q. Down here, turning your attention
18	back to Exhibit 2, there's a person listed here:
19	Anne Kim is the head of the design and innovation
20	team. Do you see that?
21	A. Yes.
22	Q. And it says she creates digital
23	platforms. Do you know what that means?
24	A. So Anne comes from a design
25	background at a firm called IDO, and so I think she

Page 58

- 1 has members of her team who also, you know, were
- 2 doing a website refresh for the Surgeon General's
- 3 team. So I think it's -- some of those online
- 4 digital -- digital content.
- 5 Q. That -- so when it says produces
- 6 nonwritten content, is that, like, photos and
- 7 videos for the Surgeon General?
- 8 A. Yes, correct, yeah. So, like, and
- 9 also I think now the Surgeon General has a -- a
- 10 podcast as well that I think her team has been key
- 11 on designing.
- 12 Q. Okay. And at the bottom of the list
- 13 there, it says that she directs mis- and
- 14 disinformation engagement. Do you see that?
- 15 A. I do.
- 16 Q. And what does that involve?
- 17 A. I think -- again, I'm not sure when
- 18 -- which version of this -- obviously this org
- 19 chart continued to change over time. I think it's
- 20 likely because Kyla Fullenwilder reported up to
- 21 Anne Kim. And since Kyla, I think, was our main
- 22 subject matter expert or continued to do work on
- 23 mis- and disinformation, maybe that was why that
- 24 was put under Anne's list of duties.
- O. You don't think that Ms. Kim herself

Page 59

1	was directly carrying out the direction of mis- and
2	disinformation engagement?
3	A. Not to my knowledge.
4	Q. But you think that Kyla Fullenwilder
5	was doing that?
6	A. Kyla was definitely working on mis-
7	and disinformation.
8	Q. And what was she doing? When you say
9	she's working on it, what was she doing?
10	A. I know Kyla was, again, with Daniel,
11	I think probably working well, I wasn't there,
12	but I'm pretty sure she was working with Daniel on
13	the design of the of the advisory. And then I
14	think Kyla was continuing to help us think about
15	were there additional ways we might engage.
16	So I know that Kyla, I think, was the
17	principal designer of options around follow-up with
18	respect to data. So I think the Surgeon General's
19	office put out an RFI around misinformation data,
20	and I think Kyla worked on that.
21	Q. And that RFI, is that the one that
22	was launched on March 3rd of 2022?
23	A. That sounds correct, sir.
24	Q. Yeah. And your understanding is Kyla
25	Fullenwilder worked on developing that. Is that

Page 60

1	fair to say?
2	A. That's my understanding, sir.
3	Q. What was her role in that, to your
4	knowledge?
5	A. I'm not entirely certain, but I think
6	she was the subject matter expert who was chiefly
7	creating options for the Surgeon General's you
8	know, to consider how we would continue to, you
9	know, talk about mis- and disinformation with
10	respect to data.
11	Q. Do you know who else was involved in
12	developing that RFI?
13	A. I'm not sure, but I think Max Lesko,
14	the chief of staff, was helping Kyla process-wise
15	for that.
16	Q. You mentioned Mr. Lesko, he's here on
17	the org chart, and you report directly to him,
18	right, through this current line?
19	A. That's correct, yep.
20	Q. What's his role when it comes to
21	to your knowledge, when it comes to dealing with
22	mis- and disinformation issues?
23	A. I think Max became a de facto lead as
24	teams as teams shifted and helped helped
25	follow up on engagement. You know, I was doing the

Page 61

- 1 rollout, then I went on paternity leave, then Adam
- 2 left -- Adam Beckman, and then -- so I think -- I
- 3 think Max sort of filled in the gap and was
- 4 certainly helping Kyla and helping advise the
- 5 Surgeon General on -- on -- on some of the
- 6 misinformation issues of if there was any follow-up
- 7 we needed to do.
- 8 Q. Was Max Lesko involved in
- 9 communicating directly with social media platforms,
- 10 for example --
- 11 A. To my knowledge, Max was the person
- 12 who sent the RFI to the tech companies while I was
- 13 out.
- 14 Q. And when were you on paternity leave?
- 15 A. There were two rounds of paternity
- 16 leave.
- Q. Congratulations.
- 18 A. You know, around one month or
- 19 between -- around September 16th to, like,
- 20 October 16th or 17th, I'd have to check, and then
- 21 around January through early March.
- Q. Okay. Did Mr. Lesko have any other
- 23 communications with social media platforms that
- you're aware of?
- A. Not to my knowledge.

Page 62

1	Q. How about Kyla Fullenwilder
2	A. Actually, sorry sir
3	Q. Go ahead.
4	A may I no, that no, I'm
5	right, sorry, not to my knowledge.
6	Q. Okay. You thought of something there
7	for a second. What were you
8	A. I was trying to remember I
9	apologize, sir, I'm interrupting you, making it
10	hard for our court reporter.
11	Q. Go ahead.
12	A. Thank you. I was trying to remember
13	if Max had been on the call with Nick Clegg and he
14	was not is my recollection.
15	Q. Any other involvement of Mr. Lesko in
16	communications with social media platforms that you
17	can think of?
18	A. Not to my knowledge, sir.
19	Q. How about Kyla Fullenwilder? We
20	talked earlier that she was communicating, I think,
21	with external researchers, for example Professor
22	DiResta. Was she involved in communicating
23	directly with social media platforms at any stage?
24	A. So Kyla was someone I invited to
25	those rollout calls as a subject matter exert, and

Page 63

1	she joined some of them but not all. So I recall
2	that she joined the Twitter call and the Facebook
3	call, but I'm not sure if she joined any of the
4	other ones.
5	Q. Other than those rollout calls with
6	you, what did she have any other communications
7	with social media platforms?
8	A. I'm not sure, not to my knowledge. I
9	guess it's possible in the RFI pieces, but I'm
10	not I think Max was the one who communicated, so
11	I don't have knowledge of that.
12	Q. Okay. How about other people
13	anywhere on the org chart? I think obviously, you
14	know, that statement directs mis- and
15	disinformation engagement under Anne Kim's job
16	description seems to suggest that somebody's
17	engagement usually means some form of
18	communication.
19	Is there anyone else that you're
20	aware of who's communicated with social media
21	platforms about mis- and disinformation?
22	A. Not to my knowledge.
23	Q. So the only ones you know of are
24	yourself and Ms. Fullenwider and then Mr. Lesko
25	when it came to announcing the RFI?

Page 64

1	A. Again, Daniel may have Daniel
2	Tartakovsky may have been invited as an optional to
3	some of those rollout calls with the tech
4	companies. I don't recall if he was on.
5	Q. How about anyone outside the Surgeon
6	General's office, are you aware of other federal
7	officials communicating with social media platforms
8	about mis- and disinformation?
9	A. I believe I certainly was on some
10	e-mails and at least one call with Rob Flaherty
11	would communicate with Facebook.
12	Q. Did he communicate is that Rob
13	Flaherty from the White House?
14	A. That's correct, sir.
15	Q. Yeah. What's his title and role?
16	A. I think he he is a some sort of
17	digital title. I don't know if it's digital
18	director, head of digital, but he has a role on the
19	digital team at the White House, to the best of my
20	knowledge.
21	Q. Did you communicate with him or
22	coordinate with him about talking to social media
23	platforms about disinformation and misinformation?
24	A. I didn't talk to Rob until after we
25	did the rollout, so it wasn't it was it was

Page 65

1	before our call with Nick Clegg, I think I had a
2	call with Rob.
3	Q. What was the nature of that call?
4	A. I think it was just giving us a
5	heads-up on his experiences with in
6	communicating with with with Facebook.
7	Q. So he had been separately
8	communicating with Facebook?
9	A. I believe so.
10	Q. And you were coordinating on how to
11	present a united message to them?
12	A. No.
13	Q. No? What what was the nature of
14	the the the discussion in that call with Rob
15	Flaherty?
16	MS. CHUZI: Objection to the extent
17	that the question is asking for privileged
18	information that's covered by the delivery of
19	process privilege, I will instruct the witness not
20	to answer.
21	THE WITNESS: On the advice of
22	counsel, I will not answer.
23	Q. (BY MR. SAUER) So you're refusing to
24	answer a question about your communications with
25	Rob Flaherty regarding both of your communications

Page 66

1 with Facebook?	
2 A. On the advice of counsel, I will not	
3 answer the question.	
4 Q. Was there anyone else involved in	
5 that call? Without disclosing the content of	
6 communications, who else was on that call?	
7 A. No one else was on the call.	
8 Q. Did you have any other communications	
9 with Mr. Flaherty, other than that call?	
10 A. There was one other call that Brian	
11 Rice from Facebook requested for me and Brian	
12 for me and Rob to attend. So there was some call,	
13 I think around August of 2021, where where we -	-
14 the three of us were on a call together.	
Q. What was the nature of that call?	
16 A. Brian had Brian Rice from Facebook	•
17 had requested a call to give us an update on some	
18 sort of internal action they were doing. So I	
19 think it was him sharing some sort of he called	•
20 it an operation. I don't really recall what it wa	S
21 about, but it was something that Facebook had	
22 either found something or removed something and wa	S
23 letting us know about it.	
Q. Are you aware of any other federal	
25 officials communicating with social media platform	s

Page 67

1	about misinformation and disinformation other than
2	Mr. Flaherty?
3	A. Other than the folks we've already
4	other than the people we've already talked about?
5	Q. Right, yeah, I think I'm talking
6	about now outside the Office of the Surgeon
7	General.
8	A. Sorry. Pardon me. Thank you, sir.
9	Thank you for the clarification. Not to my
10	knowledge.
11	Q. How about Andy Slavitt, do you know
12	of any communications with him with social media
13	platforms?
14	A. I know that Dr. Murthy shared with me
15	that Andy had connect Andy had connected
16	Dr. Murthy to Nick Clegg because when Andy was
17	leading the White House, he had been a connection
18	for Nick and someone he talked to, and that he
19	promised Nick Andy promised Nick that he could
20	have, you know, a person he could talk to, and then
21	looped looped Dr. Murthy and and Nick.
22	Q. So Nick Clegg's contacts in the
23	federal government to talk about misinformation
24	issues prior to that was Andy Slavitt in the White
25	House?

Page 68

1	A. I don't know that they spoke of
2	misinformation. I know that they were they were
3	certainly in contact.
4	Q. And then when Andy Slavitt left the
5	White House, he kind of offered Surgeon General
6	Murthy as a as a direct contact for Nick Clegg?
7	A. That's my understanding, sir, yes.
8	Q. Are you aware of Andy Slavitt having
9	any other communications with social media
10	platforms about mis- or disinformation?
11	A. I am not aware of any communications.
12	Q. How about anyone else in the White
13	House? Are you aware of anyone else in the White
14	House being involved in communications or
15	discussions with social media platforms that relate
16	to misinformation or disinformation?
17	A. I'm not aware of any, sir.
18	Q. How about anyone else in the
19	Department of Health and Human Services?
20	A. I'm not aware, sir.
21	Q. How about anyone else in any other
22	federal agency?
23	A. I'm not aware.
24	Q. Have you ever had communications with
25	anyone at CISA, Cybersecurity and Infrastructure

Page 69

1	Security Agency?
2	A. I don't think so. I don't recall
3	that.
4	Q. How about someone called Brian
5	Scully, do you know who that is?
6	A. I do not that does not ring a
7	bell, sir.
8	Q. How about Jen Easterly, does that
9	name ring a bell?
10	A. I don't think so, sir.
11	Q. How about Lauren Protentis?
12	A. I don't think so, sir.
13	Q. How about Dr. Fauci, Anthony Fauci,
14	have you had communications or discussions with him
15	of any kind?
16	A. I have not had any communications
17	with Dr. Fauci, sir.
18	Q. Do you know if he has had discussions
19	with other people in the Surgeon General's office
20	such as Surgeon General Murthy or others?
21	A. Dr. Murthy has certainly had
22	conversations with Dr. Fauci.
23	Q. Do you know what the nature of those
24	conversations were?
25	A. I do not.

Page 70

1	Q. Do you know if any of those
2	conversations related to misinformation or
3	disinformation?
4	A. I do not.
5	Q. Do you know of anyone else in the
6	Office of Surgeon General communicating with
7	Dr. Fauci?
8	A. None to my knowledge. Adam Beckman
9	would maybe be someone who might have helped
10	coordinate calls. He was sort of did a lot
11	of a lot of things, especially as we were
12	lightly more lightly staffed at the beginning of
13	
	the administration, but I think Dr. Murthy would
14	have directly communicated with Dr. Fauci, to my
15	knowledge.
16	Q. And you're not aware of anyone else
17	being on those communications other than Dr. Murthy
18	from the OSG side?
19	A. Yeah, not to any knowledge.
20	Q. Okay. How about Dr. Francis Collins,
21	the head of NIH? Have you ever communicated with
22	him?
23	A. I have not.
24	Q. Are you aware of anyone at the Office
25	of Surgeon General communicating with him?

Page 71

1	A. I I imagine I think I'm
2	certain that Dr. Murthy has connected, but I don't
3	know.
4	Q. You say you're certain that
5	Dr. Murthy has connected
6	A. Sorry.
7	Q. Yeah, go ahead.
8	A. Sorry. It would I believe
9	Dr. Murthy has connected with Dr. Collins.
10	Q. Were you involved in those
11	conversations?
12	A. I was not.
13	Q. Do you know if they related to
14	misinformation or disinformation?
15	A. I do not.
16	Q. Did Dr. Fauci or Dr. Collins have any
17	role in devising either the health advisory from
18	July of 2021 or the RFI from March of 2022 that
19	you've already talked about?
20	A. I don't know.
21	Q. And I think you said that
22	Dr. Murthy you believe Dr. Murthy has had direct
23	conversations with Dr. Collins. Do you know who
24	else was involved in those communications, if
25	anyone?

Page 72

1	A. I do not.
2	Q. So, to your knowledge, the only
3	people that you know who would have been involved
4	would be Dr. Murthy himself and Dr. Collins?
5	A. That's correct.
6	Q. Same question for Dr. Fauci, the only
7	ones you know of who were directly involved in
8	those communications were Dr. Murthy and Dr. Fauci?
9	A. That's correct.
10	MS. CHUZI: Counsel, we've been going
11	for about an hour. Is there are we approaching
12	a good stopping point for a short break?
13	MR. SAUER: I was going to do one
14	more exhibit. It's a long exhibit, a longer, so
15	probably be on it for about 15, 20 minutes. Do you
16	want to keep going, or I'm fine taking a break,
17	too.
18	THE WITNESS: Let's let's finish
19	this exhibit and then we'll take a break.
20	Q. (BY MR. SAUER) Okay. It's Exhibit
21	3, which I previously e-mailed to your counsel.
22	Can you see the document?
23	A. I have the document in front of me
24	from my counsel, from government counsel.
25	Q. Hang on a second, I'm not showing

Page 73

1	A. But I don't see it on the shared
2	screen.
3	Q. Here we go. How that's?
4	A. Yes, sir.
5	Q. And this is Defendant's
6	Second-Amended Combined Objections and Responses to
7	Plaintiffs' First Set of Expedited Preliminary
8	Injunction-Related Interrogatories. That's what
9	it's titled, correct?
10	A. That is what it says, sir.
11	Q. Are you aware that the Office of
12	Surgeon General responded to interrogatories in
13	this case?
14	A. I know that we had been had
15	various legal issues around misinformation and were
16	creating documents for DOJ. I'm not I don't
17	know that I specifically knew about this set of
18	interrogatories.
19	Q. Were you involved in, you know,
20	collecting information to respond to
21	interrogatories?
22	A. I believe so. Again, I was
23	responding to requests around the legal matters
24	with respect to misinformation, so probably. I
25	don't I know there have been multiple lawsuits

Page 74

1	
1	about this, so I'm not sure which one.
2	Q. What what was what was the
3	nature of I don't want to ask anything that your
4	lawyers told you, but I want to know what is the
5	nature of your activities of collecting the, you
6	know, information in response to interrogatories.
7	Did you, you know, dig up documents, search your
8	e-mail? What kind of stuff did you do?
9	A. So, for example yes, searching
10	e-mails, searching my calendar for meetings with
11	organizations, et cetera.
12	Q. Anything else? Did you search
13	personal devices and personal e-mails?
14	A. I would have looked at all all
15	records that were requested from DOJ. I would have
16	looked at any relevant devices that might have
17	as part of the request.
18	Q. Have you ever communicated with the
19	social media platform using a sort of personal
20	e-mail account, personal device, anything like
21	that?
22	A. No, sir.
23	Q. And have you ever had work-related
24	communications that related to misinformation or
25	disinformation on a personal account or device?

Page 75

1	A. No, sir.
2	Q. Were you aware that we received
3	amended interrogatories on Tuesday of this week
4	that relate to the responses from the Office of
5	Surgeon General?
6	A. I don't think so, but I'm not sure.
7	Q. So are you aware that the responses
8	were provided on September 27th and then amended
9	responses were provided a few days ago.
10	A. I'm not aware of the dates of or
11	the responses.
12	Q. I want to direct your attention to
13	page 32 of this document.
14	Is this familiar to you, this OSG
15	response where it says: OSG responds that the
16	following meetings took place with social media
17	platforms relating to misinformation?
18	A. Are you is this the whole page?
19	Can you give me a second to read this, sir?
20	Q. Sure, yeah. This response goes on
21	for about two full pages. So if you look at page
22	32 and 33 with a little paragraph spilling onto
23	page 34.
24	A. Okay, sir, I reviewed pages 32 and
25	33.

Page 76

1	Q. Gotcha. And you see there's nine
2	bullets points there identifying nine meetings
3	between people from the Office of Surgeon General
4	and social media platforms relating to
5	misinformation?
6	A. I see this, yes.
7	Q. Were you involved in collecting
8	information to identify these meetings?
9	A. I was.
10	Q. And so you searched your calendar,
11	for example, to find information to identify
12	meetings that you were involved in?
13	A. That's correct.
14	Q. Do you know why we received an
15	updated version that added a couple new meetings
16	that hadn't previously been mentioned? Do you know
17	why that happened a couple days ago?
18	A. I do not.
19	Q. Did you find new meetings to disclose
20	to us, you know, recently?
21	A. I did not.
22	Q. Okay. Do you know why these
23	interrogatories were amended to add new information
24	shortly before your deposition?
25	A. I do not.

Page 77

1	Q. Let me ask you this: Did you review
2	any documents to prepare for your deposition?
3	A. I did.
4	Q. Yeah, what sort of documents did you
5	review?
6	MS. CHUZI: Objection. Work product.
7	Q. (BY MR. SAUER) What sort of
8	documents did you review to to prepare for your
9	deposition?
10	MS. CHUZI: Same objection. The
11	question calls for information covered by the work
12	product doctrine, and I will instruct the witness
13	not to answer.
14	THE WITNESS: On the advice of
15	counsel, I will not answer the question.
16	Q. (BY MR. SAUER) Let me turn your
17	attention to here on the top of page 32. Let's
18	just I want to walk through these meetings, and
19	just see what you remember about them.
20	So for the first bullet point here
21	identifies a meeting on May 25th, 2021, involving
22	Dr. Murthy and Andy Slavitt meeting remotely with
23	Nick Clegg from Facebook, correct?
24	A. That is what the document says,
25	correct.

Page 78

1	Q. And I take it this is before you
2	started at the Office of Surgeon General and you
3	weren't directly involved in this meeting?
4	A. That's correct.
5	Q. But I think you testified about this
6	meeting a minute ago from what your understanding
7	of it was. What do you understand?
8	A. I'm I'm
9	Q. Go ahead.
10	A. Sir, I don't think that's correct.
11	I I know that they were connected. I don't know
12	that this was that meeting or if it was an e-mail
13	or something else.
14	Q. Oh, interesting. Okay. Yeah, sorry,
15	I didn't mean to put words in your mouth. Looking
16	at this description of the meeting where it talks
17	about how on May 25th there was a remote meeting
18	between Dr. Murthy, Andy Slavitt, and Nick Clegg,
19	what do you know about what happened in that
20	meeting?
21	A. I don't know anything, sir.
22	Q. Do you know of any meetings
23	obviously these meetings are listed in
24	chronological order. And the first meeting listed
25	between OSG personnel and social media platforms is

Page 79

1	on May 25th, 2021, correct?
2	A. That is what is listed, sir, yes.
3	Q. Are you aware of any meetings that
4	happened before May 25th, 2021, between anyone in
5	the Office of Surgeon General and anyone at a
6	social media platform?
7	A. I think this is what we talked about
8	before, sir. I think there may have been a meeting
9	during the transition. That's only meeting I'm
10	aware of.
11	Q. And that was that meeting you talked
12	about involving Dr. Murthy and someone on the data
13	side at Facebook?
14	A. That's correct.
15	Q. Do you know who that was? Do you
16	know the name of that Facebook individual in that
17	meeting?
18	A. I don't recall, sir.
19	Q. Do you know if anyone else was in
20	that meeting, other than Dr. Murthy and the person
21	from Facebook?
22	A. I don't recall or I actually don't
23	know.
24	Q. Do you know if any well, let me
25	ask you this: Do you know if the data being
	<del>-</del>

Page 80

1	discussed was data about misinformation on on
2	Facebook?
3	A. I believe that was a topic of
4	conversation.
5	Q. Do you know of any other topics of
6	conversation?
7	A. I do not.
8	Q. Do you know what was said about the
9	data of misinformation data about misinformation
10	on Facebook?
11	A. I think the only piece I know from
12	that conversation was, again, Facebook sort of
13	being un you know, not clear, or unable to
14	present the the depth or reach of the
15	misinformation, that they didn't have that data.
16	Q. And so Facebook told Dr. Murthy in
17	the transition, on your understanding, that they
18	didn't really have good data on the depth and reach
19	of misinformation on their platform?
20	A. I believe so.
21	Q. And Dr. Murthy, do you know what he
22	said about that?
23	A. I don't know.
24	Q. Who was on that call, other than that
25	unidentified Facebook person and Dr. Murthy, to

Page 81

_	
1	your knowledge?
2	A. I don't know.
3	Q. So you don't know of anyone other
4	than Dr. Murthy who would be able to identify what
5	was stated in that call?
6	A. I don't know. It's possible DJ Patil
7	would have been on that call. I think he was on
8	the transition as well, but I'm not positive.
9	Q. Who's DJ Patil?
10	A. DJ was that chief data scientist in
11	the Obama administration, and he was a special
12	government employee at the White House for part of
13	the first year.
14	Q. What what time range frame?
15	A. I think the first six months or so.
16	Q. So he was a White House official for
17	about six months in some capacity?
18	A. That's my understanding.
19	Q. Yeah, do you know exactly what his
20	role was?
21	A. I do not.
22	Q. Do you know if he communicated with
23	social media platforms about misinformation?
24	A. DJ was on the call with Dr. Murthy
25	and myself with Nick Clegg.

Page 82

1	Q. Okay. And so he was joining that
2	call in his capacity as a White House official?
3	A. That's my understanding.
4	Q. Okay. And then you think he may have
5	been involved in this call in the transition
6	involving Dr. Murthy and the data person at
7	Facebook?
8	A. Maybe. I'm not certain, sir.
9	Q. How about any other communications
10	involving DJ Patil and social media platforms, are
11	you aware of any others?
12	A. There was a follow-up e-mail from
13	Nick after our call, and I connected DJ to another
14	research data person on on the I think I was
15	doing a matchmaking of DJ and a Facebook data
16	person. I'm not certain if they ever connected.
17	Q. Who was that Facebook data person?
18	A. I don't recall the name, sir.
19	Q. How did you know who to connect him
20	to?
21	A. I think either Nick or Brian Rice
22	gave us the person to connect them with.
23	Q. What was the purpose of connecting DJ
24	Patil, the White House scientist, with the Facebook
25	data person?

Page 83

1	A. I think to better understand the
2	the nature of the data reach on the misinformation.
3	Q. So the idea was go ahead, sorry.
4	A. I think, again, the problem was we
5	were still in this piece of not understanding the
6	reach and depth of the of the reach of
7	the misinformation on the on Facebook. And I
8	think this person was going to try to explain to DJ
9	the data challenges in doing so.
10	Q. So the idea was that DJ, the White
11	House scientist, would be able to talk to the data
12	person at Facebook so that the White House could
13	understand the reach and depth of misinformation on
14	Facebook?
15	A. I'm not certain, but I think that
16	was that was one of the pieces.
17	Q. Are you aware of any other pieces?
18	A. I am not.
19	Q. Do you know if DJ, you know, proposed
20	action items to them about sharing data or any
21	other action items relating to misinformation?
22	A. I'm not aware of any.
23	Q. Do you know of any anyone else in
24	the federal government proposing action items to
25	social media platforms about controlling

Page 84

1	misinformation on their platforms?
2	A. I think certainly Jen Psaki made
3	statements during the press conference on the
4	release date that could be that I think would
5	answer would be within what you're describing.
6	Q. And she was the White House press
7	secretary at the time?
8	A. That's correct.
9	Q. Anyone else other than Ms. Psaki?
10	A. To my knowledge?
11	Q. I'm sorry, did you say not to your
12	knowledge or?
13	A. Not to my knowledge, sir, yeah.
14	Q. Let me direct your attention back to
15	this document. We talked about this May 25th
16	meeting. And do you know you said this may or
17	may not have been the interaction you testified
18	about earlier where Nick Clegg was connected to
19	Dr. Murthy. Do you know what was discussed in this
20	call, other than introducing them to each other?
21	A. I do not.
22	Q. So it mentions here in the
23	interrogatory response that the purpose of the call
24	was to introduce Dr. Murthy to Mr. Clegg, and it
25	goes on to say: Misinformation may have been

Page 85

1	discussed.
2	Do you know whether misinformation
3	was discussed in any connection?
4	A. I do not.
5	Q. Do you know why the interrogatory
6	responses say that it may have been discussed?
7	A. I don't know why, other than the
8	prima facie because it's possible it could have
9	happened.
10	Q. Okay. On July 12th, the next meeting
11	listed, there's a meeting listed between you and
12	Lauren Culbertson and Todd O'Boyle from Twitter,
13	and it mentions that Kyla Fullenwilder from US
14	Digital Response was invited and may have attended,
15	correct?
16	A. That's correct.
17	Q. And this is the same Ms. Fullenwider
18	that you talked about earlier who had a role in
19	some kind of role on behalf of the Surgeon
20	General's office, right?
21	A. That's correct.
22	Q. And it lists her as from US Digital
23	Response. Do you know what US Digital Response is?
24	A. I think it's some sort of
25	quasi-governmental organization that helps helps

Page 86

1	do helps government do digital and data better.
2	Q. Is it is it, like, a private
3	organization that contracts with the federal
4	government, or is it a you know, is it a federal
5	government agency?
6	A. I'm not positive, sir. I don't know
7	the nature of USDR. I think they have .gov e-mail
8	addresses is what I do know.
9	Q. And it says here that the meeting
10	provided notice of the upcoming OSG advisory. I
11	take it that's the health misinformation advisory
12	that was launched three days later, correct?
13	A. Yes, sir. This refers to the meeting
14	you and I have discussed already about the rollout
15	calls, the prerollout calls, yep.
16	Q. Okay. It says: A high-level view of
17	what issues the OSG would be prioritizing in the
18	advisory. Did you give them that that
19	high-level view?
20	A. I believe Kyla would have walked them
21	through the high-level view. So, again, my role as
22	part of the for the rollout was to, essentially,
23	reach out to those groups to establish that
24	relationship and then connect them to our subject

matter expert to be able to stay at a high level,

25

Page 87

1	this	is	what's	happening.

- 2 Again, because it was a rollout, we
- 3 couldn't share the document, it was embargoed, but
- 4 we could say at a high level, we're going to be
- 5 calling for these things, and we encourage you to
- 6 take a look when it comes out.
- 7 Q. And did Kyla give that high-level
- 8 view?
- 9 A. It says she was invited and may have
- 10 also attended. I can't recall. If she did attend,
- 11 she would have done so. Otherwise, I would have
- 12 provided a very general overview.
- Q. Okay. When you say here that things
- we're calling for, what sort of things do you tell
- 15 them in this rollout call?
- 16 A. I think it -- sorry, go ahead, sir.
- 17 O. Go ahead. Describe what was said.
- 18 A. It would have been a high-level
- 19 overview to say next week, you'll hear the Surgeon
- 20 General talking about health misinformation, this
- 21 is your first advisory. We're calling for an
- 22 all-society approach, and certainly there are
- 23 things we think that everyone can do to, you know,
- 24 given that we're in a -- a pandemic, that there's
- 25 more that everyone can do, and so we're happy to

Page 88

- 1 take a look at that, and we'd love your feedback,
- 2 you know, once you've had a chance to review it,
- 3 and that we'll share it with you when it comes out.
- 4 Q. And did you specifically mention that
- 5 the Surgeon General would be saying there's more
- 6 that the social media platforms can do?
- 7 A. I don't recall if that was
- 8 specifically mentioned. I think we said we're
- 9 calling for an all-of-society approach and asking
- 10 everybody to do more.
- 11 Q. The next meeting listed here on
- 12 July 14th from 3:00 to 5:00 p.m., it's a meeting
- 13 between yourself and Kevin Kane and Jan Antonaros
- and Ariel Altman from Google/YouTube, correct?
- 15 A. That's correct.
- 16 Q. And that's the same description as
- the rollout meeting from July 12th with Twitter,
- 18 correct?
- 19 A. Yeah. So, again, this is the same --
- 20 precisely the same type of call. It's a prerollout
- 21 call to give a stakeholder a heads-up and give them
- 22 a high-level overview, recognizing that the -- the
- 23 advisory's embargoed. So almost the exact -- the
- 24 goal was the same for those calls.
- 25 Q. And would you have -- I take it

Page 89

1	you're the only one on the government side of this
2	meeting, correct?
3	A. Yeah, if that's what's reported, then
4	neither Daniel nor Kyla were able to join those
5	calls, or that call, sir.
6	Q. What did you say sorry, go ahead.
7	What did you say in that call?
8	A. I would have said the similar thing
9	to what I said on the previous call, next week or
10	in a few days we're having in two days, we're
11	going to announce an advisory, it's embargoed, I
12	can't share the details, but a high level, we're
13	calling to an all-society approach, we're asking
14	everybody to do more, given that we're in a
15	pandemic, and we know this issue is of great
16	importance, and we hope you'll take a look, I'll
17	share this with you and would love love to hear
18	from you after it comes out, if you think there's
19	ways we can collaborate.
20	Q. Okay. And did you did they say
21	anything in response to that, either in the Twitter
22	call or the YouTube/Google call?
23	A. I think again, these were they
24	sort of gave the what I would call an overall,
25	like we agree you know, we agree this is

Page 90

1	important, or we are working on this and we're
2	excited to take a look at the advisory.
3	Q. Okay. Anything beyond that in either
4	of these two calls?
5	A. Not to my recollection.
6	Q. If you go down to the next line on
7	July 16th, 2021, there's a meeting between you and
8	Kyla Fullenwilder with Payton Iheme and Justine
9	Isola from Facebook. And it mentions that Kate
10	Thornton and Brian Rice from Facebook may also have
11	attended, correct?
12	A. That is correct.
13	Q. Yeah. And it says: The meeting
14	discussed the newly issued OSG advisory, correct?
15	A. Correct. So we are tried to
16	schedule this meeting before the release, but
17	Facebook was unable to book it, so it ended up
18	happening after the release. So this was intended
19	as a prerelease call, just like the others.
20	Q. Gotcha. So this was supposed to be a
21	rollout call, but it ended up being scheduled a day
22	after the release?
23	A. I think it may be the same is it
24	the same day? It was the same day as certainly
25	President Biden's, I think, statement, but yeah, it

Page 91

1	was a day or two yeah, the next day, I think.
2	Q. Gotcha. And what was the I take
3	it the discussion in this call was different
4	it's described differently than the two previous
5	meetings, correct?
6	A. That's correct.
7	Q. Yeah, what was said in this call? It
8	says: The meeting discussed the newly issued OSG
9	advisory. Can you be more specific and describe
10	what was discussed in this call?
11	A. Yeah. So again, the advisory now is
12	out, so we didn't have to be coy about whether the
13	advisory what it said or didn't say. So I was
14	able at the call, Kyla was able, at a high
15	level, to walk over the the recommendations
16	section for for technology companies.
17	Q. So she you basically you guys
18	talked first and gave an overview of the health
19	advisory as it related to the recommendations on
20	the social media platforms?
21	A. I believe so. I don't recall, but
22	that sounds right.
23	Q. And you say that was done by Kyla, to
24	your knowledge, not you?
25	A. Correct.

Page 92

_	
1	Q. Do you remember and I take it her
2	presentation or her discussion focused on the kind
3	of recommendations and the advisory of what social
4	media platforms could do to combat the spread of
5	disinformation and misinformation on their
6	platforms?
7	A. I believe so. I don't really recall.
8	Q. Do you remember anything specific
9	that she said in that that presentation?
10	A. I do not.
11	Q. Did you talk in the call?
12	A. I would have helped emcee the call,
13	introduced parties, you know, helped sort of guide
14	and steer the call a little bit, but it would have
15	been turning over the mic to the subject matter
16	expert.
17	Q. And that subject matter expert was
18	Kyla?
19	A. Correct.
20	Q. Then social media platforms say, I
21	take it not the social media platforms, the
22	Facebook people, did they say anything on this
23	call?
24	A. I don't really remember. It was
25	definitely a slightly awkward call because I think

Page 93

1	either some you know, during the call, I'd have
2	to look at the time signature, but I think
3	President Biden made his comment about social media
4	companies and Facebook killing people, you know,
5	right before, or even potentially during the call,
6	but the Facebook team looked a little sad.
7	Q. Did they say anything about that
8	comment in the call?
9	A. Not to my recollection.
10	Q. You said they looked sad. Was this a
11	Zoom call?
12	A. It was, sir.
13	Q. Do you remember them giving any
14	reaction at all to Kyla's presentation about, you
15	know, the proposed action items for social media
16	platforms?
17	A. I don't recall.
18	Q. Do you remember who spoke on the
19	Facebook side and during this Zoom call?
20	A. I know Payton spoke, but I don't
21	recall I don't recall who else spoke.
22	Q. What did Payton say, to your
23	recollection?
24	A. I don't actually recall.
25	Q. You know she spoke, but you don't

Page 94

1	remember anything she said?
2	A. That's correct.
3	Q. And you remember them looking sad,
4	correct?
5	A. That was my interpretation of their
6	facial expressions.
7	Q. Did they say anything that would
8	reinforce their being sad or upset about the recent
9	public statements?
10	A. They did not.
11	Q. Let's move down one more bullet point
12	to July 23rd, 2021. There's a call between
13	Dr. Murthy, yourself, and DJ Patil, correct?
14	A. That's correct.
15	Q. And this is a call with Nick Clegg,
16	and it says very likely Brian Rice from Facebook,
17	correct?
18	A. That's correct.
19	Q. This would have been about one week
20	after that July 16th rollout call that we just
21	talked about, right?
22	A. That's correct.
23	Q. How did this call get set up?
24	A. Nick e-mailed Dr. Murthy directly. I
25	think either it must have been it was after

Page 95

- 1 President Biden made his remarks, because he
- 2 referenced the remarks, and he wanted to -- he
- 3 asked if they could have a call, and I think he
- 4 wanted to -- to -- to deescalate.
- 5 Q. And did he use the phrase deescalate
- 6 in this call?
- 7 A. I -- I don't recall. I think
- 8 there's -- I think his e-mail maybe said something
- 9 about, like, wanted to reset the tone.
- 10 Something -- it was recognizing the -- the -- the
- 11 feelings, potentially, that -- that the Facebook
- 12 team were feeling, and feeling like they were --
- 13 that they had been uniquely called out.
- 14 Q. And so Nick Clegg is -- did -- he's
- 15 the one who kind of initiated the discussion in
- 16 this call, kind of the --
- 17 A. That's correct. He e-mailed
- 18 Dr. Murthy directly and I believe asked for time.
- 19 Q. And then in the call, did he express
- 20 that the Facebook team was upset about Facebook
- 21 being uniquely called out?
- 22 A. I don't remember. He definitely said
- 23 something like that in the e-mail, but I don't
- 24 recall him saying that during the call.
- Q. What do you remember him saying in

Page 96

1	the call?
2	A. I think it was just in general a, you
3	know, wanting to restart the tone and feeling
4	you know, seeing I think also feeling that they
5	actually were doing a lot to address this issue and
6	sort of a "you don't understand all the good work
7	we're doing" and that sort of, you know, a
8	little unfair that they had been called out.
9	Q. And was the good work they were
10	doing, did that include taking steps to slow or
11	reduce the spread of misinformation on Facebook
12	platforms?
13	A. I know that that Nick did share
14	definitely over e-mail more information about what
15	they were doing to reduce mis- and disinformation,
16	COVID mis- and disinformation on on the
17	platform, yes.
18	Q. How about in the call, did he discuss
19	that on the call?
20	A. I don't recall.
21	Q. Did that include new steps that they
22	were taking, you know, since they'd been uniquely
23	called out by the President and and at the at
24	the July 15th press conference?
25	A. Not I don't recall, sir.

Page 97

1	Q. Do you know in other words, do you
2	know if Mr. Clegg identified anything new they were
3	doing that they hadn't already been doing prior to
4	July 15th or July 16th?
5	A. I don't recall that from the call.
6	Q. Okay. How about from the e-mails?
7	A. I think there was a follow-up e-mail
8	sometime the next couple of weeks where where
9	Nick, I believe, or Nick or Brian shared here's
10	here's additional work we're doing, here's how
11	we're responding to the advisory.
12	Q. And did that additional work
13	responding to the advisory include taking more
14	proactive steps to remove misinformation from their
15	platforms?
16	A. I think it was a catalog of of
17	of removal and other steps to to tamp down mis-
18	and disinformation on the platform, yes.
19	Q. So it included both removal of
20	misinformation and other steps to tamp down mis-
21	and disinformation, correct?
22	A. I believe I believe so.
23	Q. And those were new steps that they
24	had taken in the week or so since the the
25	they felt uniquely called out on July 15th and

Page 98

1	16th?
2	A. I'm not sure. I believe that's the
3	case. I think the the e-mail was asking, was
4	that there was an e-mail thread after the call
5	asking for, can you let us know, like, what you're
6	doing in addition, and so this was responding to
7	that. So I've have to go look at the e-mail code
8	to be certain.
9	Q. Gotcha. Did anyone else talk on this
10	call other than Nick Clegg?
11	A. Dr. Murthy spoke, I I spoke a
12	little bit, I think DJ Patil a little bit as well.
13	Q. How about Brian Rice or anyone else
14	on the Facebook side?
15	A. Not to my recollection.
16	Q. You said Dr. Murthy spoke. What did
17	he say?
18	A. I don't recall exhaustively, but
19	again, I think Dr. Murthy raised the issue of
20	wanting to have a better understanding of the reach
21	of the mis- and disinformation on on the social
22	media platform.
23	Q. And what's the purpose of wanting to
24	know more about the reach of mis- and
25	disinformation?

Page 99

1	
1	A. I think, again, as a Surgeon General,
2	he's trying to understand not just the harm
3	direction but the harm magnitude, right? So,
4	again, you might say, all right, two things can be
5	bad for you, eating a cookie or eating, like, a
6	piece of uranium. One has a different magnitude.
7	Both are bad. And you'd want to know if one's
8	really, really bad.
9	And so in this case, you know, from a
10	research perspective, if we're identifying mis- and
11	disinformation as a social harm or health harm,
12	you'd want to know not just will it hurt, but how
13	much does it hurt or how prevalent is it? You
14	know, is it a small tumor that we just need to
15	excise, is it something little, or is it is it
16	metastases, is it everywhere?
17	Q. And your cancer example, I think,
18	prefaces my next question: I take it the purpose
19	of understanding the reach is to allow the Surgeon
20	General to use his bully pulpit, as you talked
21	about earlier, or you know, persuasive power to
22	push for change, if it's an extensive problem,
23	correct?
24	A. Possibly. I guess I would say, in
25	general, the purpose of having that knowledge, and

Page 100

1	again, we talked about the research piece as well
2	earlier in the conversation, sir, is so that if we
3	could have a broader understanding of the nature of
4	the harm, there can be a deeper understanding of
5	the different methods to ameliorate that harm.
6	So again, I'm making up a person. If
7	there's a head of research at NYU who does this,
8	who has access to that data and studies it, they
9	might say, actually, if we just do tweak the
10	algorithm like this, we'll reduce harm by X
11	percent, and whatever better health outcomes will
12	occur, or we can do Z.
13	By having more information, we can
14	increase research, which then can help us craft
15	different outcomes. So again, to continue with our
16	cancer analogy, cancer was a death sentence
17	40 years ago. Now we might say, you know what, you
18	actually just get a little radiation treatment, you
19	take a pill and it's fine, and you're fine. And so
20	how we need to understand the problem in order
21	to understand how to best create ameliorative
22	policy proposals.
23	Q. Gotcha.
24	A. And then that could come from within
25	government or outside of government. I think,

Page 101

1	again, the the advisory calls for an
2	all-of-society approach.
3	Q. Okay. So on your cancer analogy
4	here, the cancer is disinformation and
5	misinformation on social media platforms, correct?
6	A. That is that is that is the
7	potential health harm, yes, that we are trying to
8	ameliorate.
9	Q. And I take it the purpose of getting
10	more data from the social media platforms would be
11	able to allow either government or outside academic
12	researchers to devise solutions that would limit
13	the spread of disinformation and misinformation,
14	correct?
15	A. Limit the harm or spread. I mean,
16	again, you might say spread you might learn, we
17	don't know, this is why you need research. We
18	don't know you know, maybe actually there isn't
19	as much harm as we think, maybe the spread is
20	actually not the problem. You'd need to understand
21	it and figure out how you're I think,
22	ultimately, you're right, limiting the harm. I
23	don't know if spread actually is harmful.
24	Q. But certainly the health advisory
25	seems to think that spread is very harmful?

Page 102

1	A. Sure. I think, again, absent the
2	absent additional data, the sort of that is the
3	view.
4	Q. Yeah, and that is the view
5	specifically of the Surgeon General's office as
6	expressed in the health advisory, correct?
7	A. I think that's a fair reading.
8	Q. Yeah. And I take it the idea of
9	calling for more data and more transparency from
10	the social media platforms is to allow people
11	outside the social media platforms to devise
12	solutions that would limit that harm, which the
13	Surgeon General believes to be linked to the spread
14	of misinformation and disinformation on social
15	media platforms, right?
16	A. I think limit the harm. Also, again,
17	additional solutions, you know, could be also,
18	like, how do we better spread the cure you know,
19	the right information, which again could be one of
20	the policy prescriptions, right? You may discover,
21	actually, what's most important is that here's the
22	information that we're the right information,
23	how we spread it more quickly.
24	Again, there could be multiple policy
25	proposals from academia, from nonprofits, from

Page 103

1	advocates, but yes, to understand it, you know, we
2	do think it would be seems more beneficial to
3	have external validation and multiple eyes.
4	Q. And you mentioned that someone like
5	at NYU might be able to devise an algorithm tweak
6	that might really limit the spread or might, as you
7	said, promote accurate information as well,
8	correct?
9	A. That's just me making up policy
10	solutions, but yes, that's that's a possible
11	outcome of greater access to data and research.
12	Q. And that would allow the Surgeon
13	General's office in turn to advocate for those
14	kinds of policy changes to be adopted by the social
15	media platforms?
16	A. I think that would be a reasonable
17	outcome to say we're going to look at
18	evidence-based policy proposals, and if we see ones
19	that make sense, I certainly think the Surgeon
20	General's office would think, hey, this is a smart
21	policy proposal, and it would be within the the
22	gamut to recommend it.
23	Q. Yeah, recommend it, both,
24	publicly through the bully pulpit and privately in,
25	you know, engagement directly with the social media

Page 104

1	platforms?
2	A. It's possible. That's certainly
3	within the the realm of possibility.
4	Q. And something very like that is
5	actually what happened in the health advisory,
6	right? I mean, there's several as I recall,
7	several recommendations for the social media
8	platforms, maybe not even quite as specific as your
9	NYU hypothetical, but several recommendations of
10	here's what, you know, we want you to step up and
11	do more of when it comes to the spread of
12	disinformation, correct?
13	A. I think the the recommendations
14	are examples of what could be are examples of
15	what parties could could do. And yes, it
16	provides specific examples to technology companies
17	what they could do more of to reduce the spread of
18	health mis- and disinformation.
19	Q. And on your analogies, that's the
20	spread of health mis- and disinformation is what
21	you analogized to eating uranium and having cancer
22	in your earlier hypotheticals, correct?
23	A. Well, I said it's you don't know
24	if it's eating the cookie that's going to cause the
25	I don't remember what my first like, you need

Page 105

1	more data to understand whether it's just the
2	cookie that may cause cancer one day with too much
3	sugar or if it's uranium. You want to know the
4	size and the scope of the poison.
5	Q. Gotcha. And poison is not your word,
6	right? That's the word that Surgeon General Murthy
7	has used in describing misinformation and
8	disinformation on social media platforms, correct?
9	MS. CHUZI: Objection. Assumes facts
10	not in evidence.
11	Q. (BY MR. SAUER) To your knowledge?
12	A. I can't recall if he used the word
13	"poison." That may have occurred, but I don't
14	recall.
15	Q. Do you remember it appearing in the
16	health advisory we've been talking about as a verb?
17	A. It seems possible that that occurred,
18	yeah.
19	(A discussion was held off the
20	record.)
21	THE VIDEOGRAPHER: The time is
22	9:51 a.m, Central Standard Time. We are off the
23	record.
24	(A short break was taken.)
25	THE VIDEOGRAPHER: The time is 10:05

Page 106

1	a.m. Central Standard Time. We are back on the
2	record.
3	Q. (BY MR. SAUER) Mr. Waldo, I believe
4	before the break, we were talking about this
5	July 23rd meeting between yourself and Dr. Murthy,
6	DJ Patil, and Nick Clegg of Facebook, correct?
7	A. That sounds correct.
8	Q. I'm putting that Exhibit 3 back on
9	the screen share. Can you see it?
10	A. I can see it, sir, yes.
11	Q. Okay. I think you mentioned that
12	Mr. Clegg is described what he had been saying
13	in that call. Who else talked in that call?
14	A. I believe I said that Dr. Murthy
15	spoke, Nick spoke, I spoke, and DJ spoke.
16	Q. Okay. And I think you said that
17	something about about data about the reach of
18	misinformation on the platforms, correct?
19	A. That's correct.
20	Q. Yeah. Did he talk about anything
21	else in that call?
22	A. I do recall that in general he opened
23	the call sort of saying how hard he knows it must
24	have been and that everyone is working hard and
25	trying to sort of empathize and I think sort of

Page 107

1	create a more of a a more cordial atmosphere,
2	given that people's sort of feelings were hurt.
3	Q. Uh-huh. And people being Facebook's
4	in particular. Is that fair to say?
5	A. Correct.
6	Q. Yeah. Anything else besides setting
7	a cordial tone and inquiring about data on the
8	reach of misinformation?
9	A. I don't recall specifically, but I
10	think the notion was that Dr. Murthy would continue
11	to sort of say we're in a you know, we're
12	calling on everybody. This is a unique time in our
13	history. It's a pandemic. We're asking everyone
14	to do more. And so, you know, that was that's
15	what the advisory said, so I think I believe we
16	emphasized that again.
17	Q. So in other words, you emphasized the
18	message that they're calling on everyone to do
19	more, and that includes Facebook, right?
20	A. Yes.
21	Q. So you all didn't retreat, so to
22	speak, from the message of the advisory, which
23	explicitly calls for social media platforms to do
24	more to control the reach of misinformation on
25	their platforms, correct?

Page 108

1	A. That's correct.
2	Q. And, in fact, I think you just said
3	you just emphasized that message to them, right?
4	A. I think we we continued to stay
5	to to to discuss that message.
6	Q. Yeah. And let me ask you this. You
7	said you spoke on the call. What did you say?
8	A. I don't really remember. I think I
9	probably would have just been staying on general
10	talking points of, you know, introducing the call,
11	getting folks together, making sure we were on
12	time, and also thinking about follow-up of how we
13	were going to communicate.
14	Q. What do you mean by thinking about
15	follow-up?
16	A. I think just whether or not we were
17	going to have another call, whether or not we
18	wanted to ask, you know whether or not we were
19	going to ask Facebook to to to share more
20	with us, just sort of what what would the
21	next steps might be.
22	Q. Were those next steps discussed in
23	the call?
24	A. I think on the call one of the
25	conversations was to say was whether or not

Page 109

1	Facebook would share what they again, I think we
2	already talked about this, sir, but whether or not
3	they would share what they were doing in response
4	to the advisory, if they were taking any actions.
5	Q. Gotcha. So that was specifically
6	asked by people on your side of the call will they
7	share what they're doing
8	A. I I I believe so.
9	Q. Okay. Who was that you or was
10	that Dr. Murthy?
11	A. I don't recall.
12	Q. Okay. But somebody on the Surgeon
13	General's side made a specific ask for them to
14	share what they would do in response to the
15	advisory; is that correct?
16	A. I think it's what, if anything, if
17	they if they would share, yeah.
18	Q. Yeah. And did they indicate they
19	would share?
20	A. I don't recall.
21	Q. I think you said DJ Patil talked on
22	the call; is that right?
23	A. Yeah. I think DJ, I think, probably
24	was also asking the data impact questions, just
25	with some more specificity given his his his

**Page 110** 

1	subject knowledge.
2	
3	Q. He's the subject matter expert on
	data relating to social media information?
4	A. He's subject matter expert related to
5	data overall. He was the chief data scientist in
6	the Obama administration.
7	Q. And then he had some sort of similar
8	role in the Biden White House at this time?
9	A. I don't know what his title was.
10	Q. Do you know what his duties were for
11	the White House at that time?
12	A. I do not.
13	Q. Okay. But it related to data in some
14	way, him being a data scientist?
15	A. I actually don't know he was that
16	makes the most sense, given that that's his deep
17	area of expertise. But, yeah, I think he was
18	advising the Office of Science and Technology
19	policy and maybe helping them in the first first
20	part of the year.
21	Q. What did he say about data on
22	Facebook's misinformation in this call? Do you
23	remember?
24	A. I don't recall.
25	Q. You believe he said something more

**Page 111** 

1	specific about the kind of data they want. Do you
2	remember what kind of data he was interested in
3	getting from Facebook?
4	A. I think, again, the issue was sort of
5	a question of Facebook had been sharing I think
6	again, I'm sort of paraphrasing, but something
7	people talk about that Facebook was sharing the
8	nominator, like, hey, we know this this this
9	amount of people are seeing X but not the
10	denominator of you know, out of a universe of
11	what. So I think he was inquiring more about that
12	denominator question.
13	Q. Okay. So he was asking, you know
14	I gotcha. He was asking for information about what
15	is the total reach of information compared to the
16	reach of disinformation?
17	A. That's correct. I I think that's
18	correct. I think that was the nature of the
19	question, which I know I think he just
20	understood it in greater specificity than someone
21	like myself or Dr. Murthy.
22	Q. Did Facebook say anything in response
23	to that? Did they indicate willingness to share
24	more information?
25	A. I don't recall. I think the I

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

**Page 112** 

- 1 think the offer made, which either was on the call
- 2 or in the subsequent e-mail, was about connecting
- 3 DJ to a data person, which I know we already
- 4 discussed.
- 5 Q. Okay. And that actually happened, I
- 6 believe. I think you said that DJ was connected to
- 7 a Facebook data person.
- 8 A. There was definitely a loop made over
- 9 e-mail. I don't know whether or not they
- 10 connected.
- 11 Q. Okay. How did this call end? You
- 12 know, what were the last things that were said in
- 13 the call?
- 14 A. I -- I -- I mean, it was obviously
- 15 some sort of good-bye salutations of, you know,
- 16 thank you and let's -- I think -- I do recall that,
- 17 yeah, I think Nick talked about wanting to -- to
- 18 get together again, but it was a -- I think it was
- 19 a cordial ending of the call.
- 20 O. Did he indicate that -- and were
- 21 people -- did people leave with like proposed
- 22 action items or, you know, tasks?
- A. Not to my recollection.
- Q. Was there a follow-up call? You
- 25 mentioned Nick wanting to get together again. Was

**Page 113** 

1	there a follow-up call between anyone in the
2	Surgeon General's office and Mr. Clegg?
3	A. Not to my recollection. I think he
4	asked for another call, but I don't think that we
5	ended up doing one. I think the determination was
6	made that we didn't think it would be a good use of
7	Dr. Murthy's time.
8	Q. Okay. Why not? Did not expect
9	cooperation from Facebook?
10	A. No. I think that we just didn't
11	think that they we thought that it was just more
12	of a PR stunt for them to meet with us to sort of
13	keep Dr. Murthy from saying other you know, any
14	other things that might be viewed as bad for their
15	business.
16	Q. Gotcha. So you didn't think they
17	were doing enough of real changes to address the
18	concerns in the health advisory?
19	A. No. I think we just didn't think
20	that it would be a fruitful use of our time. I
21	think there were two things. Number one is I think
22	there was the recognition I'm trying to slow
23	down for our court reporter.
24	Number one, I think there was a
25	recognition that we didn't think that there was

**Page 114** 

1	much change that they were going to make in
2	response to the the the advisory, however
3	much they were going to do. And number and we
4	didn't think they were going to be transparent with
5	us about that.
6	And then number two is I think we had
7	done the work that we intended vis-a-vis the
8	advisory, which is the Surgeon General's role, to
9	raise up the issue, bring attention to it, and then
10	and then we wanted to move on to other
11	priorities and that, you know, our part of the
12	relay race was over.
13	We had we had raised up the
14	flagpole that this is an issue of public importance
15	and that hopefully researchers, nonprofits,
16	citizens, whomever, relative stakeholders would
17	take actions. But we weren't we're not a
18	regulatory agency. We don't have oversight
19	authority, et cetera.
20	So it wasn't our job then to sort of
21	show up with a clipboard, but rather we were trying
22	to encourage the field to move forward and give
23	permission structure where others might recognize
24	that this is important and want to study it more,
25	want to do more work in this area. But the

**Page 115** 

1	Dr. Murthy wanted to focus on other core issues,
2	and we made a deliberate decision at I believe
3	in August as a senior team that we didn't think
4	that misinformation was going to be one of our
5	priority areas going into the rest of the year.
6	Q. So you made a powerful statement on
7	misinformation in July, but you decided that the
8	rest of the year you'd focus on other issues?
9	A. I think we decided that we would
10	still talk about it from a from a press or
11	communications perspective, but that from a
12	staffing perspective of where we would be spending,
13	you know, it takes a lot of energy and work to do
14	some of the pieces that we would be working on
15	developing our additional advisories and not not
16	doing you know, from a budget perspective of
17	time, we didn't want the health misinformation work
18	to take up more than 10 percent of our time.
19	Q. Gotcha. Do you do you know why
20	there was such a focus on Facebook in this July
21	time frame as opposed to other social media
22	platforms like Twitter and YouTube?
23	A. I think it was in some ways just
24	random luck or bad luck, depending on your
25	perspective. I think that because it was raised at

**Page 116** 

1	the press conference, it got additional attention.
2	And so I think when you add the press
3	conference remarks plus President Biden's remarks,
4	it made it seem as though there were there was
5	more attention on Facebook. But certainly that's
6	not what the advisory the advisory didn't call
7	out individual organizations. We certainly hadn't
8	had a plan beforehand to to call out Facebook
9	specifically.
10	Q. Was there a sense in the Office of
11	Surgeon General that the problem of misinformation
12	was particularly acute on Facebook as compared to
13	other platforms?
14	A. I don't think so. I think there was
15	a view among the subject matter experts that it was
16	a problem across multiple platforms.
17	Q. So they the subject matter experts
18	are people like Kyla and DJ Patil?
19	A. And Daniel as well. But I think
20	certainly in my conversations with Kyla, I don't
21	think we hadn't done a ranking of who were the
22	worst social media companies in terms of
23	misinformation. There was a view that all you
24	know, different different companies, you know,
25	certainly had different strengths and weaknesses.

Page 117

1	And all of them had you know, had an opportunity
2	to improve how they were handling this issue. And
3	our job was to raise this as an issue so folks
4	could know about it and hopefully take steps to
5	to ameliorate the situation.
6	Q. Yeah. And that those taking steps
7	to ameliorate would include social media platforms,
8	correct?
9	A. Correct. But I would again
10	highlight, you know, when you think about our
11	the advisory but also the work we were doing, the
12	the community toolkit, we recognize that we did
13	call for an all-society approach, and we recognize
14	that there are multiple ways to stop or lessen the
15	spread or damage of misinformation, including
16	individuals and others. You know, it's it's not
17	just it wasn't just a technology company issue
18	or a social media issue.
19	Q. Are you aware who devised that phrase
20	all-of-society approach to describe the advisory
21	or the advisory
22	A. I'm not
23	Q recommendations?
24	A. I'm not aware.
25	Q. Scrolling down in Exhibit 3, the next

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

**Page 118** 

1	bullet point talks about meeting on July 30th, 2021
2	between yourself and representatives of
3	Google/YouTube, correct?
4	A. That is correct.
5	Q. And the interrogatory responses
6	supplied as topics discussed included in
7	YouTube/Google, following up on the announcement of
8	the OSG advisory to share and work the work it was
9	doing around health mis- and disinformation,
10	correct?
11	A. That's correct.
12	Q. What do you remember being said about
13	that in this phone call or Zoom call?
14	A. It was a Zoom call. I think it was
15	really just the YouTube and Google teams saying,
16	hey, we agree that this is a really important
17	issue, and here's all the things that that we
18	are working on about it. So it was it was them
19	informing us of the steps they are currently
20	taking.
21	Q. And I believe you said part of the
22	follow-up call with Facebook was to ask them to,
23	you know, give a report on any steps they would be
24	taking in response to the health advisory, correct?
25	A. Correct.

**Page 119** 

1	Q. And is that what's going on here with
2	with YouTube as well, to ask them, okay, we've
3	issued a health advisory. What are you guys doing
4	about it?
5	A. I think they they asked for the
6	call. So this was a little different. They asked
7	for the call on their own to share with us what
8	they were doing. I think they from a government
9	affairs perspective, public affairs people were
10	trying to say, hey, look, you know, we agree with
11	you, and we want to let you know all the things
12	we're doing.
13	Q. Did the report
14	A. And, again, I think
15	Q. Go ahead.
16	A. And I would think, right, we had
17	first had that first call to let them know the
18	report was coming out. The report came out. They
19	looked at it, and then they said, hey, we've looked
20	at it. Let us tell you, you know, what we're
21	doing.
22	Q. And in the first call you had
23	mentioned, I think, that you advised them that
24	there would be some potential recommendations for
25	them, right?

**Page 120** 

1	A. That there were recommendations for
2	I think they certainly within the advisory
3	there are recommendations for what social media
4	companies can do.
5	Q. And then in the follow-up call, they
6	came back to you and said, okay, we've read the
7	advisory and here are steps that we are taking or
8	plan to take in response to the issues raised in
9	the advisory?
10	A. I don't recall specifically, but that
11	was the general tone was let us tell you what
12	we're doing about this issue. I didn't I didn't
13	get the impression that it was new things. I got
14	the impression that it was work that they were
15	already doing.
16	Q. What did they report to you?
17	A. I don't really remember, but I think
18	it was generally saying, hey, we have a you
19	know, we have a team that does that works on
20	this issue. Like we're you know, it's important
21	to us. Like we're thinking about how we're
22	addressing it.
23	Just it was, I think, more of a
24	process call of saying, you know, we want you to
25	know this is on our agenda.

**Page 121** 

1	Q. So did they, for example, report that
2	they had adopted new policies to address
3	misinformation on YouTube?
4	A. I don't recall.
5	Q. Or did they give indication they were
6	taking more steps to kind of remove more harmful
7	information on YouTube?
8	A. I don't recall if there was a new. I
9	recall them telling us what they were currently
10	doing to address that. So I and some of these
11	calls I experienced as them you know, they read
12	the advisory and said, yeah, we are doing that.
13	Thanks. You may not know all the things we're
14	doing, so let us share with you what we're doing.
15	Q. And you don't you don't remember
16	whether they, you know, advised you of kind of new
17	policies, like, hey, you raised an issue for us,
18	and and here's are some things we're going to do
19	to respond to it?
20	A. I don't recall. I think I would
21	remember because if it was the something new, I
22	feel like we would have shared it or probably done
23	something like put it in a fact sheet to say, look,
24	because of this report, these many new things are
25	happening.

Page 122

1	Q. Did you do that for any of them? Did
2	you issue any fact sheets saying, you know, here
3	are some positive developments that came out of the
4	health advisory?
5	A. I don't remember. I don't think so.
6	The only time that could have happened would have
7	been when we did the that what I keep calling
8	the community toolkit, but I don't recall I do
9	remember Twitter tweeted something in support of
10	Dr. Murthy's advisory.
11	So when we launched on whatever, the
12	15th or 16th, the Twitter policy handle I think
13	either retweeted or quote tweeted and said
14	something like, we agree. This does call we do
15	need an all-society approach, and here's what we're
16	doing. So that's my one recollection.
17	Q. And we talked earlier about how there
18	was a particular focus on Facebook on July 15th and
19	16th, and you mentioned that, I think, Jennifer
20	Psaki mentioned Facebook specifically in the press
21	conference and President Biden said "They're
22	killing people," the next day.
23	Do you know why the White House
24	thought a particular focus on Facebook was
25	appropriate?

Page 123

1	A. I do not.
2	Q. Do you know if they thought
3	misinformation was a bigger problem on Facebook
4	than on other social media platforms?
5	A. I don't know.
6	Q. Do you know if they were having
7	private communications with social media platforms
8	other than Facebook, raising kind of similarly
9	sharply phrased concerns?
10	A. I don't know.
11	Q. Do you remember anything else that
12	was discussed in this July 30th meeting with
13	YouTube and yourself that was the follow-up meeting
14	for the health advisory?
15	A. I do not.
16	Q. Did you say anything in that meeting?
17	A. I mean, I would have you know, it
18	would have been a general, like hello, thank you,
19	you know, greeting and just sort of trying to
20	probably was just in listening mode, and I don't
21	recall specifically.
22	Q. Do you remember, you know, expressing
23	approval or concern about the action items that
24	they reported they were doing to address
25	misinformation?

**Page 124** 

1	7
1	A. I don't recall.
2	Q. Scrolling down the bullet point,
3	there's a reference to an August 10 call between
4	yourself and Rob Flaherty in the White House and
5	people from Facebook that discussed, quote, an
6	operation Facebook uncovered that is related to
7	vaccine misinformation, correct?
8	A. That's correct.
9	Q. Do you I think I asked you I
10	think we talked about this a little bit before. Do
11	you remember what that was about?
12	A. I believe we we did discuss that
13	already. I think I mentioned that Brian Rice had
14	requested a call with me and Rob and, during the
15	call, flagged that Facebook had done some sort of
16	had done some sort of internal operation where
17	they discovered I don't know if it was bots or
18	something. I actually don't remember. But that
19	they had done something where they discovered some
20	misinformation pieces happening and had taken some
21	corrective action.
22	Q. Do you know why first of all,
23	who's Brian Rice?
24	A. Brian Rice is an employee at
25	Facebook. I don't know his exact title, but he's

Page 125

1	something like a government affairs, public policy
2	type person. He was, I think, the main sort of
3	like staff level liaison.
4	Q. So he's he's like their government
5	affairs person in, you know, Washington, DC?
6	A. I don't know what his direct title
7	is, but functionally, he was our contact and
8	operated in a way that I would consider a
9	government affairs person to operate.
10	Q. How did you get connected with him
11	originally?
12	A. I don't recall. I think he he
13	might no. Payton must have looped him in that
14	one of those calls, or maybe maybe Nick did.
15	Actually, that's not true.
16	Nick I think Brian was on the
17	e-mail with Nick, and I think so I got the
18	contacts from that contact sheet, but I don't I
19	think I may have also worked with Brian before. I
20	don't really remember.
21	Q. Okay. Did they ask for this call
22	Facebook ask for that August 10th call?
23	A. That that's correct.
24	Q. Do you know why they asked for you
25	and Rob Flaherty?

**Page 126** 

1	A. I do not know.
2	Q. In other words, have you and Rob
3	Flaherty worked, you know, together on
4	misinformation issues?
5	A. No. Not on I think I mentioned
6	we talked about the the one call I had with Rob,
7	but Rob and I had not worked on this issue other
8	than that.
9	Q. So you don't know why Facebook was
10	looping in you and and Flaherty on this?
11	A. I think that they had been e-mailing
12	Rob a list like a COVID report list that had,
13	you know, some sort of report from Facebook on a
14	biweekly basis. I hadn't been a part of that
15	e-mail, and then I was added to it after my calls
16	with Nick and Dr. Murthy. And so I think Brian was
17	just looping us both, thinking that we were POCs in
18	our respective organizations.
19	Q. And your organizations would be the
20	White House and the Surgeon General's office?
21	A. Correct.
22	Q. And he had the perspective that you
23	were the two POCs to deal with vaccine
24	misinformation for those two agencies?
25	MS. CHUZI: Objection. Calls for

Page 127

1	speculation.
2	THE WITNESS: I think on the on
3	the COVID the COVID report was something that
4	looked like Brian sent to a lot of people, so
5	and a lot of people at the White House and
6	elsewhere. So I don't know I don't know why he
7	selected Rob and me, but he did select us.
8	Q. (BY MR. SAUER) Why were they sending
9	sorry. Go ahead.
10	A. No. You go ahead, sir.
11	Q. Why did they why why was he
12	sending a COVID report to people at the White House
13	and elsewhere?
14	A. I don't know.
15	Q. Okay. You don't know how that got
16	started?
17	A. That's correct.
18	Q. What did Facebook or what did
19	Brian Rice say actually, it says personnel from
20	Facebook. What did the personnel from Facebook say
21	in this meeting?
22	A. Again, I think I think I've
23	already answered this question, sir, but basically,
24	it was the heads-up that they were going to do an
25	announcement the next day about some some sort

**Page 128** 

Fax: 314.644.1334

1 of -- something they discovered. I think it ended up being like a foreign entity was doing work on 2 Facebook, spreading -- I don't know if it -- what 3 4 type of misinformation, but they were letting us 5 know that they discovered it. 6 Do you know why they thought to brief Q. 7 you guys on that? 8 Α. I do not --9 MS. CHUZI: Objection. Calls for 10 speculation. 11 THE WITNESS: I don't know why. 12 (BY MR. SAUER) Scrolling down Q. 13 another bullet point, there's a reference to a 14 September 14th meeting between yourself and Kevin 15 Kane and Jan Antonaros at Google/YouTube, correct? 16 Α. That is what the document says, 17 correct. 18 Q. Yeah. And do you recall that meeting 19 or phone call? 20 Not really. That's actually a few 2.1 days before my first child was born, so I don't --22 I -- I vaguely remember this. 2.3 You had other matters on your mind at Q. 24 that time?

I -- I did.

Α.

25

Page 129

1	Q. It it it says the purpose
2 <b>wa</b>	s a brief meeting to discuss a new policy we are
3 <b>wo</b>	rking on as well as provide and update on our
4 <b>ov</b>	erall efforts to combat harmful COVID-19
5 <b>mi</b>	sinformation on the platform, right?
6	A. That's what it says, yes.
7	Q. So this would have been, I take it, a
8 <b>ki</b>	nd of second update by them to you following the
9 <b>he</b>	alth advisory of stuff they're doing to combat
10 <b>ha</b>	rmful COVID-19 misinformation through YouTube,
11 co	errect?
12	A. That's correct.
13	Q. So first, they provided that update,
14 <b>I</b>	think, on the July 30th meeting that we talked
15 <b>ab</b>	out above, correct?
16	A. Yes.
17	Q. And then they
18	A. Correct.
19	Q. Sorry. And they followed up again on
20 <b>Se</b>	eptember 14th of another update of, you know, kind
21 <b>of</b>	telling the Surgeon General's office what they
22 <b>we</b>	ere doing to fight misinformation?
23	A. That's correct.
24	Q. Do you know what it was it says
25 <b>th</b>	ey gave some kind of update on overall efforts to

Page 130

1	combat harmful COVID-19 misinformation on the
2	platform. Do you know what those efforts were?
3	A. I don't recall.
4	Q. Do you remember anything specific
5	about what YouTube and Google were doing in this
6	time frame to kind of remove or or reduce the
7	spread of misinformation?
8	A. I don't recall.
9	Q. It also says that they were the
10	meeting was to discuss a new policy we were working
11	on. Do you remember that?
12	A. I do not.
13	Q. Do you know what new was that a
14	new policy that related to misinformation?
15	A. I'm not sure.
16	Q. Or a new policy related to something
17	unrelated?
18	A. I don't recall.
19	Q. You remember YouTube and Google
20	raising anything that was unrelated to the health
21	advisory about this information and these two
22	calls?
23	A. I don't recall.
24	Q. So you don't know whether other
25	topics came up or if they were just focused on

**Page 131** 

1	health misinformation following the advisory?
2	A. I'm not certain. I don't recall.
3	Q. Do you remember anything specific
4	that was said in this call on September 14th?
5	A. I do not.
6	Q. Did you say anything?
7	A. I mean, I would have, in general,
8	been tried to greet them, asked them how they
9	were doing, and certainly asked them, you know, be
10	expressed some sort of feeling of, you know,
11	interest in what they wanted to share.
12	Q. Okay. But do you remember saying
13	anything in response to what they did share about a
14	new policy and update on overall efforts to combat
15	harmful misinformation?
16	A. I do not.
17	Q. Going down a little further, last
18	bullet point here refers to a meeting on
19	November 22nd, 2021. It mentions that personnel
20	from OSG were involved in this meeting. Do you
21	remember were you involved in this meeting? Do
22	you know?
23	A. I don't think so. I do not believe
24	so. If I was on it if I was in the meeting, I
25	would have identified it.
I	

Page 132

1	Q. Who's Tericka Lambert?
2	A. I think Tericka she's an HSS
3	employee. She is not an OSG employee. I think she
4	was the digital person helping maybe Kristina
5	Schake's team doing some of the COVID-19 vaccine
6	campaign work. I know what I what I know,
7	for instance, is that she would help us set up
8	she would help us set up basically like virtual
9	town halls for when we were doing you know,
10	doing outreach about our our vaccine outreach
11	work, especially for like we had like a Listserv
12	of coalition of medical organizations and and
13	and doctors who were who were helping on on
14	on vaccine rollout.
15	Q. What does ASPA stand for, A-S-P-A?
16	A. What a great question. I'm not
17	there's so many acronyms in the federal government,
18	and I try to forget as many of them as possible.
19	I'm not certain, sir.
20	Q. Is that an HHS component? Do you
21	A. It is.
22	Q. And it mentions others ASPA
23	personnel. Do you know who they were?
24	A. I was not at this meeting, sir, so I
25	do not know.

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

Page 133

1	Q. How about what's the Fors Marsh
2	group, F-O-R-S, space, Marsh?
3	A. I'm trying to remember. Maybe I'm
4	there was maybe there was a briefing where they
5	had an external group who I had some contract with
6	them that was doing some sort of external research.
7	I don't I honestly don't recall. I think they
8	Fors Marsh. I don't I don't know, sir. I'm
9	trying to rack my brain here.
10	Q. Okay. And you said you weren't in
11	this meeting. The interrogatory response says that
12	it touched on misinformation. Do you know how the
13	meeting touched on misinformation?
14	A. I don't.
15	Q. Are you aware of any we've gone
16	through, I think, nine bullet points here of
17	meetings. Are you aware of any other meetings
18	between anyone in the Office of Surgeon General and
19	anyone from the social media platform that's not
20	listed here in the interrogatory response?
21	A. I think the only thing I think the
22	only other possible meetings with with
23	technology companies would have been about not
24	misinformation per se, but from press team
25	potentially, if Dr. Murthy, for instance, was going

Page 134

1	to do a Twitter town hall or, you know, do a
2	conversation with the CEO of SNAP on about
3	mental health, like we would have our press team
4	would have communicated with a technology company
5	about a potential use of the platform for a press
6	or communication engagement.
7	Q. Other than those kind of press and
8	communications engagements in the meetings listed
9	here, are you aware of any other contacts between
10	anyone in the Surgeon General's office and social
11	media platforms?
12	A. I'm not aware.
13	Q. I'm going to close out of that
14	document, so it should have dropped off the screen.
15	And then I'm going to e-mail your counsel a few
16	more exhibits.
17	MR. SAUER: Amanda, you should be
18	getting Exhibits 4 through 9 by e-mail momentarily.
19	MS. CHUZI: I am refreshing my inbox.
20	Q. (BY MR. SAUER) And then, Mr. Waldo,
21	I pulled up Exhibit 4 on the screen. Do you see
22	that?
23	A. Yes.
24	Q. Do you see this is an e-mail from
25	Nick Clegg at Facebook to Andy Slavitt and

Page 135

1	Dr. Murthy, dated May 28, 2021, correct?
2	A. That's correct.
3	Q. So this would have been, I think,
4	three days after the May 25th, 2021 phone call that
5	was the first bullet point in the interrogatories
6	that we looked at a moment ago in Exhibit 3,
7	correct?
8	A. That's correct.
9	Q. And I take it this would have been
10	before you started with the Surgeon General's
11	office, right?
12	A. That's correct. I was not at the
13	office at this time.
14	Q. Okay. And he has an attachment to
15	this e-mail called 5/28 COVID-19 insights.pdf.
16	Correct?
17	A. That is what is listed as the
18	attachment, correct.
19	Q. Is that the COVID report that you
20	were talking about earlier that you I think you
21	said Facebook would send to people at the White
22	House and others?
23	A. I believe so. I that's my my
24	best guess, sir.
25	Q. Okay. And in the e-mail he says,

Page 136

1	thanks for again for the time the other day,
2	right?
3	A. That's what he says, yes.
4	Q. Yea. So is that possibly a reference
5	back to the May 25th meeting that's in the
6	interrogatory?
7	A. That's possible, yes.
8	Q. Could there have been another meeting
9	between Nick Clegg and Andy Slavitt and Dr. Murthy?
10	A. It's technically possible, but I find
11	it unlikely.
12	Q. Okay. He goes he goes on to say:
13	As promised, I'm sending our latest report that
14	includes top line performing posts for the weeks of
15	May 3rd and May 9th. Do you see that?
16	A. I do.
17	Q. Yeah. He says "as promised." Do you
18	know if this was something that was promised by
19	Facebook in that May 25th meeting with Andy Slavitt
20	and Dr. Murthy?
21	A. I don't know since I wasn't there.
22	Q. Do you know why he's saying "as
23	promised" here?
24	A. I do not.
25	Q. Okay. Who would know that, what was

Page 137

1	promised or may have been promised in the May 25th
2	meeting?
3	A. It seems like if Brian was at the
4	meeting he would know. Andy would know.
5	Dr. Murthy would know. Potentially, someone like
6	Max Lesko or Adam Beckman would know, just as
7	someone whom Dr. Murthy would have debriefed about
8	any call like this.
9	Q. Would he, as a routine matter,
10	debrief Max Lesko about a call like this?
11	A. I think at that point in the
12	administration, the team was so small that, yes.
13	It would be very unlikely that Max or or Adam
14	Beckman wouldn't know about what happened they
15	would have asked how the call went, and he would
16	have debriefed with them. There were yes.
17	That's correct.
18	Q. But to your knowledge, they weren't
19	on the call?
20	A. I don't know whether or not they were
21	on the call.
22	Q. Nick Clegg goes on to say: I also
23	want to highlight a few policy updates we announced
24	yesterday regarding repeat misinformation, correct?
25	A. That is what the document says,

Page 138

1	correct.
2	Q. And so that would be, I take it,
3	policy updates announced on May 27, two days after
4	the May 25th call with Andy Slavitt and Dr. Murthy,
5	right?
6	A. That is two days after the call,
7	correct.
8	Q. And Nick Clegg reports back to
9	Dr. Murthy and Andy Slavitt what he called a few
10	key points, right?
11	A. That's correct.
12	Q. And these include three things that
13	are adding more context about pages that repeatedly
14	share false claims, right?
15	A. That is what the document says,
16	correct.
17	Q. And expanding penalties for
18	individual Facebook accounts that share
19	misinformation, correct?
20	A. That is what the sentence says,
21	correct.
22	Q. And redesigning notifications when
23	Facebook accounts share content that a fact checker
24	later rates, right?
25	A. That is what the sentence says,

**Page 139** 

1	correct.
2	Q. Do you know why Nick Clegg reported
3	back to Andy Slavitt and Dr. Murthy about these
4	three key points about addressing repeat
5	misinformation on its platform?
6	A. I do not.
7	Q. Do you know whether that was
8	something they discussed in the call?
9	A. I do not.
10	Q. Let me put up Exhibit 5. Can you see
11	that one?
12	A. Yes, I can. Thank you.
13	Q. So here's an e-mail chain back and
14	forth between Nick Clegg to Dr. Murthy with the
15	biweekly COVID content report attached on June 12,
16	correct?
17	A. That's correct.
18	Q. He says: I'm happy to jump on a call
19	at any point, as is my team, to delve into any
20	details further as needed. Do you know if any such
21	call ever happened? Did people at OSG ever jump on
22	a call with Facebook to talk about these content
23	reports?
24	A. Not to my knowledge.
25	Q. Did you ever read these COVID content

**Page 140** 

1	reports?
2	A. I would give them that cursory glance
3	on occasion?
4	Q. What do they what kind of
5	information was in them?
6	A. I think at the highest level it was
7	about who were the most the most engaged tweets,
8	the most viewed or sorry, not tweets, the most
9	engaged posts, I think, with respect to both
10	accurate and inaccurate information.
11	Q. So it was a report that said, here's
12	the post that had the most engagements with respect
13	to, you know, kind of accurate COVID information?
14	A. I'm not I honestly don't remember
15	it was the most I think it was the most engaged
16	or the most viewed posts, and so you could see some
17	of them were about had positive information.
18	Some had negative. But I actually didn't spend a
19	lot of time looking at these reports. I only got
20	added to them late.
21	Q. Who who who was reviewing those
22	reports on the federal government side?
23	A. I'm not I don't have an exhaustive
24	list. I know that Rob received these reports.
25	Q. Anybody else besides him?

**Page 141** 

1	A. I don't recall off the top of my
2	head.
3	Q. How about Adam Beckman? You see he's
4	mentioned up here. You've mentioned him several
5	times already. Was he getting these reports?
6	A. I don't I'm not sure. I'm not
7	sure. I don't think so.
8	Q. What was the point of getting these
9	reports from Facebook? What is the point to allow
10	federal officials to track, you know, how much
11	misinformation is being reached or engaged with on
12	Facebook?
13	A. I'm not sure.
14	Q. Do you know if the federal officials
15	did did anything with these reports?
16	A. Not to my knowledge.
17	Q. Okay. And I take it the report would
18	have the information. It says: Here's our top
19	highest engagement Facebook post relating to COVID,
20	and it would describe them so you could assess
21	whether or not they contained misinformation or
22	disinformation?
23	A. I honestly don't recall. I think it
24	was a list of the again, the highest posts. So
25	yes. You could see, yes, that these were this

**Page 142** 

- 1 -- that the highest posts was -- was uplaid with
- 2 misinformation. You could probably make that --
- 3 that determination place.
- 4 Q. Are you aware of these reports being
- 5 sent before the May 25th meeting, or did they start
- 6 after that May 25th meeting between Dr. Murthy Nick
- 7 Clegg, and Andy Slavitt?
- 8 A. I don't know based on just a plain
- 9 reading. It seemed like it's a biweekly report.
- 10 It seemed like it had preexisted the -- the -- it
- 11 predates the meeting.
- 12 Q. Were they sent every two weeks kind
- of from then on?
- 14 A. I don't know. I didn't start
- 15 receiving these until after -- after my meeting
- 16 with -- with Nick and Brian, and then I believe
- 17 they kept going, and at some point Brian asked
- 18 whether or not they should stop sending them. And
- 19 I think it was right before child -- under 5
- 20 vaccines was rolled out. So I think we ended up
- 21 keeping them, but I don't know that anyone was
- 22 really looking at them anymore.
- Q. It does say here in Dr. Murthy's
- response, "I'll look forward to reviewing it." Do
- you know if Dr. Murthy reviewed it?

**Page 143** 

1	A. I do not.
2	Q. Do you remember him discussing those
3	COVID content reports from Facebook in any
4	connection?
5	A. I do not. I'm not sure he ever
6	received it again after this.
7	Q. Do you know why Adam Beckman is on
8	this e-mail chain? It looks like he was probably
9	added as a CC by Dr. Murthy potentially.
10	A. Well, it looks like the e-mail is
11	from Nick. So I don't think so it wouldn't have
12	been oh, sorry. It's from Dr. Murthy. Thank
13	you, sir. From Dr. Murthy, yeah.
14	I think Adam in the early days,
15	Adam was sort of our main COVID policy person, and
16	he was the acting policy director, but he was sort
17	of in my parlance of Washington, I would call
18	Adam like a functional deputy chief of staff. He
19	sort of did a little bit of everything. And so he
20	was certainly someone Dr. Murthy relied on for
21	analysis with respect to COVID and other things.
22	So it was probably making sure Adam was in the
23	know.
24	Q. Do you know if Adam reviewed these
25	reports?

Page 144

1	A. I do not know if he did.
2	Q. Let me share with you Exhibit 6.
3	Here's an e-mail chain involving you and Lauren
4	Culbertson of Twitter and Todd O'Boyle of Twitter,
5	correct?
6	A. That's correct.
7	Q. And you copied Kyla Fullenwider on
8	the e-mail?
9	A. That's correct.
10	Q. And she's at US Digital Response. I
11	think I asked you this earlier. Do you have an
12	understanding of what US Digital response actually
13	is?
14	THE REPORTER: What US Digital
15	response what? I'm sorry.
16	Q. (BY MR. SAUER) Actually is.
17	A. I think you asked me this question
18	before, sir. I'm not positive, and I think it's a
19	quasi-governmental organization that helps that
20	helps federal agencies improve their their
21	their digital data-type work.
22	Q. Gotcha. And do you recall what the
23	purpose of this e-mail chain is here on July
24	A. Sorry. Can I I now have the
25	document in front of me, sir. Can you give me a

**Page 145** 

1	moment to to review, please?
2	Q. Please do.
3	A. Oh, yeah. This is just to set up the
4	we we this is to set up that outreach call
5	that we talked about previously, sir. So that
6	first e-mail comes on the 6th where I'm I'm
7	giving him a heads-up. So then we're this is
8	just set up the that precall to give them the
9	soft rollout of the advisory.
10	Q. Gotcha. And I think that call
11	that call ended up happening on July 10th or 12th,
12	is that right, to your recollection?
13	A. That that sounds correct, sir,
14	whatever we discussed previously.
15	Q. And the second page of your initial
16	e-mail to them: Hi, Lauren and Todd, you introduce
17	yourself, and you say: As you know, one of the
18	issues Dr. Murthy has been thinking about is how to
19	help stop the spread of health misinformation as we
20	continue to tackle COVID-19 and beyond. Correct?
21	A. That is what the document says,
22	correct.
23	Q. And you wrote that, right, to them,
24	that you wanted to connect with them about how you
25	stop the spread of health misinformation, correct?

**Page 146** 

1	That I a that I a gorroot
	A. That's that's correct.
2	Q. Yeah.
3	A. And I $$ I wrote to them saying that
4	Dr. Murthy has been thinking about how to stop the
5	spread, yes.
6	Q. And that's what you wanted to connect
7	with them about, correct?
8	A. Correct. This was the rollout call,
9	so we were giving them a heads-up about the
10	advisory.
11	Q. Yeah. It says: I know you and your
12	teams are working hard and thinking deeply about
13	this issue. We'd love to chat over Zoom to connect
14	and discuss what's on the horizon for our teams.
15	Correct?
16	A. That is what I wrote, correct.
17	Q. Yeah. And so what's what was on
18	the horizon for your team at that time? Are you
19	referring to the health advisory?
20	A. Yeah. So again, this is the this
21	is trying to meet with them to give them a heads-up
22	about the advisory.
23	Q. Was there anything else on the
24	horizon for this general's I'm sorry the Surgeon
25	General's team at that time?

Page 147

1	A. I think we were we knew that we
2	were going to eventually tackle issues like youth
3	mental health, you know, health worker mental
4	mental health, and social isolation and loneliness.
5	So I already had those high level themes that I
6	knew Dr. Murthy wanted to work on.
7	So as a sort of first intro to
8	potential partner or impacted partner by our work,
9	I might have given them a general, like, hey, these
10	are some of the other things that we'll likely be
11	tackling as an office in the years to come.
12	Q. You say: I know you and your teams
13	I guess that's the Twitter teams are working
14	hard and thinking thinking deeply about this
15	issue being how to help stop the spread of
16	health misinformation, correct?
17	A. That is correct.
18	Q. Yeah. And then in this e-mail, you
19	go on to say you want to connect and discuss what's
20	on the horizon for our teams. So that includes
21	what's on the horizon for the Twitter team,
22	correct?
23	A. That's correct.
24	Q. Did you ask them in that first call
25	what was on the horizon for their team when it came

**Page 148** 

1	to helping stop the spread of health
2	misinformation?
3	A. I think again, I think that we've
4	already discussed that what occurred during that
5	call, but it was the overall giving them a heads-up
6	about the advisory. Now with the recollection
7	here, maybe I gave them a heads-up also about other
8	things coming from our office for the year. But
9	that would have been the nature nature of what
10	we discussed.
11	Q. Was there any inquiry by you about
12	what was on the horizon for their teams, or was it
13	just kind of a one-way communication, here's what
14	OSG plans to do?
15	A. There may have been some polite
16	rapport. I don't recall.
17	Q. Did you ask them anything about
18	whether, you know, taking the steps to help stop
19	the spread of health misinformation was something
20	on their horizon?
21	A. I don't think so, because, again, the
22	purpose of the call, which I know we've already
23	discussed, was about letting them know this is
24	coming out, letting them know how overall to take a
25	look at it and then, you know, we want them we'd

**Page 149** 

Fax: 314.644.1334

1 share with them and we could follow up without that 2 and TBD. 3 You know, maybe they didn't want to 4 work on youth mental health. Maybe they wanted to 5 work on another issue that we could collaborate 6 potentially on other things as well. 7 Q. I'm going to show you Exhibit 7. Do 8 you see this exhibit on the shared screen? 9 I do. And I also have it in front of 10 me. 11 And is this -- briefly, is Q. Yeah. 12 this the -- I think you mentioned that you wanted 13 to have the introductory call with you and Kyla and 14 Facebook before the rollout, but it happened to be 15 -- end up being scheduled on Friday, the 16th, 16 right? 17 Correct. That's correct. Α. 18 Q. And was that -- was that by design? 19 Did you, you know, kind of want the Facebook 20 initial call to occur after the 15th and 16th when 2.1 the rollout happened, or was that a kind of vagary 22 of scheduling? 2.3 That was a vagary of scheduling. Α. 24 Have you -- yeah. Because there was a trip to --25 to New Mexico where I was staffing Dr. Murthy. So

Page 150

1	it limited some of our travel windows, but I tried
2	to schedule all of the calls beforehand. So I had
3	offered them the Monday slot, hoping that they
4	would take it, but it didn't work out.
5	Q. Yeah. Do you know so that Monday,
6	I take it, would have been like July 12th, and
7	Friday was the 16th, which ended up being after the
8	rollout, correct?
9	A. You're accurately describing those
10	dates.
11	Q. Yeah. Gotcha. Did you know at the
12	time that the rollout would involve a kind of
13	unique focus on Facebook?
14	A. I did not.
15	Q. So were you surprised, for example,
16	when Jen Psaki made comments that were kind of
17	specifically calling out Facebook at the July 15th
18	press conference?
19	A. Yes. I was surprised.
20	Q. Do you know what her basis for those
21	comments was?
22	A. I do not.
23	Q. And obviously, did you know the
24	President was going to tell the media "They're
25	killing people" in response to a question about

Page 151

1	Facebook?
2	A. I did not know that.
3	Q. Let me show you Exhibit 8. Can you
4	see that on the screen?
5	A. I can. I also have it in front of
6	me.
7	Q. And, again, is this the kind of
8	e-mail chain where you and Kyla were connecting
9	with people at Google, slash, YouTube for this
10	rollout call?
11	A. Correct.
12	Q. And I believe this is the one you
13	testified earlier ended up being scheduled on
14	July 14th, right, just the day before the rollout?
15	A. That's that's correct.
16	Q. Go to the third page of this
17	document. You send basically the same initial
18	e-mail that you'd sent to Twitter in the prior
19	e-mail I showed you, right?
20	A. And I also used the same e-mail to
21	Facebook.
22	Q. Yeah. Yeah. You and, again, you
23	said that to them first of all, you refer to
24	Alexandra and Kevin. Do you know how I take it
25	that's Kevin Kane and Alexandra Veitch. Is that

Page 152

1	ni ahto
	right?
2	A. That's what the last name appears to
3	be online, yes.
4	Q. Do you know how you got the contact
5	for those people, how you got their contact
6	information?
7	A. I think you asked me this before,
8	sir, but that was the we had a spreadsheet for
9	the rollout that was cross-populated. And so I
10	think I would have gotten it from from those
11	folks. It's also possible I did know of former
12	a former former colleague of mine worked at
13	Google. If I didn't have it from the spreadsheet
14	which had suggestion of partners to reach out to, I
15	might have asked someone for the government affairs
16	person at Google and YouTube.
17	Q. Who prepared that spreadsheet?
18	A. I think it was a it was a cross
19	it was a shared document. I think I think
20	Daniel might have had the first pen at it since he
21	was originally running the rollout for for the
22	advisory.
23	Q. Do you know if that document still
24	exists in electronic form?
25	A. I don't. It it's a share point.

Page 153

1	I don't have any reason to believe it wouldn't
2	exist.
3	Q. Is that on Google drive or what kind
4	of share point is used?
5	A. It's whatever the government has
6	approved, but it's a it's a SharePoint on
7	it's a it's a government-approved SharePoint.
8	Q. Here, you
9	A. I think it's a Microsoft type
10	document. I think we used Teams in SharePoint.
11	Certainly not a Google document.
12	Q. Here, you say again that Dr. Murthy's
13	been thinking about how to help stop the spread of
14	health misinformation, and you'd love to connect
15	and discuss what's on the horizon for our teams.
16	In the meeting that you had with
17	these Google representatives, did you discuss what
18	was on the horizon for their teams when it comes to
19	this the spread of health misinformation?
20	A. I don't recall.
21	Q. So you
22	A. I think, again, just just just
23	like the last one, this was we had Kyla on the
24	call and giving them a high-level update that we're
25	going to have this advisory come out and that we

Page 154

1	want them to take a look at it.
2	Q. Do you remember you, yourself, asking
3	them for any kind of input on what they might do in
4	this area?
5	A. I don't recall.
6	Q. Do you remember them saying anything
7	about that, whether or not you asked? Oh, here's
8	what, you know, you and Google may be doing in the
9	space of stopping the spread of health
10	misinformation?
11	A. I don't recall.
12	Q. Let me show you Exhibit 9. Here's
13	another e-mail from Nick Clegg to Dr. Murthy and
14	Andy Slavitt, copying Brian Rice, correct?
15	A. That's correct.
16	Q. And he's sending another one of these
17	COVID insight reports, correct?
18	A. That's correct.
19	Q. He highlights a couple of
20	vaccine-related efforts in that e-mail to them,
21	right?
22	A. That's correct.
23	Q. Do you know whether Andy Slavitt or
24	Dr. Murthy asked Facebook to send them information
25	or updates about what kind of information Facebook

Page 155

1	was spreading about vaccines in particular?
2	A. I don't know.
3	Q. And in the e-mail above, another
4	e-mail from Nick Clegg to Dr. Murthy and Andy
5	Slavitt, he gives yet another COVID report and he
6	says that I understand that per Brian that my
7	team is meeting with yours next week to delve
8	deeper into our COVID misinformation efforts,
9	correct?
10	A. That's what the document says,
11	correct.
12	Q. Do you know what meeting that is
13	between the Facebook and and Surgeon General's
14	teams was?
15	A. Yeah. I think I think he's
16	referring to the meeting on the 16th that we're
17	going to have the rollout meeting that got pushed
18	to the Friday after the rollout.
19	Q. And so he's sending this e-mail on
20	July 10th?
21	A. Right. And the
22	Q. Go ahead.
23	A. And the rollout call with them was on
24	the 16th, I believe.
25	Q. So you think that are you aware of

Page 156

1	any other meeting between, you know, Facebook's
2	team and Dr. Murthy's team in that week?
3	A. I'm not familiar with any other
4	meeting.
5	Q. Okay. And it talks about how
6	Facebook's understanding of that meeting is that it
7	was going to delve deeper into our COVID
8	misinformation efforts, correct?
9	A. That is what the document says,
10	correct.
11	Q. So that was Mr. Clegg's understanding
12	of what was going to happen in this rollout
13	meeting, right?
14	A. It would appear so. I don't I
15	can't speak to what he understood, but that's what
16	he expresses.
17	Q. Is that what you do you know why
18	he thinks that's what the meeting is going to be
19	about?
20	A. I think we have the e-mail that you
21	already showed of me inviting Nick and Brian to the
22	meeting, which is the same e-mail I used for all
23	the parties, with the same language, same that
24	we'll discuss health misinformation.
25	Q. So you think that's his basis for

**Page 157** 

1	thinking that you sent that same e-mail that you'd
2	already sent to Twitter and YouTube talking about
3	how, you know, Dr. Murthy wants to help stop the
4	spread of health misinformation and wanted to
5	discuss how what's on the horizon for our teams,
6	right?
7	A. That's correct.
8	Q. And so Facebook had the understanding
9	at this stage that these meetings would be to,
10	quote, delve deeper into our COVID misinformation
11	efforts, right?
12	A. That's that's your interpretation,
13	and that makes sense based on what he said.
14	Q. Did you, in that July 16th meeting,
15	delve deeper into Facebook's COVID misinformation
16	efforts?
17	A. Not to my recollection. This was
18	again Kyla sort of going a little bit more over the
19	as we discussed previously when we talked about
20	this meeting, when you're going over the
21	interrogatories, I think it was Kyla going more
22	over the advisory, to my recollection. She may
23	have asked additional questions.
24	Q. Could those additional questions have
25	related to Facebook's efforts to combat health

Page 158

1	misinformation?
2	A. Absolutely.
3	Q. Did they, to your recollection?
4	A. I think she had some questions about,
5	again, the research side. I think some questions
6	came up about CrowdTangle, if I recall correctly,
7	which was a a data port for some some ways to
8	understand the Facebook, again, impact and research
9	of the misinformation.
10	Q. So you think she, in that July 16th
11	meeting, asked about CrowdTangle?
12	A. I think so. I'm not positive.
13	Q. What is what is CrowdTangle
14	exactly?
15	A. I'm not exactly positive, sir. I've
16	never used CrowdTangle, but I believe it's it's
17	some sort of data port to help help some
18	researchers or help users understand, you know, the
19	reach of some some of Facebook's posts and
20	and and interactions.
21	Q. Is that something that's publicly
22	available, or is it something that Facebook only
23	provides to select individuals?
24	A. I think it's publicly available, but
25	I really don't know.

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

Page 159

1	Q. And you don't remember what Kyla was
2	saying about the use of CrowdTangle in this
3	meeting?
4	A. I do not.
5	Q. Was she asking if they could have
6	access to it or asking how you interpret data from
7	it, anything like that?
8	A. I don't recall.
9	Q. Is this information from CrowdTangle
10	different from the information in the COVID
11	insights reports that we've seen, you know, Nick
12	Clegg e-mailing to Dr. Murthy, and you said you got
13	added to later on? Are those two different things,
14	CrowdTangle and the COVID insight reports from
15	Facebook?
16	A. I mean, that could be a per se
17	different things, but I don't know if materially
18	the the the information expressed is
19	different.
20	Q. Do you know whether it was do you
21	know whether Kyla was asking for you know, was
22	raising CrowdTangle in connection with asking for
23	more transparency or more access to data about
24	misinformation on Facebook?
25	A. I'm not I don't recall.

**Page 160** 

_	
1	Q. Did your remember anything else
2	what did Facebook say about CrowdTangle in that
3	meeting?
4	A. I don't recall what their answer was.
5	Q. Do you remember anything else that
6	that Kyla said in that meeting?
7	A. I do not.
8	Q. I'm e-mailing your counsel three more
9	exhibits, 11 and 12, and I'm going to pull up
10	Exhibit 10 on the screen, but I'll wait until
11	Ms. Chuzi
12	MS. CHUZI: Thank you, Counsel.
13	While we're waiting, we've been going for another
14	hour, so what are we thinking about a break?
15	MR. SAUER: This is a natural
16	breaking point for me if you want a short break now
17	and then go another hour before having a later
18	lunch, that's fine. I'm also fine going either
19	way would be fine with me. Tammie's opinion is
20	very important here.
21	(A discussion was held off the
22	record.)
23	THE VIDEOGRAPHER: The time is 11:07
24	a.m. We are off the record.
25	(A short break was taken.)

**Page 161** 

1	
1	THE VIDEOGRAPHER: The time is 11:19
2	a.m. We are back on the record.
3	Q. (BY MR. SAUER) Mr. Waldo, in the
4	next few exhibits, I want to direct your attention
5	more specifically to that July 15th rollout of the
6	health advisory we've been talking about. And I
7	want to start by sharing Exhibit 10 with you, which
8	is the transcript of the press conference involving
9	Jen Psaki and Dr. Murthy where the health advisory
10	was announced. Do you see that on the screen?
11	A. I can. I also have the document in
12	front of me.
13	Q. Were you at this press conference?
14	A. I was not.
15	Q. Okay. Did you watch it? Did you see
16	the attorney general speak?
17	A. I think I had some multiple screens
18	up. I was probably doing calls or work, but it may
19	have been on in the background.
20	Q. And would you were you part of the
21	team that worked with him to craft the message at
22	this press conference?
23	A. It would have been the press
24	secretary who would have worked on this.
25	Q. But not you. Would you have had

**Page 162** 

1	input in his comments on on this?
2	A. I at this juncture, I did not to
3	my recollection.
4	Q. Uh-huh. Okay. If you go to the
5	second page of the document, there's an
6	announcement today. I issued a Surgeon General's
7	advisory on the dangers of health misinformation,
8	right?
9	A. Correct.
10	Q. Yeah. And then Dr. Murthy goes on to
11	say: Surgeon general advisories are reserved for
12	urgent public health threats. Correct?
13	A. That is what the document says.
14	Q. So his message is that health
15	misinformation is an urgent public health threat,
16	correct?
17	A. That is what he says, correct.
18	Q. Yeah. And he he describes it as
19	an imminent and insidious threat to our nation's
20	health, correct?
21	A. Where is that, sir? Oh, yes. The
22	next I see it. Thank you. He he says: And
23	while those threats have often been related to what
24	we eat, drink, and smoke, today we live in a world
25	where misinformation poses an imminent and

**Page 163** 

1	insidious threat to our nation's health.
2	Q. So he's likening kind of like you
3	did earlier, he's likening health misinformation to
4	carcinogens in in tobacco, for example, with a
5	reference to smoking, right?
6	A. That's the example I used, correct.
7	Q. Yeah. And he references the smoking
8	himself, too, right? So that's a similar point,
9	right?
10	A. Oh, yes. He does say well, he
11	says that, in previous previous advisories have
12	been about threats like smoking, and misinformation
13	is is an imminent and insidious threat.
14	Q. Gotcha. And he goes on to say that
15	health misinformation is false or misleading
16	information about health according to the best
17	evidence at the time, right?
18	A. Correct.
19	Q. And is that definition of health
20	misinformation is something that's used by the
21	Surgeon General's office in in this health
22	advisory and elsewhere as well, right?
23	A. I believe that is the definition that
24	is listed within the advisory, correct.
25	Q. And were you involved in adopting

Page 164

1	that definition?
2	A. As we discussed previously, I was not
3	in the office while the advisory was developed or
4	finalized, so I was not part of the creation or did
5	not have input into the definition, therefore.
6	Q. So do you know who devised that
7	definition or how it was formulated?
8	A. So I think as we've already
9	discussed, the content of the advisory would have
10	been worked on by people like Daniel Tartakovsky,
11	Kyla Fullenwider, maybe Adam Beckman, you know.
12	Certainly, Dr. Murthy would have had eyes on it.
13	Those are the types of people who would have looked
14	at it. Probably some other members of the of
15	the science and policy team like maybe Tyiesha
16	Short, who was a policy associate.
17	Q. And does that definition contemplate
18	that what constitutes misinformation might change
19	over time?
20	A. I think that's a fair reading of
21	of the of the of the definition.
22	Q. So in other words, the best evidence
23	may indicate at one stage that something is
24	misinformation, and later better evidence may come
25	up that makes it turn out to be more reliable. Is

**Page 165** 

1	that fair to say?
2	A. I think that's a fair reading of
3	of the definition.
4	Q. So something that we now think is
5	misinformation may later turn out to be accurate
6	information, right?
7	A. And vice versa.
8	Q. Yeah. Right. Where something you
9	think was accurate may turn out to be misleading,
10	right?
11	A. I think I think we're I think
12	you stated the definition and multiple reasonable
13	interpretations of that definition.
14	Q. And Surgeon General goes on to say
15	that the truth is that misinformation takes away
16	our freedom to make informed decisions about our
17	health and the health of our loved ones, right?
18	A. That is what he said in the press
19	conference, correct.
20	Q. Yeah. And is that the view of the
21	Surgeon General's office, that health
22	misinformation takes away freedom, specifically the
23	freedom to make informed health decisions?
24	A. I'm not sure we've made a
25	determination that that's the the signed-off

**Page 166** 

- 1 view of the entire office, but that's coming out
- 2 from the Surgeon General, so I think it's fair to
- 3 ascribe to our office.
- 4 Q. In other words, that's Surgeon
- 5 General Murthy's view. That's what he said at says
- 6 that press conference, right?
- 7 A. That's what he said at the
- 8 conference, so I think it's fair to ascribe as his
- 9 view.
- 10 Q. And he immediately goes on to say:
- 11 During the COVID-19 pandemic, health misinformation
- 12 has led people to resist wearing masks in high-risk
- 13 settings, right?
- 14 A. That is what the sentence says,
- 15 correct.
- 16 O. Yeah. And so I take it his view is
- 17 that it's health misinformation that masks are
- 18 ineffective in stopping the spread of the virus in
- 19 high-risk settings, right?
- 20 A. I think that's a fair reading.
- Q. So here, I jotted down a sentence
- 22 about masks here that says: The typical mask you
- buy in a drug store is not really effective in
- 24 keeping out virus, which is small enough to pass
- 25 through material as a discussion of the

**Page 167** 

1	effectiveness of mask wearing. Would that sentence
2	be health misinformation on the view of the Surgeon
3	General's office?
4	A. Well, I guess you're asking me a
5	hypothetical. There is no Surgeon General's
6	office doesn't have like a team that that helps
7	determine whether or not something is health
8	misinformation. But I think it would be under a
9	reasonable person's standard. You could look at a
10	sentence like that and decide whether or not you
11	thought it was. I'd want to consult the policy
12	lead or someone to say whether it was or was not.
13	It doesn't sound like misinformation to me, but
14	that's just, you know, I'm that's my sort of
15	layperson's view.
16	Q. Is this the sort of information that
17	could lead people to resist wearing masks in
18	high-risk settings to say
19	MS. CHUZI: Objection. Calls for
20	speculation.
21	MR. SAUER: Let me finish.
22	THE WITNESS: I'm not
23	Q. (BY MR. SAUER) Go ahead.
24	A. Go ahead, sir. No. Go ahead, sir.
25	Q. Go ahead.

**Page 168** 

1	A. Sorry. No. I I can you repeat
2	the question?
3	Q. Is that the sort of misinformation
4	that could lead people to resist wearing masks in
5	high-risk settings, the statement that the typical
6	mask you buy in a drug store is not really
7	effective in keeping out virus?
8	A. I don't know.
9	Q. Does the Surgeon General Surgeon
10	General's office has given a lot of or made a
11	lot of statements about combating health
12	misinformation. Does the Surgeon General's office
13	give any guidance about how to determine whether or
14	not something is misinformation?
15	A. I think the definition is the attempt
16	to recognize the complexity of it. I also think
17	it's important to recognize that the advisories
18	about mis- and disinformation and that there's a
19	certainly a spectrum of within that.
20	And I think Dr. Murthy explicitly
21	also talks about that oftentimes people are
22	spreading information with good intention that may
23	not be accurate. And our goal is to spread more
24	accurate information and to create connections and
25	and ways for people to connect with folks who

**Page 169** 

1	are more likely to share accurate information.
2	Q. Does the Surgeon General give advice
3	on how to determine what's accurate and what's not
4	accurate?
5	A. I don't recall that I think there
6	was the that view I I think within the
7	documents, certainly within the toolkit he talks
8	about examples of more trusted sources that he
9	recommends people reach out to.
10	Q. He goes on to say: Modern technology
11	companies have enabled misinformation to poison our
12	information environment with little accountability
13	to their users. Do you see that?
14	A. I do see that.
15	Q. So I think we alluded earlier to the
16	fact that he did use the word "poison" to describe
17	misinformation, right?
18	A. That's correct. We did discuss the
19	use of the word "poison."
20	Q. He talks about another word here that
21	I think the Surgeon General's office uses a lot,
22	which is the word "accountability." I think that
23	Dr. Murthy and advisory talk about holding the
24	social media platforms accountable for
25	misinformation on their platforms. Do you know

**Page 170** 

1	what's meant by "accountable"?
2	A. I don't I don't have a definition
3	of accountable in the for the purposes of your
4	question.
5	Q. Do you know what the Surgeon
6	General's office intends it to mean when it uses
7	the word accountable and accountability for social
8	media platforms?
9	A. I think there's generally the notion
10	that, you know, they've that they have, you
11	know, I would say an obligation to try to make sure
12	that they're not doing harm. So as opposed to just
13	saying, hey, I built this I built this highway
14	and I'm not going to put any speed limits on it or
15	stop signs or warn people that there's a turn
16	ahead, you know. We want to say are we doing
17	anything to reduce the likelihood of a collision.
18	You want a stop sign, a speed limit, some lines on
19	the road, some some some traffic
20	cameras, et cetera.
21	So I think the, you know, idea is
22	social media companies have created this platform
23	that is where many, many people receive news that
24	they believe. How can we in a time of a historic
25	pandemic think about ways to to have a

**Page 171** 

1	heightened sense of obligation to make sure that
2	that's not being used in a have a corrosive
3	effect on on the health of others.
4	Q. Does accountability include accepting
5	the consequences for when you do something wrong or
6	or inappropriate?
7	A. That's a that's a fair and modern
8	use of the word accountable.
9	Q. And is that what's included in what's
10	intended or meant when that word is used by the
11	Surgeon General's office with respect to social
12	media platforms, that they should accept
13	consequences
14	A. I don't
15	Q for when they don't do enough to
16	stop the spread of misinformation that can harm
17	people?
18	A. I don't know.
19	Q. But you'd say that would be a fair
20	understanding to a modern user of that word,
21	correct?
22	A. I think you're providing a reasonable
23	reading of the word accountable in the context of
24	this paragraph.
25	Q. Were you involved in discussions

**Page 172** 

1	about using choosing to use the word
2	accountable? It does pop up a lot in these OSG
3	communications.
4	A. I think if you asked before whether
5	or not I was participated in the creation of
6	these remarks, I did not. So, therefore, I would
7	not have had any view into whether or not and
8	how to choose the word accountable.
9	Q. Goes on to say that the social media
10	platforms have allowed people who intentionally
11	spread misinformation, what we call disinformation,
12	to have extraordinary reach, correct?
13	A. That is what the sentence says,
14	correct.
15	Q. And that's something he's calling on
16	them to stop to prevent the reach of those who
17	spread disinformation. Is that fair to say?
18	A. He's call again, I think the
19	advisory and all this is is providing technology
20	companies and others with the idea of this is an
21	issue. There there's an obligation or or
22	or certainly an imperative to do more. So reduce
23	reduce if not only not only stop but reduce
24	or take some sort of mitigating efforts so that the
25	misinformation and disinformation is not leading to

**Page 173** 

1	poor health results for people.
2	Q. Yeah. In other words, that some
3	steps should be taken by social media platforms to
4	stop the extraordinary reach of disinformation on
5	their platforms, correct?
6	A. I think it's to stop I would view
7	it as stopping the harm, and this goes to our
8	conversation that you and I have had earlier,
9	right? I think you want to I think there's the
10	presumption right now that the reach is leading to
11	harm. I think that within the context of the
12	advisory, there's a desire to learn and study more,
13	which is also part of the conversations we've
14	already talked about vis-a-vis Facebook around
15	understanding the nature of the reach to understand
16	the depth of harm. So I think I think that's
17	all all on the table.
18	Q. Yeah. And one of the things that's
19	on the table, I think you testified earlier, is
20	that when the health advisory was issued, the
21	Surgeon General's view was that stopping the spread
22	is one way to stop the harm, correct?
23	A. I think that's what the document
24	says, so I don't have any reason to believe that's
25	not what what what what the

Page 174

1	Surgeon General meant when it was written.
2	Q. On the next page, the Surgeon General
3	goes on to say: We are saying we expect more from
4	our technology companies. Correct?
5	A. That's correct.
6	Q. And it says: We're asking them to
7	operate with greater transparency and
8	accountability. Correct?
9	A. Correct.
10	Q. Yeah. In other words, so this is
11	kind of a call to action to the social media
12	platforms, right? We're asking them to do things,
13	right?
14	A. That's correct.
15	Q. Yeah. And one of those things is
16	greater transparency. I assume that's a reference
17	to the kind of data sharing that was raised in
18	these private calls including with Kyla
19	Fullenwider, correct?
20	A. Yeah. I think, again, helping people
21	understand what is the nature of the reach and the
22	nature of the impact of of this health
23	misinformation, disinformation.
24	Q. And then accountability, I think you
25	testified earlier, a reasonable understanding of

**Page 175** 

platforms accepting consequences for negative  behavior that's that they're responsible for,  correct?  A. I read I read this sentence it  says: Fourth, we're saying we expect more from our  technology companies. We're asking them to operate  with greater transparency and accountability.  I read that sentence to mean  accountability as accountability to the to the  public around this public health emergency.  Q. And and and again, the public,  then, would expect them to accept responsibility  and consequences if they behaved badly, correct?  A. I mean, in my mind again, we're  asking them about accountability means, hey, we  can't just say it's not. We have it's not our  fault. There's nothing we can do to improve this  accountability. It's like we we this is  happening with our platform. We have a duty to try  to improve the outcomes and help help make sure  there's fewer bad outcomes when using our platform  during a pandemic with historic deaths.  Q. Yeah. In other words  A. Historic and preventable deaths.	1	that term would be include the social media

to improve the outcomes and help help make sure there's fewer bad outcomes when using our platform during a pandemic with historic deaths.  Yeah. In other words	19	accountability. It's like we we this is
there's fewer bad outcomes when using our platform during a pandemic with historic deaths. <b>Q. Yeah. In other words</b>	20	happening with our platform. We have a duty to try
23 during a pandemic with historic deaths.  24 Q. Yeah. In other words	21	to improve the outcomes and help help make sure
Q. Yeah. In other words	22	there's fewer bad outcomes when using our platform
~	23	during a pandemic with historic deaths.
A. Historic and preventable deaths.	24	Q. Yeah. In other words
	25	A. Historic and preventable deaths.

**Page 176** 

1	Q. Yeah. In other words, we're asking
2	them to take more proactive steps to stop the
3	spread of misinformation?
4	A. Yes. Or to help us help the
5	public or help people understand how to do that.
6	It could be research could help us understand
7	that if you send a positive message this way, it
8	can undo the harm of the negative messaging.
9	There's all sorts of things we could learn that
10	would create the actual tactics as to opposed to
11	the, you know, prescriptive strategies.
12	Q. Right. And one tactic is mentioned
13	in the later in the paragraph or two tactics.
14	One is he says, we're asking him to monitor
15	misinformation more closely, right? So
16	A. That is what the sentence says,
17	correct.
18	Q. Yeah. And then Dr. Murthy said,
19	we're asking them to consistently take action
20	against misinformation superspreaders on their
21	platforms, correct?
22	A. That is what he says, yes.
23	Q. That's a specific action item that
24	the Surgeon General urged social media platforms to
25	take, which is essentially to remove content spread

**Page 177** 

1	by misinformation superspreaders, right?
2	A. That's not what the sentence says.
3	He says: We're asking them to consistently take
4	action against.
5	You are supposing that means remove.
6	It could just be we're not going to have the
7	algorithm amplify it or we're not going to allow it
8	to be retweeted, or we're going to put a corrective
9	warning label. There are plenty of the examples
10	that would be that could take action that would
11	reduce the harm of the misinformation superspreader
12	and keep it from spreading.
13	Q. So some of those potential actions
14	that they could take would include assigning
15	warning labels, correct?
16	A. Correct.
17	Q. Yeah. And some might include
18	deamplifying the content from information
19	superspreaders and their algorithms, correct?
20	A. That's correct.
21	Q. And another action might be taking
22	down the content. Bad posts just get taken down
23	altogether. That would be a potential action to
24	take against superspreaders, right?
25	A. That is a potential action, yes.
1	

**Page 178** 

1	Q. And another potential action would be
2	to, you know, deplatform that, right? To cancel
3	their accounts altogether, right?
4	A. That's a potential action that a
5	that a social media platform could take.
6	Q. And Dr. Murthy calls for social media
7	platforms to take action against misinformation
8	superspreaders, right?
9	A. That is what the sentence says,
10	correct.
11	Q. I'm going to flip ahead a few pages
12	in this. It's the page marked 45.5 on the bottom
13	right.
14	A. I'm sorry. Could you repeat that.
15	We had to unlock the the laptop or the iPad.
16	What what the page are we on again?
17	Q. 45.5. It should be the fifth in the
18	exhibit pdf.
19	A. Fifth page of the pdf? Okay. Thank
20	you.
21	Q. Do you see
22	A. Yep.
23	Q about halfway down
24	A. Yep.
25	Q the page a reporter asks the

**Page 179** 

1	Surgeon General Murthy the question: Do you
2	
	personally believe that public figures and public
3	companies that are helping spread misinformation
4	about the vaccine should be held accountable?
5	Right?
6	A. I do see that that question, yes.
7	Q. Yeah. And he responds by saying:
8	How can we be more accountable and responsible for
9	the information that we share? Right?
10	A. Yes.
11	Q. And he says the bottom line is that
12	all of us have an important role to play, and
13	technology companies have a particularly important
14	role, right?
15	A. That is what he says, correct.
16	Q. And he goes on to say: We're asking
17	them to step up? Right?
18	A. Yes. Can I actually read that whole
19	paragraph, sir? Give me one second.
20	Q. Sure.
21	A. Okay. Thank you, sir.
22	Q. Okay. And he says that in that
23	paragraph the speed and scale at spreading this
24	information has been in part enabled by these
25	platforms. That's social media platforms, correct?
	<del>-</del>

Page 180

1	A. That's correct.
2	Q. And that's why he says that's why in
3	the health advisory today we're asking them to step
4	up, right?
5	A. That's correct. That's what he says.
6	Q. Yeah. And he says we know they have
7	taken some steps to address misinformation, but
8	much, much more has to be done, right?
9	A. That is what he says, correct.
10	Q. He says: We can't wait longer for
11	them to take aggressive action because it's costing
12	people their lives. Right?
13	A. That's correct.
14	Q. So in other words, he's calling for
15	aggressive action by social media platforms to
16	address misinformation on their platforms, right?
17	A. Correct.
18	Q. Yeah. And he doesn't specify there
19	what the aggressive action should be, but it needs
20	to be much, much more in his view than is already
21	is already being done, right?
22	A. That's correct.
23	Q. And that's a public message that all
24	the social media platforms are receiving, right?
25	A. Well, I don't know which ones of them

**Page 181** 

1	were watching this press conference or not, but
2	they presume we know we sent them the advisory,
3	and it's certainly a well-covered event. So
4	hopefully, they received that message.
5	Q. And, in fact, you had some
6	introductory calls with at least three of them to
7	tell them it was coming and encouraging them to
8	watch, right?
9	A. We did not encourage them to watch
10	the press conference.
11	Q. Okay. But you encouraged them to pay
12	attention to the advisory, right?
13	A. We encouraged them to read the
14	advisory we shared with them, yes.
15	Q. And then you asked them each of
16	them as a follow-up what actions they might have
17	taken in response to the advisory, right?
18	A. I don't think we asked each of them.
19	I think we definitely I think Facebook and
20	Twitter, maybe Google, but my guess is that most of
21	them, yeah.
22	Q. Did you ever communicate with any
23	other social media platforms other than Facebook,

I guess, again, Facebook also

Twitter, and Google/YouTube?

Α.

24

25

Page 182

1	includes Instagram. So, you know, I think it's
2	Facebook, Instagram, Twitter. I can't I don't
3	think so. I know there was a discussion about
4	whether or not we wanted to reach out to, I think,
5	Pinterest, but we I don't believe that we did.
6	I think Dr. Murthy had shared I
7	think Next Door is another social media site that
8	maybe actually had like some more favorable
9	policies that they were were their take on this.
10	We talked about potentially highlighting them, but
11	I I didn't do any outreach to those groups.
12	Q. How about LinkedIn or Reddit or
13	Verizon Media, Microsoft? Any of those?
14	A. We did not do any outreach to
15	LinkedIn, to my knowledge; not to Microsoft, to my
16	knowledge. We did a Reddit "Ask Me Anything." May
17	not have been about misinformation. It may have
18	been about one of our other health topics. I
19	remember us doing prep for a Reddit AMA, which
20	stands for "Ask Me Anything." But I don't believe
21	we reached out to Reddit for misinformation.
22	Q. The American Medical Association will
23	be pleased to hear that that acronym.
24	Let me turn your attention to page 10
25	of this document, 4510. And this is after

Page 183

1	Dr. Murthy has already left the press conference.
2	There's follow-up questions to Jen Psaki. Do you
3	see that?
4	A. Yes.
5	Q. Okay. So there's a question here
6	that refers back, I think, to Dr. Murthy's comment
7	about being more aggressive, where it says the
8	reporter says: Can you talk a little bit more
9	about this request for tech companies to be more
10	aggressive in policing misinformation? Has the
11	administration been in touch with any of these
12	companies, and are there any actions that the
13	federal government can take to ensure their
14	cooperation, because we've seen from the start
15	there's not a lot of action on some of these
16	platforms? Correct?
17	A. That is the question that was asked
18	to Ms. Psaki, correct.
19	Q. And she responds: Sure. Well,
20	first, we are in regular touch with these social
21	media platforms, and those engagements typically
22	happen through members of our senior staff but also
23	members of our COVID-19 team. Correct?
24	A. That is what Jen Psaki answers,
25	correct.

Page 184

1	Q. Yeah. Do you know who she's
2	referring to when she talks about being in regular
3	touch with social media platforms and those
4	engagements typically happening through members of
5	our senior staff?
6	A. I do not.
7	Q. So you don't know what human being
8	she's talking about who are regularly in touch with
9	social media platforms?
10	A. I do not.
11	Q. Is is she possibly talking about
12	Dr. Murthy?
13	A. Is it technically possible? I
14	suppose. But I don't I don't think so.
15	Q. And was he in regular touch with
16	social media platforms by July 15th of 2021, to
17	your knowledge?
18	A. Not to my knowledge.
19	Q. How about Rob Flaherty? Do you know,
20	was he in regular touch with social media
21	platforms?
22	A. I don't know.
23	Q. She refers to members of our senior
24	staff. Do you know who that is?
25	A. I don't know. I think we discussed

Page 185

1	Andy Slavitt already having clearly a connection
2	with Nick Clegg, so that's a member of the senior
3	COVID-19 team.
4	Q. Do you know of anyone else who she
5	might be referring to?
6	A. I do not.
7	Q. How about also members of our
8	COVID-19 team who would be
9	A. Yeah. They
10	Q in touch with social media
11	platforms? Go ahead. Do you know who that is?
12	A. I I I do think that that would
13	probably have been Andy Slavitt, is my guess.
14	Q. Okay. So he would be both members of
15	our senior staff and members of our COVID-19 team?
16	A. Correct. Andy, I believe I'm not
17	positive, but his title was something like I
18	don't know if he was the I guess Jeff Zients is
19	technically the czar, getting back to our Russian
20	references from before. Jeff Zients ran the
21	COVID-19 team, but Andy was a very important member
22	of that team as well. Was considered a senior
23	staffer, and so I would assume it's Andy.
24	Q. How about Jeff Zients? Do you know
25	if he was talking to social media platforms at all?
l	

Page 186

1	A. I don't know.
2	Q. Anyone else who she might be
3	referring to, to your knowledge?
4	A. I don't know.
5	Q. Okay. She goes on in the next
6	paragraph to say, in terms of actions, the first
7	one she lists is an increased disinformation
8	research and tracking within the Surgeon General's
9	office. Do you know what she's referring to?
10	A. I do not.
11	Q. So are you aware of any increase in
12	disinformation research and tracking at any phase
13	in the Surgeon General's office?
14	A. I am not aware. I think obviously
15	there was a research done by the policy team in the
16	creation of the advisory, so that's certainly the
17	research side of it, but I'm I'm not familiar
18	with any of any increase in tracking of of
19	disinformation.
20	Q. So you don't know what her basis was
21	for saying there's an increase in disinformation
22	research and tracking?
23	A. I don't my again, my only
24	thought, as I've already said, is that given the
25	preparation for the for the advisory certainly

Page 187

1	was we did research. The team had to have done
2	done research to you know, that's our
3	standard business practice before we issue an
4	advisory, is to to to research an
5	issue.
6	Q. Who did that research? I think you
7	mentioned the gentleman with a Russian name and
8	Kyla Fullenwider. Were they involved in that
9	research?
10	A. Yes. So as I've answered previously,
11	my understanding is Daniel had the the first pen
12	or was like the key key policy person working on
13	the advisory. So that's Daniel Tartakovsky. Kyla,
14	I believe, participated, and probably someone like
15	Tyiesha Short, who worked with Daniel on the policy
16	team were involved.
17	At that time in the office, Adam
18	Beckman managed Daniel. So it's possible that he
19	had some input. But I think Daniel was the was
20	one of the chief drivers of the drafting process.
21	Q. And he
22	A. I think I already mentioned I
23	mentioned this is again, we discussed this
24	already before, but also Dr. Murthy certainly would
25	have and this is based on just our general

Page 188

1	practice in the office. He would have seen the
2	drafts and would have signed off on the final
3	draft.
4	Q. And Jen Psaki goes on to say: We're
5	flagging problematic posts for Facebook that spread
6	disinformation.
7	Do you know what she's referring to?
8	Who is flagging problematic posts for Facebook?
9	A. I don't know.
10	Q. So are you aware of anyone in the
11	Surgeon General's office who's flagging problematic
12	posts for Facebook?
13	A. I'm not aware of anybody in the
14	Surgeon General's office who was flagging
15	problematic posts for Facebook.
16	Q. How about Kyla? Could she have done
17	that by communicating with the outside researchers
18	like Renee DiResta?
19	A. I I'm very doubtful of that. I
20	don't think Kyla would have represented that this
21	that was an ask from the Surgeon General's
22	office because we didn't there was no system set
23	up where we were either looking at reviewing or in
24	any way there had been no policy decision around
25	that. So I'd be hard pressed to to to guess

**Page 189** 

1	that, but I don't know.
2	
	Q. Are you aware of any other federal
3	officials inside or outside the Surgeon General's
4	office who flagged problematic posts for Facebook?
5	A. I don't know.
6	Q. You just don't know whether there are
7	or there aren't?
8	A. I know that there aren't I don't
9	know of any of the Surgeon General's office who
10	flagged bad posts to for Facebook, and I I know
11	I know that I don't have knowledge of anyone
12	who's done it in the Surgeon General's office, and
13	I don't know of anyone else outside within the
14	administration that did it.
15	Q. You're not aware of anyone in the
16	Surgeon General's office, and you don't know if
17	there's anyone outside?
18	A. That's correct.
19	Q. Do you have any reason to believe or
20	suspect that anyone may have done it?
21	A. I know that Rob Flaherty was in touch
22	with Facebook, and so that would be the only
23	person. Given his role as digital director, he
24	might have been seeing content. That would be my
25	only my only guess.

Page 190

1	Q. So you think Rob Flaherty may have
2	been flagging problematic posts for Facebook?
3	A. I know that I know he was
4	certainly were very aware of misinformation posts.
5	So I that's the only other person I know who was
6	deeply looking at what the posts themselves.
7	Q. What about the CDC? Are you aware of
8	the CDC, Centers for Disease Control, being
9	involved in flagging problematic posts?
10	A. I am not aware of that.
11	Q. Do you know Carol Crawford?
12	A. Not off the top of my head.
13	Q. Is the name familiar to you?
14	A. Very vaguely.
15	Q. How do you know of her?
16	A. I I don't. I'm just saying the
17	name sounds vaguely familiar. I've also been
18	living in DC for 14 years now, so it's possible
19	I've names start to all sound alike.
20	Q. Let me scroll down to the next page.
21	It's still Jen Psaki talking, and she says: There
22	are also proposed changes that we have made to
23	social media platforms, including Facebook, and
24	those specifically are four key steps. Do you see
25	that?

**Page 191** 

1	A. I do.
2	Q. Were you aware at this time frame of
3	anyone in the federal government proposing changes
4	to social media platforms, including Facebook?
5	A. I was not.
6	Q. So you're not aware of any
7	communications between anyone in the federal
8	government prior to the health advisory where these
9	kinds of recommendations were made to any social
10	media platform?
11	A. I was not aware, no.
12	Q. Her first point is one that they
13	measure and publicly share the impact of
14	misinformation on their platform, correct?
15	A. That is what the document says,
16	correct.
17	Q. And that kind of echoes what Surgeon
18	General Murthy has said and what in the health
19	advisory, and I think you said was discussed in
20	some of the calls, right?
21	A. That's correct.
22	Q. But you're not aware of anyone
23	separately proposing those changes to Facebook?
24	A. I am not.
25	Q. Second, she goes on to say: We have

Page 192

1 :	recommended/proposed that they create a robust
2	enforcement strategy that bridges their properties
3 .	and provides transparency about the rules.
4	Do you know what robust enforcement
5	strategy was proposed to social media platforms?
6	A. I do not.
7	Q. Do you know if anyone in the federal
8	government proposed anything like that to them
9 <b>j</b>	prior to this July 15th date?
10	A. I am not aware of anything.
11	Q. She goes on to say in reference to
12 ·	this: There's about 12 people who are producing 65
13 <b>1</b>	percent of anti-vaccine misinformation on social
14 ı	media platforms. All of them remain active on
15 i	Facebook, despite some even being banned on other
16 j	platforms, including ones that Facebook owns.
17	Correct?
18	A. That is what the statement says,
19 (	correct.
20	Q. And that's reference to the so-called
21 <b>1</b>	Disinformation Dozen, right?
22	A. It would appear so, yes.
23	Q. And I remember you said earlier that
24	you had a briefing from what you think could have
25 <b>1</b>	been the CCDH, the Center for Countering Digital

Page 193

1	Hate, about the Disinformation Dozen, right?
2	A. That's correct.
3	Q. Were you aware that of any federal
4	officials prior to this July 15th press conference
5	calling for social media companies to take action
6	against the Disinformation Dozen?
7	A. I was not.
8	Q. Are you aware of any proposal for a
9	robust enforcement strategy that would stop
10	A. I'm not
11	Q from that
12	A. I'm not
13	Q disinformation?
14	A. I'm not aware of that.
15	Q. Then Jen Psaki goes on to say:
16	Third, it's important to take faster action against
17	harmful posts. Right?
18	A. That is what the document says,
19	correct.
20	Q. She talks about how information
21	travels quickly, and Facebook needs to move more
22	quickly to remove harmful, violative posts. Posts
23	that will be within their policies for removal
24	often remain up for days. Right?
25	A. That is what the document says,

Page 194

1	correct.
2	Q. So she's calling on Facebook to move
3	more quickly to remove content, to remove harmful
4	posts, correct?
5	A. I think she's saying to remove those
6	harmful posts that are already violating the
7	policy, the harmful, violative posts.
8	Q. Right. She's asking for harmful,
9	violative posts that violate Facebook's policies to
10	be taken down more quickly, right?
11	A. That is what she says, correct.
12	Q. Is that consistent with what the
13	health advisory calls for, for faster action to
14	take down harmful posts?
15	A. I don't recall that level of
16	specificity within the advisory, but the
17	certainly the advisory overall has recommendations
18	for technology companies, including I think
19	there's more vague language of sort of that that
20	says something to the extent of move faster or
21	or, you know, more aggressive, but I don't think it
22	this level of specificity. Like too many days
23	is certainly not on there.
24	Q. Okay. But there is a call for more
25	aggressive action that could include moving more

Page 195

1	quickly to remove harmful violative posts?
2	A. I think that's a specific
3	interpretation. That's not I don't think that's
4	that's not in the document, to my knowledge, but
5	if you have the document and you can show it to me,
6	I'm happy to take a look.
7	Q. Well, let me ask you this. Is that
8	something that ever came up in the follow-up calls
9	is, hey, you know, can there be faster action to
10	remove, you know, kind of harmful posts that are
11	getting a lot of spread? Like if a Disinformation
12	Dozen post goes viral, can you guys get it taken
13	down faster? Were there any conversations like
14	that in your follow-up calls?
15	A. Not not on not from our side.
16	I think when we were setting up the meeting with
17	when the meeting because the meeting team with
18	Facebook and Payton occurred after this, I think
19	there's an e-mail from Payton to me saying we're
20	understanding that these are your four asks; is
21	that correct? And I believe I responded to her and
22	said that's actually not what we were going to talk
23	about. We were going to talk about the advisory
24	more generally.
25	So we weren't we weren't sort of

**Page 196** 

1	continuing on that on that. I think Facebook,
2	at first, was inquiring as to whether or not, you
3	know, that was coming from our office.
4	Q. I see. And so did Facebook then
5	report back to you with information about how they
6	had been taking faster action to remove harmful
7	posts?
8	A. I don't recall.
9	Q. Did they report back to you about
10	specific actions taken against the Disinformation
11	Dozen?
12	A. I don't think so, but I don't recall.
13	Q. Do you have any other knowledge of
14	what might be the possible basis for Ms. Psaki's
15	statements that we've gone over other than what
16	we've already asked you?
17	A. I don't.
18	Q. You don't know what her basis was for
19	saying all those things?
20	A. I do not.
21	Q. Let's pull up Exhibit 11. And now
22	this actually is the health advisory we've been
23	talking about, right?
24	A. Right. Yes.
25	Q. Issued on July 15th of 2021?

Page 197

1	
1	A. Yes.
2	Q. We talked about this quite a bit. So
3	I want to jump ahead down to page 5 of the
4	document. You see how the in the text I've
5	highlighted on shared screen, the health advisory
6	says: Product features built into technology
7	platforms have contributed to the spread of
8	misinformation. For example
9	A. Can
10	Q. Go ahead.
11	A. Sir, can can you give me a moment
12	to read a little bit more of this page?
13	Q. Sure.
14	A. Thank you. Okay. Thank you.
15	Q. So it says: Product features built
16	into technology platforms have contributed to the
17	spread of misinformation. Correct?
18	A. That is what the document says,
19	correct.
20	Q. And it says that social media
21	platforms incentivize people to share content to
22	get likes, comments, and other positive signals of
23	engagement, correct?
24	A. That is what the sentence says,
25	correct.

Page 198

1	Q. And thus, it rewards engagement
2	rather than accuracy, right?
3	A. That is what the statement the
4	sentence says, correct.
5	Q. So is there a suggestion or proposal
6	from the Surgeon General's office that social media
7	companies ought to change their product features to
8	slow the spread of of inaccurate information?
9	A. I think when you go to the bottom,
10	what it says is, you know, additional research is
11	needed to better understand how people are exposed
12	to and affected by misinformation and how this may
13	vary across subpopulations based on facts such as
14	race, ethnicity, socioeconomic status
15	(A discussion was held off the
16	record.)
17	THE WITNESS: Subpopulations based on
18	factors such as race, ethnicity, socioeconomic
19	status, education, age, sexual orientation, gender
20	identity, cultural, and religious practices,
21	hobbies and interests and personal net worths.
22	So I think Dr. Murthy is describing
23	the current product and ultimately saying that we
24	need to understand more about how this is affecting
25	our the population, and that would potentially

**Page 199** 

1	lead to different sorts of ameliorative policy
2	goals for potential product changes.
3	Q. (BY MR. SAUER) So you think is he
4	saying he's saying more research is needed. Is
5	he also saying there should be product changes?
6	A. I don't see that in there, sir. Can
7	you point me to it?
8	
9	Q. Page 12, what technology platforms
	can do, do you see that on the shared screen?
10	A. Yes. And I now have it up on my
11	screen as well.
12	Q. And you see how the first
13	recommendation is assess the benefits and harms of
14	products and platforms and take responsibility for
15	addressing these harms?
16	A. Yes. I see that.
17	Q. And it says: In particular, it
18	make meaningful, long-term investments to address
19	misinformation, including product changes, correct?
20	A. That is correct.
21	Q. And he recommends redesigning
22	recommendation algorithms to avoid amplifying
23	misinformation, build in friction such as
24	suggestions and warnings to reduce the sharing of
25	misinformation, and make it easier for users to

Page 200

1	report misinformation, correct?
2	A. That's correct.
3	Q. And so those are all action items
4	above and beyond additional research that would
5	that would slow the spread of misinformation on the
6	platforms, right?
7	A. Right. So now we are in the What
8	Technology Platforms Can Do section. I think we
9	were still up just in the summary section. So this
10	is you're asking me if that previous section
11	talked about product changes. It did not. This
12	section does.
13	Q. So this section of the health
14	advisory does call for product changes, correct?
15	A. It it I I guess the
16	term it's using, yeah. It asks it says it
17	suggests that these are things that they can do.
18	They could do a product change. It's a
19	recommendation.
20	Q. Yeah. And they recommend redesigning
21	algorithms and building in frictions and actually
22	make it easier for users to report misinformation,
23	right?
24	A. That is a exactly what it says.
25	Q. And that would be a method for users

**Page 201** 

1	to flag problematic posts so that they could be
2	reviewed for content modulation, policy violations,
3	right?
4	A. Yes. That's a fair reading of that
5	sentence, I think.
6	Q. Yeah. And then lower down on the
7	page, same column talks about how a social media
8	platform should strengthen the monitoring of
9	misinformation, correct?
10	A. Can you give me a second to read this
11	page, sir?
12	Q. Yeah. I I don't think you need to
13	read this whole document. I'm just asking you to
14	look at this one.
15	A. Oh, yeah. Yeah. I know, but I want
16	to understand the context. Okay. Sir, I'm ready.
17	Q. Strengthen the monitoring of
18	misinformation, correct? That's another
19	recommendation?
20	A. Yes.
21	Q. And it says: Platforms should
22	increase staffing of multilingual content
23	moderation teams. Correct?
24	A. That is what the document says.
25	Q. The idea is putting more resources

**Page 202** 

1	into the content modulation teams that detect the
2	misinformation and apply content modulation
3	policies to it, correct?
4	A. This one right when I read that
5	one, it's talking about, again, the content
6	moderation I think you said "modulation," sir.
7	So it's it's it's saying you want more
8	multilingual moderation teams so that if there's
9	if there's misinformation being spread in one
10	language and one community is is being
11	disproportionately harmed, we want to make sure
12	that we're being you know, to find the harm in
13	multiple languages. So this is a common problem
14	that can occur in in in policy areas where if
15	we don't have something in multiple languages, it
16	might be hard to reach certain communities.
17	Q. And so the idea is have more staff on
18	the social media platform side to be able to
19	identify misinformation in non-English-speaking
20	communities?
21	A. Absolutely.
22	Q. Yeah. And the idea there would be
23	able to detect it and stop its spread in those
24	communities who may be being, as you said,
25	disproportionately harmed?

Page 203

1	A. That is a correct. That is, I think,
2	what the what the paragraph is trying to get at.
3	Q. Yeah. And later in the paragraph, it
4	says: Platforms should also address misinformation
5	live streams which are more difficult to moderate
6	due to their temporary nature and use of audio and
7	video. Right?
8	A. That is what the sentence says,
9	correct.
10	Q. And moderating misinformation usually
11	involves taking one of those actions that we talked
12	about earlier, like, you know, applying a label to
13	it, removing a post, deamplifying it, so forth,
14	right?
15	A. Those are examples, yes.
16	Q. Yeah. So this this advisory is
17	calling for the platforms to do more moderation in
18	a particular area; that is, live stream with video
19	and audio content, correct?
20	A. It flags that live steams are a place
21	where it's recognizing it's difficult to
22	moderate is what I think it says, and it should
23	create it should also create a plan to address
24	how to deal with moderation and live streams, yes.
25	Q. Yeah. In other words, to increase

Page 204

1	moderation of misinformation that's currently not
2	detecting because it's, you know, done through
3	video feeds, right?
4	A. Yes.
5	Q. And then underneath that, it talks
6	about prioritize early detection of misinformation
7	superspreaders and repeat offenders, right?
8	A. That's correct.
9	Q. So the recommendation is the social
10	media platform should make it a priority to the
11	identify the superspreaders and the repeat
12	offenders, right?
13	A. Correct.
14	Q. And not just that. It's to impose
15	clear consequences for accounts that repeatedly
16	violate platform policies, right?
17	A. That is what the document says,
18	correct.
19	Q. And what it says implies not just
20	removing posts, but to impose clear consequences
21	for accounts that
22	A. I don't think it
23	Q that violate policies, right?
24	A. I don't think it implies that. I
25	think it says that explicitly.

**Page 205** 

1	Q. Right. It explicitly says that there
2	should be consequences for the account, not just
3	the offending post, right?
4	A. It says impose clear consequences for
5	accounts that repeatedly violate platform policies.
6	Q. And clear consequences for repeat
7	violator of policies usually includes things like
8	issuing strikes against them, suspensions, you
9	know, and and sometimes permanent deplatforming,
10	correct?
11	A. Those are examples of of current
12	policies in place by social media companies,
13	correct.
14	Q. Skipping ahead to page 16, at the
15	conclusion, there's a reference to institutions
16	recognizing that this issue
17	A. Sir, may I have a moment again to
18	read this page?
19	Q. Sure. It's the one marked Where We
20	Go From Here.
21	A. Yeah. I'm I've got it. Thank you
22	so much. Okay. I'm ready, sir.
23	Q. Here, on page 16, the advisory says:
24	We need institutions to recognize that this issue
25	related to misinformation is their moral and civic

Page 206

1	responsibility and that they are accountable.
2	Right?
3	A. That is what the sentence says,
4	correct.
5	Q. So calling for accountability for
6	social media platforms is something that's kind of
7	a word that's repeatedly used both in the advisory
8	and the Surgeon General's public remarks, right?
9	A. The word "accountable" was used in
10	the press conference, and it's definitely used here
11	in the advisory.
12	Q. Why don't we look at Exhibit 12.
13	Now, the health advisory was actually launched not
14	from the White House press conference but in a
15	an event at Stanford, right?
16	A. I don't now recall what the order of
17	operations was, whether the Stanford event happened
18	before the press conference, but it was all part of
19	the launch day, yes. I think it was I would
20	call it a launch day as opposed to launch counts
21	as like that morning. The embargo is done. We
22	sent it out to reporters. So it's a multitiered
23	launch.
24	Q. There's two at least two events
25	that day. There's a White House press conference,

**Page 207** 

1	and then there's Dr. Murthy giving remarks through
2	the Stanford Internet Observatory, right?
3	A. That is correct.
4	Q. Yeah. And the Stanford Internet
5	Observatory, that's is that where Renee DiResta
6	is?
7	A. I know that Renee DiResta was part of
8	this event. I'm I think that's where she is,
9	but I'm not positive.
10	Q. And the Stanford Internet Observatory
11	is also something part of something called the
12	Virality Project, right?
13	A. I don't I've never heard of that
14	term.
15	Q. So V-I-R-A-L-I-T-Y, Virality Project,
16	does that ring a bell to you?
17	A. It does not.
18	Q. So you're not aware of the Surgeon
19	General's office being directly involved in
20	something called the Virality Project?
21	A. I am not.
22	Q. Now this in exhibit, you've got here,
23	includes the kind of cover page of the post on the
24	Stanford Internet Observatory with a YouTube video
25	of Dr. Murthy's public remarks. And then attached

**Page 208** 

1	to that is an audio transcription done by a court
2	reporter of excerpts from those remarks. Can you
3	see that if you scroll through?
4	A. I I can see that, yes.
5	Q. I want to skip ahead to page 5.
6	Dr. Murthy says in this kind of Stanford
7	MS. CHUZI: Counsel Counsel, I'm
8	sorry to interrupt. The document is not up on the
9	screen.
10	MR. SAUER: Oh, I'm sorry.
11	Q. (BY MR. SAUER) Can you see it now?
12	A. Yes. Thank you. May I have a moment
13	to read this page, sir?
14	Q. Sure. Actually, why don't you read
15	the next page, page 6.
16	A. Not this page, sir? Okay.
17	Q. Yeah. Do page 6.
18	A. Okay.
19	Q. See the sentence I've highlighted on
20	the shared screen where Dr. Murthy says: We're
21	asking technology companies to operate with greater
22	transparency and accountability so that
23	misinformation doesn't continue to poison our
24	sharing platforms, right?
25	A. Yes. I see that.

**Page 209** 

1	Q. So there's two words that repeated
2	here. One is accountable and the other is poison,
3	right?
4	A. Those are, yes, words we've discussed
5	before.
6	Q. Yeah. And so he's using those words
7	again in his second event announcing this. And I
8	take it you is that correct?
9	A. Correct.
10	Q. Yeah. He goes on to say: We know
11	the government can play an important role too.
12	Do you know what role of the
13	government he's referring to?
14	A. He, I think, highlights that bringing
15	stakeholders to together with urgency around a
16	common vision for a healthy information environment
17	as well as supporting community organizations that
18	are trying to get accurate information to the
19	community members. So I believe that's what he
20	means, that the government can help bring together
21	stakeholders, sort of what I would call the
22	convening power of a bully pulpit. So you're able
23	to bring parties together.
24	Q. So and those stakeholders, I assume,
25	would include social media platforms. Right?

**Page 210** 

1	T think that I a fair to think thereI we
1	A. I think that's fair to think they're
2	they are stakeholders that you would want to
3	bring together, yes.
4	Q. Yeah. And you'd want them to share
5	the urgency to have a common vision for healthy
6	information environment, right?
7	A. You would want all your stakeholders
8	to have that, yes.
9	Q. Let's turn ahead to page 9. Are you
10	there?
11	A. I am there, yes. Can I have a moment
12	to read this page, sir.
13	Q. Sure.
14	A. Great. Go ahead.
15	Q. In the middle of the page, Dr. Murthy
16	says: We know technology companies have a really
17	important role. They must step up and play to slow
18	the spread of misinformation on their sites where
19	that's by either sharing data with people and
20	researchers about what interventions they're making
21	and the impact that that's having, right?
22	A. That is what the sentence says,
23	correct.
24	Q. So he he provides an explanation
25	to kind of data sharing there. It's data sharing
	- -

**Page 211** 

1	that would allow researchers to assess what
2	information what interventions they're making
3	and the impact that they're having, right?
4	A. That is what the sentence says,
5	correct.
6	Q. So the purpose of the data sharing is
7	so that outside people come in and kind of assess
8	how well they're doing with their own internal
9	policies to combat the spread of misinformation,
10	right?
11	A. That's yes.
12	Q. And he also refers to changing
13	algorithms and making other alterations to identify
14	the misinformation early and slow it spread, right?
15	A. Correct. That's what he says.
16	Q. And he goes on to refer to that as
17	steps that all of us can take, right?
18	A. That's correct.
19	Q. By all of us, that includes social
20	media platforms, right?
21	A. Yeah. That's in keeping with his
22	all-of-society approach.
23	Q. Yeah. Skip ahead two pages to the
24	last page here. It's called page 11.
25	A. Great. Give me one moment, sir. I'm

**Page 212** 

1	ready.
2	Q. Okay. Here, toward the bottom of
3	page, if you look at ahead of page 10, it's
4	responding to a question by Renee DiResta, who we
5	talked about before, right?
6	A. Yes.
7	Q. Yeah. And what he says here at the
8	bottom of page 11 is: I'm optimistic we can make
9	progress in this area, and myself, my team, we're
10	committed to working with you, Renee, with others,
11	you know, who we've been, you know, partnered with
12	over the last many months. Do you see that?
13	A. I do.
14	Q. Were you aware that the Surgeon
15	General's office was partnered with Renee DiResta
16	and others over the last many months?
17	A. I I certainly know that Renee
18	DiResta would have been part of the planning
19	process for the launch event. So that's that
20	might be one of the definitions of partnership.
21	Q. Was she planning the launch event for
22	many months?
23	A. I don't know.
24	Q. This was July 15th of 2021. Surgeon
25	General Murthy had been Surgeon General since

**Page 213** 

1	T
1	January of 2021, correct?
2	A. I don't think so. I think he was
3	confirmed in February, but I'm not I don't think
4	he got confirmed in January. You may be correct.
5	I I don't recall the date of his confirmation.
6	Q. But in any event, something like
7	February to July, what partnership was there
8	between Renee DiResta and the Stanford Internet
9	Observatory and the Surgeon General's office for
10	those many months prior to July 15th 2021?
11	A. I don't know.
12	Q. So you don't know what he's referring
13	to about how they partnered with them over the last
14	many months?
15	A. I don't know. My guess would be that
16	Renee may have been one of the subject matter
17	experts consulted in the creation of the advisory,
18	but that's just an educated guess.
19	Q. So you don't know for sure whether
20	she had input in the advisory?
21	A. I do not.
22	MR. SAUER: That's a breaking point,
23	and I see it's 1:15 there. Do you want to take a
	and I see it's 1.13 there. Do you want to take a
24	lunch break now? I get a thumbs up from the

**Page 214** 

1	MS. CHUZI: That sounds great.
2	MR. SAUER: Okay. Let's do it.
3	THE VIDEOGRAPHER: I'm sorry. Did
4	you want to go off now or did you have one more?
5	MR. SAUER: Go off the record,
6	please.
7	THE VIDEOGRAPHER: Sorry. The time
8	is 12:19 p.m. We are off the record.
9	(A lunch break was taken.)
10	THE VIDEOGRAPHER: The time is 12:59
11	p.m. We are back on the record.
12	Q. (BY MR. SAUER) Mr. Waldo, I just
13	e-mailed your counsel Exhibits 14, 16, 17, 18, and
14	19. Those ought to hit the inbox soon. And I'd
15	like to pull up Exhibit 14 now and ask you to take
16	a look at it.
17	And you can see on the shared screen,
18	it's a New York Times article on July 16th, 2021
19	reporting on President Biden's comment about
20	Facebook quote, "They're killing people."
21	Do you see that in the headline,
22	"They're killing people"?
23	A. I do. I I see the headline.
24	Q. The part about this that I want to
25	ask you about is here on the second page, there's

**Page 215** 

- discussions in meetings between administration
- 2 officials and -- and -- and social media platforms
- 3 here on the second page of this article in the area
- 4 I've highlighted.
- 5 Do you see that? It's directly below
- 6 the picture of Surgeon General Murthy and Jen
- 7 Psaki. Do you see that highlighted text?
- 8 A. We're still waiting for the document
- 9 to come through over e-mail here. I can see it on
- 10 the screen, but I'd like an opportunity to review
- 11 the article.
- 12 Q. Do you want to start by looking at
- 13 this blue text that's highlighted --
- 14 A. Would you mind just scrolling up so I
- 15 can see the top of the article, sir?
- 16 Q. Yeah, sure.
- 17 A. Thank you very much. Can you stop
- 18 there, sir? Sorry. Can you scroll back up? Thank
- 19 you. Can you stop there, sir, please? I'll let
- 20 you know when you can scroll down. Sorry. Now I
- 21 have a copy of it in front of me, sir, so I'll go
- 22 ahead and take a look at that.
- Q. Okay. And again, I think that my
- 24 questions are going to relate to this blue
- 25 highlighted text here. I don't think it's

**Page 216** 

1	necessary for you to read the entire article. If
2	it seems like to you, you need to read the whole
3	article while I'm asking questions, I'm going to
4	ask you to let you (sic) know, but I'm going to go
5	ahead and ask questions. If you're going to read
6	the entirety of every single document
7	A. I I I'm trying to
8	Q. If I may finish.
9	A. Sir, I'm just
10	Q. If if I may finish my comment. If
11	you're going to read
12	A. Sorry, sir.
13	Q the entirety of every single
14	document I give you, that's going to take a long
15	time and we're going to ask to go extra time. I'm
16	going to have the videographer start timing the
17	amount of time you spend to review it. I think
18	this will go quicker if we just look at the area
19	I'm highlighting. If you think you need more
20	context, let me know when the question comes up.
21	I'm not asking you to read the entirety of every
22	single document that I hand you. Is that clear?
23	A. I understand that, sir. I'm just
24	trying to get a overall sense of the article. I'm
25	not trying to read the entire thing, sir.

**Page 217** 

1	Q. Okay.
2	A. I don't think I don't think that's
3	unreasonable.
4	Q. Right here on the second page, in the
5	blue highlighted text, there's a quote from Jen
6	Psaki where she says: We've raised for them in our
7	direct channels of which every administration has
8	always had with every social media platform.
9	Do you know what direct channels Jen
10	Psaki's referring to between are you aware of
11	direct channels between every administration and
12	every social media platform?
13	A. I do not know what she's referring
14	to, sir.
15	Q. Are you aware of direct channels of
16	communications between the Biden administration and
17	soc every social media platform?
18	A. I'm not familiar with what she's
19	referring to, sir.
20	Q. In the next paragraph, it says:
21	Since January, Senior White House officials,
22	including the Surgeon General, Dr. Vivek Murthy,
23	have been in talks with the social media company to
24	stop the spread of false stories about vaccination
25	side effects and other harms. Correct?

**Page 218** 

1	A. That's what the article says, sir,
2	yes.
3	Q. So the article reports on July 16th
4	of 2021 that since January of 2021, there have been
5	Senior White House officials, including the Surgeon
6	General, that have engaged in talks with social
7	media with with the social media company,
8	here, referring to Facebook, correct?
9	A. This is what the New York Times is
10	reporting, sir, yes.
11	Q. Are you aware of any meetings that
12	occurred between Surgeon General Murthy and
13	Facebook since January of 2021 to July of 2021?
14	A. Only the ones you and I have already
15	talked about, sir. So that you showed me the
16	the meeting between Andy Slavitt, Dr. Murthy, and
17	Nick Clegg that I recall that was in May.
18	That's the only one I'm familiar with before I
19	arrived.
20	Q. The only one you're familiar with is
21	that May 25th, 2021 introductory meeting between
22	Nick Clegg, Andy Slavitt, and Dr. Murthy, right?
23	A. Since January. We also discussed,
24	sir, the potential transition the transition
25	call. So I don't know when that would have

**Page 219** 

1	occurred, but that would have been sometime between
2	the election day November of 2020 and January 20th
3	of 2021.
4	Q. And would that have been called to
5	quote, stop the spread of false stories about
6	vaccination side effects and other harms?
7	A. I'm sorry.
8	Can you repeat the question?
9	Q. I'm just reading from how the New
10	York Times reporter describes those talks with
11	social media social media company, Facebook, to
12	stop the spread of false stories about vaccination
13	side effects and other harms. Is
14	A. I'm not I'm not familiar with
15	those calls before I started.
16	Q. Gotcha.
17	Does that accurately describe your
18	understanding of that introductory call between
19	Nick Clegg, Andy Slavitt, and Dr. Murthy on May
20	25th of 2021?
21	A. It does not.
22	Q. So you think if it's if this
23	reporting is accurate, it's talking about some
24	other meeting other than the May 25th, 2021
25	meeting, correct?

Page 220

1	A. If the report is accurate, that
2	that's a fair guess.
3	Q. Yeah. Next paragraph says: There's
4	been repeated requests from the White House, but
5	Facebook has not shared even basic data on how much
6	vaccine misinformation exists and if the company's
7	efforts to stop its spread are working. Correct?
8	A. That is you read that correctly.
9	Q. Are you aware of efforts or talks
10	involving Surgeon General Murthy prior to July 16th
11	of 2021 to request basic data on how much vaccine
12	misinformation exists and whether Facebook's
13	efforts to stop its spread are working?
14	MS. CHUZI: Objection. Compound.
15	THE WITNESS: Can you clarify the
16	question, sir?
17	Q. (BY MR. SAUER) Are you aware of any
18	of these talks that are described here in this
19	paragraph, talks where there were repeated requests
20	from the White House, but Facebook refused to share
21	even basic data on how much vaccine misinformation
22	exists and whether its efforts to stop its spread
23	are working?
24	A. Again, the only the only meeting
25	I'm aware of are the ones you've shown me, the May

**Page 221** 

1	Nick Clegg and then the one I already described to
2	you that we previously discussed, that happened
3	during transition. And I think we described that
4	that meeting, during the transition, as covering
5	that the reach understanding the research and
6	data side of the reach of health misinformation.
7	Q. Okay. So you're not aware of any
8	meetings between the beginning of the
9	administration in January 20th of 2021 and July
10	16th of 2021 that would match the description
11	provided in this New York Times article, right?
12	A. That's correct.
13	Q. There's a reference to CrowdTangle.
14	It says: When administration officials presented
15	data from CrowdTangle, a content-tracking tool
16	owned by Facebook, that showed vaccine
17	misinformation was soaring, Facebook officials
18	dismissed its accuracy, correct?
19	A. That is what the reporting in the New
20	York Times article says, correct.
21	Q. Are you aware of any meeting
22	regarding the Surgeon General staff where that was
23	discussed?
24	A. I am not aware.
25	Q. And then they go on to say: In

Page 222

1	another meeting with Dr. Murthy, officials at
2	Facebook noted that it had tried to get influencers
3	with big audiences to promote vaccination as an
4	apparent push against misinformation. Correct?
5	A. That is what the article reports,
6	correct.
7	Q. Do you know when that meeting
8	occurred with Dr. Murthy, where it
9	A. I don't
10	Q talked about using influencers to
11	promote vaccination?
12	A. I don't know if or when that meeting
13	occurred.
14	Q. And if this reporting is accurate, it
15	doesn't meet the description of any meeting that
16	we've talked about yet today, correct?
17	A. That's correct.
18	Q. And in particular, it doesn't meet
19	the description of the only meeting prior to July
20	16th, 2021, that was identified in the
21	interrogatory responses involving Dr. Murthy,
22	correct?
23	A. Correct.
24	Q. It goes on to say: The person
25	familiar with the sorry. It goes on to say: In

Page 223

1	that meeting, Dr. Murthy angrily said that while
2	the company promoted its efforts to encourage
3	vaccination, it did not do enough to defend against
4	bad information. Correct?
5	A. That is what the report in the New
6	York Times article says, correct.
7	Q. And are you aware of any meeting that
8	meets that description prior to
9	A. No, I
10	Q July 16th of 2021?
11	A. I am not.
12	Q. And certainly no such meeting was
13	disclosed in response to our interrogatories,
14	correct?
15	A. That is correct.
16	Q. Are you a do you recall Dr. Murthy
17	ever talking about getting angry with Facebook in a
18	meeting and angrily telling it that it doesn't do
19	enough to defend against bad information?
20	A. No, I have no recollection of
21	Dr. Murthy ever describing this. And frankly, I'm
22	doubtful that I don't I worked with
23	Dr. Murthy for over a year and a half and I've
24	never seen him get angry or even express anger,
25	frustration in in any way that would be

**Page 224** 

Fax: 314.644.1334

1 noticeable. So I'm -- I'm -- I'm skeptical of this reporting. 2 3 Okay. And then it goes on to say: Ο. 4 In one tense meeting in the late spring, according 5 to the person familiar with the matter, a Facebook 6 official responded defensively to Dr. Murthy, "How 7 do you know if your efforts are working?" Correct? 8 MS. CHUZI: Objection. 9 Mischaracterizes the evidence. 10 Q. (BY MR. SAUER) Is that what that 11 article says? 12 The ar- -- the -- the -- the Α. 13 line that you've read says: In one tense meeting 14 in the late spring, according to the person 15 familiar with the matter, a Facebook official 16 responded defensively, "How do you know if your efforts are working?" I don't know to whom they 17 said that. 18 19 Well, the immediately preceding Q. 20 sentence refers to one person, Dr. Murthy, right? 2.1 Another meeting with Dr. Murthy Α. 22 officials, yes, it does. 2.3 So are you aware of Dr. Murthy having Q. 24 a tense meeting in late spring with Facebook? 25 Α. I am not.

Page 225

1	Q. And that would be late spring of
2	2021, correct?
3	A. That is correct.
4	Q. And the Facebook official became
5	defensive in that meeting according to the
6	reporting?
7	A. That is what the New York Times
8	article reports.
9	Q. And again, that does not meet the
10	description of the May 25th, 2021 meeting disclosed
11	in the interrogatory responses, correct?
12	A. It does not. And also, I I I
13	just I think that in the rollout of the of
14	the advisory, I would have been informed about this
15	meeting in preparation to meet with Facebook
16	officials. So I I'm not familiar with it and
17	I'm not sure if it happened.
18	Q. Okay. So you don't know whether or
19	not it happened based on this reporting?
20	A. That's correct.
21	Q. Let's look at Exhibit 16. And again,
22	I I welcome you to familiarize yourself with it,
23	but I'm not asking you to read the whole thing.
24	A. Yep.
25	Q. You see here at the top can you

**Page 226** 

1	see on the screen share?
2	A. I can see on the screen share, yes.
3	Thank you.
4	Q. And here's a July 21st, 2021 e-mail
5	from Payton Iheme of Facebook to you and Kyla
6	Fullenwider, right?
7	A. That's correct.
8	Q. So this would have been five days
9	after that I think you described it as sad-faced
10	July 16th meeting with Facebook that was the
11	rollout meeting.
12	That happened after the rollout,
13	right?
14	A. I described that as Facebook's the
15	Facebook folks who were on the with the call had
16	sad faces, correct.
17	Q. Yeah. In the first paragraph here,
18	Payton says: Hi, Eric and Kyla. Thank you again
19	for reaching out and providing more context to the
20	ongoing discussions around the Surgeon General's
21	recent announcement. We wanted to follow up with
22	you on a few questions you asked in the meeting
23	focused on CrowdTangle, data on the online
24	interventions, and Facebook's borderline content
25	policies. Correct?

**Page 227** 

1	A. That is what the e-mail says,
2	correct.
3	Q. Is she referring to the July 16th
4	meeting in which you provided more context or was
5	there some other meeting between the 16th and the
6	21st?
7	A. It would have to be the meeting on
8	the 16th.
9	Q. Okay. And I think you testified
10	earlier that you couldn't remember specifically
11	what was discussed in this meeting. Does her
12	A. I I
13	Q. Go ahead.
14	A. I think I mentioned that I think Kyla
15	asked some questions about CrowdTangle.
16	Q. Yeah.
17	Does this help you remember what kind
18	of questions she asked? She says she she:
19	Facebook wants to follow up with you on a few
20	questions you asked focusing on CrowdTangle, data
21	on the online interventions, and Facebook's
22	borderline content policies.
23	A. I think it's a fair reading of this
24	e-mail that Kyla asked questions about CrowdTangle,
25	those interventions, and their their policies.

Page 228

1	Q. So on the CrowdTangle issue, she has
2	bullet points here that say things like: Can
3	confirm no plans to wind down or change the ability
4	of people that access CrowdTangle. A few months
5	ago, the team moved management of CrowdTangle from
6	the partnerships team.
7	Does that do these bullet points
8	jog your memory as to what Kyla asked about
9	CrowdTangle at all?
10	A. I think I'm trying to recall.
11	Kyla may have asked, you know, whether or not there
12	was people were being removed or the ability of
13	researchers to use CrowdTangle was being taken
14	away. So I think I think that may have been a
15	question she asked.
16	Q. Looking up above, the second thing
17	that she's following up with is data on the online
18	interventions.
19	Do you know what the online
20	interventions were that were discussed in the July
21	16th meeting with Facebook?
22	A. I do not.
23	Q. Does this ring a bell here where she
24	gives these bullet points where she talks about:
25	Interventions we have put into place during

Page 229

1	COVID-19, and it says: Some of which specifically
2	create friction in how people consume information?
3	A. I am reading these and I see that
4	those are clearly responses to what they're doing
5	to create friction. So that must have been in
6	response to a question Kyla asked.
7	Q. So did Ky do you remember Kyla
8	asking her what they were doing to increase
9	friction and how information shared?
10	A. I don't remember that. But I think
11	it's a fair reading of the e-mail to say she asked
12	that question.
13	Q. And their response includes:
14	WhatsApp forward limits. Cut highly-forwarded
15	messages by 70 percent. And then: Facebook
16	warning labels on fact-checked content and things
17	like that. Right?
18	A. Yes. You are reading the example
19	that Payton is providing.
20	Q. And then the last one is:
21	Informational labels on posts about COVID-19
22	vaccines and friction when someone goes to share
23	these posts on Facebook and Instagram. Correct?
24	A. That's correct. That's what the
25	Payton's reply says.

Page 230

1	
1	Q. Do you remember do you remember
2	Kyla asking about that? I take it these are all
3	ways to slow the spread of misinformation on
4	Facebook, friction and
5	A. I think you
6	Q. Yeah, go ahead.
7	A. No. I said I think you just asked
8	that and it this doesn't jog my recollection.
9	It's clear she asked a question about creating
10	friction and these are the responses that Payton
11	provided.
12	Q. Gotcha. And going up here, she
13	the third area to that Payton is addressing is
14	questions about Facebook's borderline content
15	policies.
16	Did either you or Kyla raise that
17	with them?
18	A. I don't recall, but I think it's fair
19	to guess that Kyla, who was driving the
20	conversation, likely raised that if they're
21	responding to it.
22	Q. What are borderline content policies?
23	A. What a great question. I'm not sure
24	that I know.
25	Q. Okay. But going down here where she
	<u></u>

**Page 231** 

1	
1	has a response, the the bottom third of this
2	first page where she has a sort of section
3	dedicated to COVID policies, and she says: We
4	remove COVID-19 content that contributes to the
5	risk of imminent physical harms, including numerous
6	false claims about the COVID-19 vaccine. Correct?
7	A. That is what the the e-mail
8	says, correct.
9	Q. Then she reports: We permanently ban
10	pages, groups, and accounts that repeatedly break
11	our rules on COVID-19 misinformation. Correct?
12	A. That is what the e-mail says,
13	correct.
14	Q. And then the third thing she reports
15	is that: We also reduce the reach of posts, pages,
16	groups, and accounts that share other false claims
17	that do not violate our policies but may present
18	misleading or sensationalized information about
19	COVID-19 and vaccines. Correct?
20	A. That is that is a accurate reading
21	of her e-mail.
22	Q. So what she understood that she was
23	being asked in the July 16 meeting about borderline
24	content policies was the removal of contents,
25	permanently banning of groups and pages, and the

Page 232

1	reducing of the reach of the posts, groups, and
2	pages that share misleading or sensationalized
3	content, correct?
4	A. That
5	MS. CHUZI: Objection. Calls for
6	speculation.
7	Q. (BY MR. SAUER) Correct?
8	A. I'm not I don't recall what Kyla
9	asked. The response indicates that it's about
10	COVID policies including removal, banning and
11	reducing the reach.
12	Q. So do you remember Kyla asking any
13	anything about content policies that would involve
14	removing posts, reducing the reach of potentially
15	harmful posts, and permanently or banning pages,
16	groups, and accounts?
17	A. I do not.
18	Q. So you you you you
19	don't remember specifically what was discussed
20	about that in the July 16th meeting?
21	A. I do not.
22	Q. Do you remember why or do you have
23	an understanding why Facebook thought it was
24	important or thought it was worth reporting back to
25	you and Kyla about removing posts, permanently

Page 233

1	banning pages, and reducing the the the reach
2	of posts, pages, and groups?
3	A. There was an e-mail from Payton, I
4	think to me and Kyla before the meeting, where she
5	was asking whether or not we wanted them to take
6	the steps articulated by Jen Psaki in the press
7	conference. Obviously, that's one of the things
8	that Ms. Psaki asked about in terms of the the
9	removal. So it's it's not impossible to assume
10	that she may have included this, not because Kyla
11	asked, but because it was something that had come
12	up in the press conference.
13	Q. Yes. Although, in the first as we
14	read before, in the first paragraph of this e-mail,
15	she says she's following up with you on a few
16	questions asked in the meeting, not at the press
17	conference; focused on CrowdTangle, and then she
18	talks about CrowdTangle; data on the online
19	interventions, and then she talks about the
20	interventions; and Facebook's borderline content
21	policies, and then she talks about those COVID
22	policies.
23	So she seems to be referring to
24	questions that were raised in the meeting with you
25	and Kyla on July 16th, correct?

Page 234

1	A. That that's a fair reading.
2	Q. Let's look at Exhibit 17. I'm going
3	to screen share. If you can pull it up on your
4	iPad. If you look at this e-mail chain involving
5	Nick Clegg, and Dr. Murthy, and eventually yourself
6	there at the top.
7	Do you remember this e-mail chain?
8	A. Yes.
9	Q. So if you go down to the second page,
10	there's starting on the first page, going to the
11	second page, the first e-mail is from Nick Clegg to
12	Dr. Murthy, copying Brian Rice, right?
13	A. That's correct. Brian Rice is copied
14	on this e-mail from Nick Clegg to Dr. Murthy.
15	Q. And Nick Clegg says: Dear Vivek,
16	reaching out after what has transpired over the
17	past few days following the publication of the
18	misinformation advisory and culminating today, and
19	the President's remarks about us.
20	This is July 16th, so I take it he's
21	referring to the "they're killing people comment,"
22	correct?
23	A. I don't know that's a fair
24	reading. I don't know what, in specific, Nick was
25	referring to, but that seems like a fair guess.

**Page 235** 

1	Q. Yeah. He goes next sentence, he
2	says: I know our teams met today. Right? And
3	this is July 16th.
4	A. Right.
5	Q. Is that a reference to the meeting
6	between you and Kyla and Payton and the other
7	Facebook representatives that had been intended to
8	be the rollout meeting, but was actually the post
9	announcing meeting, right?
10	A. Yes, that's correct.
11	Q. And Nick Clegg by the way, what's
12	Nick Clegg's title? Is he the senior government
13	affairs person at Facebook?
14	A. I don't actually know Nick's title.
15	Q. He used to be the Deputy Prime
16	Minister of the United Kingdom, right?
17	A. I believe that's correct.
18	Q. So in other words, he was like
19	that's like being vice president of the United
20	States for Britain, right?
21	A. You tell me.
22	Q. I don't know. He's the senior
23	former senior government official in United
24	Kingdom, now head of global affairs at Facebook.
25	Is that the guy we're talking about?

**Page 236** 

1	A. Sorry.
2	Can you repeat that? What's the
3	question?
4	Q. Never mind. Let me let me look at
5	this next sentence in the e-mail. He says: I know
6	our teams met today.
7	And I take it that's the meeting
8	between you and
9	A. Can you highlight the can you
10	highlight the text while you're doing that, sir?
11	You were doing that so well. Thank you. Okay.
12	Q. Yeah, here. Here you go.
13	A. Thank you.
14	Q. I know your teams met today to better
15	understand the scope of what the White House
16	expects from us on misinformation going forward.
17	Correct?
18	A. That is what Nick Clegg wrote in the
19	e-mail to Dr. Murthy, yes.
20	Q. Yeah.
21	Was that his under was that your
22	understanding that the meeting related to what the
23	White House expects from Facebook on misinformation
24	going forward?
25	A. No.

**Page 237** 

1	Q. Okay. You had a different under
2	how how did he do you know how he got that
3	understanding?
4	A. I do not.
5	Q. Is it possible that Payton Iheme and
6	the other Facebook participants in the July 16th
7	meeting got that impression when they met with you
8	and Kyla and were asked things about CrowdTangle
9	and borderline content policies and so forth?
10	A. Is it possible?
11	Q. Sure.
12	A. In the sense that anything is
13	possible, yes.
14	Q. At the conclusion of this e-mail, he
15	says: I would appreciate the opportunity to speak
16	directly and discuss a path forward with you.
17	Correct?
18	A. That is correct. That is what
19	Mr. Clegg wrote to Dr. Murthy.
20	Q. Did did Dr. Murthy respond to this
21	e-mail immediately, do you know?
22	A. I don't recall. I can't recall if
23	Dr. Murthy responded or if I ended up responding to
24	set up the meeting.
25	Q. So that that e-mail requesting the

Page 238

1	meeting from Dr from Nick Clegg was dated July
2	16th, right?
3	A. Yes, that's correct.
4	Q. And he's asking for another meeting
5	as well to the one you'd already had that day,
6	right?
7	A. That's correct.
8	Q. Yeah. And I'm putting on the screen
9	share, Exhibit 18, a text message from Nick Clegg
10	to Dr. Murthy dated July 18th of 2021.
11	Do you see that?
12	A. I do see that.
13	Q. So this is two days after the
14	after that July 16th e-mail, right?
15	A. That's correct.
16	Q. And he says: Hi, Vivek. You may
17	have seen this post today in which we which we
18	issued to provide more context. We do not plan to
19	issue more public posts, et cetera. I imagine you
20	and your team are feeling a little aggrieved, as is
21	the Facebook team. It's not great to be accused of
22	killing people. Correct?
23	A. That is you are correctly reading
24	the text from Nick, correct.
25	Q. Were you aware that Nick Clegg

**Page 239** 

followed up with Dr. Murthy by text message?  A. Dr. Murthy may have mentioned it. I  don't recall explicitly. I do recall discussing  that he had sent him the e-mail asking for time.  Q. And then, what what did what	
3 don't recall explicitly. I do recall discussing 4 that he had sent him the e-mail asking for time.	
4 that he had sent him the e-mail asking for time.	
5 Q. And then, what what did what	
· · · · · · · · · · · · · · · · · · ·	
6 did you guys decide about that? Or what did you	
7 discuss about the e-mail asking for time? Did you	
8 decide to meet with him?	
9 A. You I think, sir, we've discussed	
10 that meeting already in this deposition. But, yes	,
11 we we we determined that we would meet with	
12 with Nick. That's the deescalation call that I	
13 think you and I discussed earlier today.	
Q. Yeah. And fortuitously, the text	
15 message goes on to say that, right. But as I said	
16 by e-mail, I'm keen to kind find a way to	
17 deescalate and work collaboratively work	
18 together collaboratively. Right?	
19 A. That is what Nick wrote to	
20 Dr. Murthy.	
Q. So after he after Facebook felt	
singled out on the 15th and 16th at the press	
conference and the "they're killing people"	
comment, they were saying they were keen to	
25 deescalate and work together collaboratively,	

**Page 240** 

1	right?
2	A. Again, that is I agree with you
3	that that is what Nick wrote to Dr. Murthy.
4	Q. And did he say eventually a
5	meeting gets set up in response to these requests
6	by Nick Clegg, right?
7	A. Yes. I think we've we've already
8	talked about the the substance of this meeting.
9	Q. In fact, showing you on the screen
10	share, Exhibit 17, one we were looking at before.
11	On the 16th, Clegg e-mailed Dr. Murthy asking for a
12	meeting. But on the 18th, he texted the Surgeon
13	General and reiterated his request for a
14	(A discussion was held off the
15	record.)
16	Q. (BY MR. SAUER) On the 18th, he
17	texted to request a meeting to deescalate and work
18	collaboratively. And then it looks like on the
19	19th, Dr. Murthy responded to the e-mail and said
20	he'd be happy to speak directly about how we move
21	forward. Right?
22	A. Yes. He says: I'd be happy to speak
23	directly. Sorry, you scrolled up, so I can't
24	finish that sentence.
25	Q. Sorry.

**Page 241** 

1	A. But yep. He says: I'd be happy to
2	speak directly about how we move forward. Let me
3	know the best way to schedule time later this week
4	and we'll make it happen.
5	Q. Yeah. And that he looped in you
6	and Adam Beckman on that e-mail, correct?
7	A. Yes. Brian Rice, Adam Beckman, and
8	myself are CC'd from on that on that e-mail.
9	Q. And so, is this the meeting that got
10	scheduled for the 23rd, I mean, that you talked
11	about earlier?
12	A. Yes, this is the meeting with with
13	Nick, with me, with DJ, and Dr. Murthy that we've
14	already spoken about.
15	Q. Just refresh my memory because we've
16	talked about a lot of meetings. Generally
17	speaking, what was discussed at that meeting with
18	with Nick Clegg and did Brian Rice
19	participate?
20	A. I don't think Brian did. I think
21	when we talked about it last time, I don't recall.
22	Brian may have been. If he was there, he was in a
23	listening mode. I don't think he would have spoken
24	much. But Nick, myself, Dr. Murthy, and DJ were
25	there.

Page 242

1	So are you asking me the same
2	question you asked me before
3	Q. Yeah.
4	A about this meeting?
5	Q. Yeah. What was talked about in this
6	meeting?
7	A. I think we said that Dr. Murthy
8	the last time we asked this question, Dr. Murthy
9	asked Mr. Clegg about sort of the research
10	questions about understanding the the reach of
11	the data in terms the impact of the mis health
12	misinformation. And as we discussed before, the
13	last time you asked me this question, I think DJ
14	had some questions about also on the data side and
15	Nick offered to connect DJ with a data person from
16	Facebook. That's what we discussed the last time,
17	I believe, when you asked me this question about
18	what was discussed at this meeting.
19	Q. Okay. Let me pull up Exhibit 19.
20	Do you recall that e-mail chain,
21	starting here on July 23rd, from Nick Clegg to
22	Dr. Murthy that copies you?
23	A. Yes.
24	Q. He begins: Dear Vivek, if I may.
25	Correct?

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

Page 243

1	A. Yes. He says: Dear Vivek, if I may.
2	Q. And first thing he says is: Thanks
3	again for taking the time to meet earlier today.
4	Right? On the 23rd, right?
5	A. Yes. Nick sends the e-mail on
6	Friday, July 23rd and says: Dear Vivek, if I may,
7	thanks again for taking the time to meet earlier
8	today.
9	Q. And he talks about it being helpful
10	to take stock and to establish our next steps,
11	right?
12	A. That is what the e-mail from Nick to
13	Dr. Murthy says, with I'm CC'd, so were a few
14	other people from Facebook.
15	Q. And Dr Nick Clegg goes on to say:
16	We talked about the speed at which we are all
17	having to iterate as the pandemic progresses.
18	Right?
19	A. Yes, that Nick says: We talked
20	about the speed at which we are all having to
21	iterate as the pandemic progresses.
22	Q. Did you, in the meeting, talk about
23	the speed with which, you know, sort of problematic
24	posts are are are addressed or taken down?
25	Was that some of the speed that was talked about in

Page 244

1	the meeting?
2	A. I don't really recall, but I have no
3	reason to think that Nick is lying here. So
4	presumably, that came up.
5	Q. And he says: I wanted to make sure
6	you saw the steps we took just this past week to
7	adjust policies on what we are removing with
8	respect to misinformation. Right?
9	A. Yes. He says: I want to make sure
10	you saw the steps we took just this past week to
11	adjust policies on what we are removing with
12	respect to misinformation as well as steps taken to
13	further address the Disinfo Dozen.
14	Q. So just this past week we're on
15	July 23rd here July 16th was the day of the
16	President's comment, "They're killing people," and
17	July 15th was the health advisory, right?
18	A. Those those dates are correct,
19	yes.
20	Q. Yeah. So just this past week are
21	steps Facebook has taken since they were called out
22	in the press conference and in the President's
23	comments to adjust policy.
24	So they've changed their policies,
25	right?
I	

**Page 245** 

1	A. I'm not sure whether they adjusted.
2	They're saying that they took additional steps here
3	is what I read that to say.
4	Q. Yeah.
5	A. I guess, yeah. They say we we
6	we yeah, they say: We adjust policies. Yeah,
7	that's what they're saying they did.
8	Q. Yeah. So they're reporting that
9	they've they're taking they've changed their
10	policies to remove disinformation and they've taken
11	steps to further address the Disinfo Dozen, right?
12	A. That they are that they are taking
13	they removed 17 additional pages, groups, and
14	Instagram accounts tied to the Disinfo Dozen.
15	Q. So they
16	A. Again, those are those are Ins
17	just to be clear, he's talking about Instagram
18	accounts, which is different than Facebook. Just
19	for clarity for you and me.
20	Q. Okay. But he said they've taken down
21	17 additional pages, groups, and Instagram accounts
22	tied to the Disinfo Dozen.
23	So a total of 39 profiles, pages,
24	groups, and IG accounts deleted thus far, right?
25	A. Yeah, that is what the e-mail from

**Page 246** 

1	Nick says to Dr. Murthy.
2	Q. And these are steps taken in just the
3	past week, right, the removal of 17 pages, groups,
4	and Instagram accounts, right?
5	A. That is what Nick says to Dr. Murthy,
6	yes.
7	Q. And he also says: We are also
8	continuing to make four other pages and profiles
9	which have not yet met the removal thresholds more
10	difficult to find than our platform. Correct?
11	A. Yes, that is what Nick says.
12	Q. And then he also says: In the past
13	week, they've expanded the group of false claims
14	that we remove to keep up with recent trends and
15	misinformation that we're seeing. Right?
16	A. Yes.
17	Q. And then immediately after that, he
18	says: We hear your call for us to do more. Right?
19	A. Yes, that what he he wrote to
20	Dr. Murthy.
21	Q. And that's actually a fair
22	description of what the health advisory does, it
23	calls for Facebook and other social media platforms
24	to do more, right?
25	A. Yes. It calls up for an all-society

Page 247

1	approach, for everyone to do more.
2	Q. Including social media platforms,
3	correct?
4	A. Absolutely, yes.
5	Q. And and after the July 23rd
6	meeting, the call to do more included removing
7	specific pages and accounts associated with the
8	Disinfo Dozen, correct?
9	A. I don't think that's what the
10	that's not what Dr. Murthy asked for. That's what
11	they're saying they did.
12	Q. And that's what Jen Psaki asked for,
13	in fact, right, in the press conference; fair to
14	say?
15	A. I'd have to go back and look at
16	precisely what Ms. Psaki said, but she certainly
17	described the the pro problematic nature of
18	the Disinformation Dozen. But I don't I don't
19	recall. You may be correct, but I don't recall
20	whether or not she explicitly called for their
21	removal.
22	Q. And after the the July 23rd
23	meeting, Nick Clegg thought it important enough to
24	raise as to you that they adjusted policies to
25	to remove disinformation and took specific actions

**Page 248** 

1	against 17 pages, groups, and Instagram accounts
2	associated with the Disinformation Dozen, correct?
3	MS. CHUZI: Objection. Calls for
4	speculation.
5	Q. (BY MR. SAUER) That's what he
6	reported back hours after that meeting, right?
7	A. Can you repeat the question, sir?
8	Q. Well, it seems to me that hours after
9	this July 16th meeting, Nick Clegg e-mails you, and
10	Dr. Murthy and others, and reports back a couple
11	things. First, he reports back that they've
12	changed their policies with respect to what they're
13	removing of disinformation, which includes
14	expanding the group of false claims that we remove
15	to keep up with recent trends of misinformation,
16	correct?
17	A. No. In your question, sir, you said
18	that hours after the July 16th meeting
19	Q. No, sir.
20	A Mr. Clegg reported these policy
21	changes. That's not correct.
22	Q. I meant hours after the July 23rd
23	meeting. You're right.
24	A. Yeah, that yes, after a week
25	after the issuance of more than a week after the

**Page 249** 

1	issuance of the advisory and, yes, hours after the
2	meeting, Mr. Clegg reported on what Facebook was
3	doing.
4	Q. And what they had done in the week
5	between the advisory and July 23rd meeting, right?
6	A. I that's what he's that is how
7	Mr. Clegg is representing that, yes.
8	Q. And those steps include "adjusting
9	policies and what we're removing with respect to
10	misinformation," correct?
11	A. That is what Mr. Clegg is is is
12	reporting, yes.
13	Q. Yeah.
14	And taking specific actions against
15	
	accounts tied to the Disinformation Dozen, correct?
16	A. That that is what Mr. Clegg is
16	A. That that is what Mr. Clegg is
16 17	A. That that is what Mr. Clegg is reporting to Dr. Murthy, yes.
16 17 18	A. That that is what Mr. Clegg is reporting to Dr. Murthy, yes.  Q. And then also expanding the group of
16 17 18 19	A. That that is what Mr. Clegg is reporting to Dr. Murthy, yes.  Q. And then also expanding the group of false claims that they remove as misinformation,
16 17 18 19 20	A. That that is what Mr. Clegg is reporting to Dr. Murthy, yes.  Q. And then also expanding the group of false claims that they remove as misinformation, correct? Down there in the bottom.
16 17 18 19 20 21	A. That that is what Mr. Clegg is reporting to Dr. Murthy, yes.  Q. And then also expanding the group of false claims that they remove as misinformation, correct? Down there in the bottom.  A. Yes, that is what yeah, I see it.
16 17 18 19 20 21 22	A. That that is what Mr. Clegg is reporting to Dr. Murthy, yes.  Q. And then also expanding the group of false claims that they remove as misinformation, correct? Down there in the bottom.  A. Yes, that is what yeah, I see it. Thank you, sir. This is what Mr. Clegg is

Page 250

1	upon in the July 23rd meeting that involved
2	Dr. Murthy and Nick Clegg?
3	A. I do not.
4	Q. So you you don't know why
5	Mr. Clegg thought it appropriate to report back
6	shortly after the meeting with those changes that
7	they'd made in the last week since the health
8	advisory came out?
9	A. I don't it didn't my
10	recollection is that was not raised on that call.
11	I think my guess, as we've discussed previously,
12	is that them perhaps viewing, much like Payton did
13	in her first e-mail to us after before our
14	meeting, viewing Ms. Psaki's remarks as as as
15	in in line with what Dr. Murthy was asking for.
16	Q. So they viewed Ms. Psaki's remarks at
17	the joint press conference she held with
18	Dr. Murthy, as the spokesperson for the President,
19	as in line with what the Surgeon General of the
20	United States wanted?
21	A. That's my that would be my guess,
22	but that's it wasn't because we asked for it and
23	that calls my recollection.
24	Q. All right. He goes on to say: We
25	hear your call to do more for us to do more.

Page 251

1	Right?
2	And I think we said we said a moment
3	ago, that's a pretty fair description of the health
4	advisory, right, a call for Facebook and others to
5	do more, right?
6	A. Yes. I think, as we've established,
7	the advisory and the and the remarks, and the
8	event with the Stanford Internet Observatory,
9	Dr. Murthy is calling on for an all-society
10	approach, including social media companies to do
11	more to address the problem of health mis- and
12	disinformation during the height of a historic
13	pandemic costing American lives that can be saved.
14	Q. And in particular, the one of the
15	things to do more is, he goes on to say: We will
16	reach out directly to DJ to schedule a deeper dive
17	on how to best measure COVID-related content.
18	Right?
19	A. Yes. And I believe you and I
20	discussed this before that they were going to
21	connect us they were going to have us do a
22	connection with DJ and a data person from Facebook
23	to better understand that question.
24	Q. Was was anyone from the Office of
25	Surgeon General involved in that communication

**Page 252** 

1	between DJ and the Facebook communication person?
2	A. When you say "communication," do you
3	mean, like, the actual call or setting up the call?
4	Or how do you mean, sir?
5	Q. Either.
6	Was there any involvement in the
7	Office of Surgeon General and further
8	communications between DJ Patil and Facebook?
9	A. I think Brian Rice sent a follow-up
10	e-mail where I looped him with I think Facebook
11	reached out to DJ; I don't think they heard from
12	him. Brain reached out to me and I think I looped
13	him with DJ. And so, I I don't know whether or
14	not that loop got closed. I don't know whether DJ
15	met with the data person or not, but I know I was
16	I did try to help Brian connect with DJ
17	Q. Were
18	A or make the connection between
19	Facebook and DJ.
20	Q. Were you involved in any discussions
21	of, you know, the kind of substance of that issue
22	between DJ and anyone at Facebook?
23	A. I was not.
24	Q. So you tried to make the connection,
25	but you weren't there when they talked about the

**Page 253** 

that they did talk. I did try to help connect them. But I was not if there was a call, I was not there.  Q. On the next page, Nick Clegg goes on to say: You have identified four specific recommendations for improvement and we want to make sure to keep you informed on our work on each one.  Correct?  A. That is what Nick is writing in his e-mail to Dr. Murthy, correct.  Q. You remember a a a  discussion of four specific recommendations for improvement in this call or elsewhere?  A. I do not.  Q. So you don't know what he's referring to when he says to Dr. Murthy that he's identified four specific recommendations for improvement?  A. I'm not certain. It could be the the four I I don't know if there's more than four bullets in the advisory. Yeah, or it could be I'm not sure if it if it come from the Ms. Psaki's comments. I don't know what the four are.	1	merits, if they ever did?
them. But I was not if there was a call, I was not there.  Q. Page 254

1	Q. He talks about trying to schedule a
2	regular cadence of meetings with your team so they
3	can update you on their progress on these
4	misinformation issues, correct?
5	A. Yes. Mr. Clegg asked for a regular
6	cadence of meetings.
7	Q. I think you testified earlier that
8	you guys decided not to do that because you didn't
9	think they were making good progress?
10	A. I believe I testified that I didn't
11	think they would be worth our time given our
12	competing priorities.
13	Q. Is a holiday in Spain a consummation
14	devoutly to be wished?
15	A. Are you a Shakespeare fan, sir?
16	
17	Q. Yes.  A. So so you may know Hamlet
18	soliloguy talks about a consummation devoutly to be
19	wished. So I'm making a pun and a reference about
20	him vacationing in Spain and that it's a
21	consummation devoutly to be wished.
22	Q. I think Hamlet was talking about
23	death, so
24	A. He was, but Spain sounds much better.
25	Q. I agree. Let me share Exhibit 21

Page 255

1	with you. Oh, you know what, I don't think I've
2	sent this to your lawyer yet because they wouldn't
3	all fit on one e-mail.
4	MR. SAUER: Amanda, I'm sending you
5	Exhibits 21, 22, 24, 25, and 27 by the next e-mail.
6	and while that's coming, I'll try and pull it up on
7	the on the shared screen.
8	Q. (BY MR. SAUER) This e-mail chain,
9	that involves Brian Rice, as well as Payton and
10	Nick Clegg.
11	A. Yes.
12	Q. So I think you testified, just a
13	minute ago, that you were involved in trying to
14	loop in DJ Patil to connect with Facebook, right?
15	A. Yes.
16	Q. You mentioned you're using his G-mail
17	account. Do you know why?
18	A. I just didn't I wasn't sure when
19	Mr. Patil's special government employee status was
20	coming to an end, so I wasn't sure whether or not
21	he was how regularly he was checking his
22	osdp.gov e-mail. So if he was missing one, I
23	wanted to just make sure he knew that Brian was
24	trying to get in touch with him.
25	Q. Here, this is August 6th, right? So

**Page 256** 

1	this is, you know, a little less than two weeks
2	after that July 23rd call, right?
3	A. Correct.
4	Q. Yeah. And in this, you say: Also
5	Brian and Nick.
6	That's Brian Rice and Nick Clegg,
7	right?
8	A. Yes.
9	Q. It says: I know on the call with
10	Dr. Murthy, he mentioned seeing if you were able to
11	send an update of any new additional steps you are
12	taking with respect to health misinformation in
13	light of the advisory. Right?
14	A. Yes.
15	Q. Do you remember Dr. Murthy as
16	asking for that in the July 23rd call?
17	A. I think I already mentioned this
18	earlier in the discussion of the call, in one of
19	our earlier conversations during the deposition,
20	that we asked for an update. I didn't recall if I
21	asked for it or Dr. Murthy. But it appears that
22	based on this recollection, Dr. Murthy perhaps
23	asked for it.
24	Q. So Dr. Murthy asked Nick Clegg to
25	give an update on any new slash additional steps

**Page 257** 

1	they were taking with respect to health
2	misinformation in light of the advisory, correct?
3	A. Yeah. That I don't recall per se.
4	But if that's what I wrote down, then I have no
5	reason not to believe myself.
6	Q. And you went on to say: We are
7	asking all platforms for this type of update.
8	Right?
9	A. Yes, that's what I wrote there.
10	Q. Did you, in fact, ask other platforms
11	for that type of update? Say, hey, you've seen our
12	health advisory, can you tell us what new or
13	additional steps you're taking in light of it, with
14	respect to misinformation?
15	A. I believe so, but I don't recall per
16	se.
17	Q. Do you know if you sent a request
18	like that to Twitter?
19	A. I probably did, if I said I did. But
20	I don't recall.
21	Q. And how about YouTube/Google?
22	A. Same same answer.
23	Q. When you said "all platforms," did
24	you send a request like that to any other
25	platforms?

**Page 258** 

1 A. I think I meant	the folks who we had
2 talked to in the rollout of t	his report. So who
3 I guess who we were viewing a	s the the most
4 impacted stakeholders.	
5 Q. Who was that? P	latforms.
6 A. Again, the group	s you and I have
7 already talked about. So Fac	ebook, Twitter. So
8 Facebook, Twitter, Instagram,	and YouTube, and
9 Google.	
10 Q. How about Linked	In?
11 A. I think as we di	scussed previously,
12 we did not reach out to Linke	dIn.
13 Q. Or Reddit?	
14 A. As discussed and	answered previously,
15 we did not reach out to Reddi	t.
16 Q. Did Facebook pro	vide an update?
17 A. I think that the	y did. I don't
18 recall whether it was Brian w	ho sent it or Nick,
19 but I think Brian sent us som	ething.
Q. And you said: W	ould you be able to
21 send something over within tw	o weeks. Correct?
22 A. Yes, that's what	my e-mail to Brian
23 says or to Brian, DJ, Payt	on, and Nick.
Q. And then I think	Brian copied you
25 later, trying to connect to D	J about that data

Page 259

1	sharing issue, right?
2	A. Yes. It appears that that e-mail's
3	from the 17th from Brian reaching out to DJ, and
4	I'm CC'd, yes.
5	Q. But you don't recall being involved
6	in the follow-up conversations between DJ, or
7	Brian, or anyone else at Facebook about that,
8	correct?
9	A. That's that's correct, as I
10	answered the last time that you asked me this
11	question. I don't know if that call ever happened.
12	And if it did, I certainly wasn't part of it.
13	Q. And then in the e-mail in between
14	I skipped over this Brian said: Our teams have
15	been working on additional steps. We will have
16	something back to you within two weeks outlining
17	our approach. Right?
18	A. That is what that Brian writes to DJ,
19	correct.
20	Q. Or to Eric.
21	That's you, right?
22	A. But I think he's addressing DJ in
23	that sentence. He says: DJ, let me know when best
24	would work on your end. Our teams have been
25	working on additional steps. We will have

**Page 260** 

1	something to you to within the next two weeks
2	outlining our approach.
3	Q. Right.
4	A. I I I view that as
5	outlining the approach for DJ, but maybe not.
6	Q. Well, you were the one who just sent
7	an e-mail saying: Would you be able to send
8	something over in two weeks? And maybe it's a
9	addressing both of you: We'll have something back
10	to you in two weeks outlining our approach for
11	additional steps. Right?
12	A. Yeah, it's possible. Yeah.
13	Q. Okay. Let's look at Exhibit 22.
14	Should be in your counsel's inbox. I'll put it on
15	the screen share. Here on July 21st, so this is
16	about five days after the "they're killing people"
17	comment, there's an e-mail from Rob Flaherty to
18	Dr. Murthy, CC'ing Alexandria Phillips, who I think
19	is Dr. Murthy's communications person, right?
20	A. Yes, Alexandria Phillips is
21	Dr. Murthy's communications director.
22	Q. Yeah. And then he copies a Jiore
23	Craig at gmail.com, right?
24	A. It's pronounced Jiore.
25	Q. Jiore?

**Page 261** 

1	A. Yes, like like rhymes with
2	Dory.
3	Q. Gotcha. Not Nemo.
4	So Jiore Craig and says to
5	Dr. Murthy: Wanted to link you with Jiore Craig,
6	who's been a critical leader on the DNC's misinfo
7	work for a long time. Right?
8	A. Yes, that's the e-mail that Rob has
9	written to Dr. Murthy.
10	Q. And Rob is the digital director in
11	the White House, right?
12	A. I believe that's his title.
13	Q. And I think we talked earlier about
14	your communications with him.
15	And do you know what misinfo work
16	Jiore Craig does for the DNC?
17	A. I'm not certain. My guess would be
18	maybe around voter suppression or sort of the
19	disinformation that sometimes is shared with voters
20	to discourage them from voting.
21	Q. And the DNC's the Democratic National
22	Committee, right?
23	A. That's what I would assume.
24	Q. Yeah. And it says, she's, quote,
25	also been helping us think through mis slash dis on

**Page 262** 

1	the COVID side. Right?
2	A. Yes, that's what Rob's e-mail says to
3	Dr. Murthy.
4	Q. Yeah. So he wanted he says: I
5	thought it would be great for both of you to
6	connect as OSG charts out next steps. Right?
7	A. Yes, that's what Rob has written to
8	Dr. Murthy.
9	Q. Yeah.
10	Do you know why Rob Flaherty thought
11	it would help for the Office of Surgeon General to
12	be talking to Jiore Craig about COVID-19
13	misinformation?
14	A. It appears, based on his e-mail, that
15	he's indicating that she is a subject matter expert
16	on mis- and disinformation.
17	Q. What is her subject matter expertise,
18	do you know?
19	A. I'm not positive, but his indication
20	is that one of those areas is mis- and
21	disinformation.
22	Q. With respect to COVID in particular?
23	A. I think it may be multipronged, but I
24	think it includes COVID.
25	Q. And it says: She's been helping us

**Page 263** 

1	think through mis/dis on the COVID side.
2	Are you do you know what she was
3	doing to help Rob Flaherty in the White House think
4	through mis- and disinformation on the COVID side?
5	A. I do not.
6	Q. Were there follow-up communications
7	between the Office of Surgeon General and Jiore
8	Craig?
9	A. Yes. I set up a call with her.
10	Q. What was the end I think that's in
11	the first page here. Is this the calendar invite
12	for that call
13	A. Yes.
14	Q. Eric Waldo and Jiore connect?
15	A. Yes.
16	Q. You had a call with her on the 22nd
17	of July, the next day?
18	A. That's what it looks like, yes.
19	Q. And did was Kyla on that call? It
20	says she's an optional participant, correct?
21	A. I don't recall whether Kyla joined or
22	not. She may have.
23	Q. What about Alexandria Phillips?
24	She's on the invite, too.
25	A. My very strong guess is Alex did not

**Page 264** 

- 1 join because she was pretty understaffed at that
- 2 moment and was usually in multiple meetings at one
- 3 time.
- 4 Q. What did you guys talk about in this
- 5 call, you and Jiore?
- A. I think it was more of a courtesy,
- 7 getting-to-know-you call. So Rob had sent the note
- 8 to Dr. Murthy. I was doing the call in lieu of
- 9 Dr. Murthy, so I was just really trying to meet
- 10 her, learn what her -- what her views were and if
- 11 there was anything she thought we should be
- 12 thinking about.
- 13 Q. What did she say you should be
- 14 thinking about, if anything?
- 15 A. I think she was, in some ways, just
- 16 another person saying I'm glad you guys are working
- 17 on this. And, you know, I don't think she thought
- 18 we were going to get much movement from technology
- 19 or -- or social media companies, but that we were
- 20 doing the right thing and asking for it.
- Q. Did she say anything other than that
- on the call? Do you remember anything specific
- 23 that she said?
- A. Not to my recollection.
- Q. Did you ask her anything on the call?

**Page 265** 

1	Did you ask her how she could be helpful to the
2	Surgeon General's office in combating
3	misinformation?
4	A. Not to my recollection.
5	Q. Do you remember what you said on the
6	call?
7	A. I think I wanted to learn more about
8	her career path and what got her into that line of
9	work and, you know, what she was working on.
10	Q. Was there an understanding that she
11	might be considered to be a subject matter expert
12	for the Surgeon General's office?
13	A. Sorry. How do you mean, sir?
14	Q. Well, let me ask you this.
15	Did did anything come of this
16	call? Did she go on to have any role in advising
17	the Surgeon General's office on COVID
18	misinformation?
19	A. She did not.
20	Q. And why was that, did you not
21	recommend it? Or, you know, what happened after
22	the call?
23	A. Well, I think she seemed like a very
24	competent person. I think the reality was that our
25	office had subject matter expertise already and was

**Page 266** 

Fax: 314.644.1334

1 still determining what the course of action would be for any follow-up we were going to do after the 2 3 launch. So I don't think we had a role or a proper 4 way to include her other than, you know, just a 5 person -- a -- a public-facing citizen who clearly was interested in our work and a courtesy call to 6 7 -- for -- to a colleague. Q. Did you ask her in the call what she 9 had done to advise the White House to help them 10 think through COVID misinformation? 11 Α. I did not. 12 Do you have any understanding of what Q. 13 her role may have been in coordinating with the 14 White House on that issue? 15 I do not. Α. 16 Exhibit 23. Q. 17 MS. CHUZI: Counsel, I don't think I 18 have 23. I have 21, 22 --19 MR. SAUER: I'm sorry. I'm sorry. 20 meant -- I meant Exhibit 24. Here. 2.1 MS. CHUZI: Oh. Got it. 2.2 MR. SAUER: I skipped 23. So here's 2.3 24. My bad. 24 (BY MR. SAUER) Do you remember Brian Q. 25 Rice sending you this e-mail on August 18th?

**Page 267** 

1	A. I do not.
2	Q. Here, if you look at the the
3	the e-mail that he sent to you and DJ Patil on
4	August 18th, he he's captioned it Disinfo Dozen
5	Post, right?
6	A. That's correct.
7	Q. And it says: Eric and DJ, flagging
8	this post for you and for Surgeon General Murthy.
9	This detail details how we are approaching
10	content from the Disinfo Dozen. Correct?
11	A. Yes, that's correct.
12	Q. And then there's a following post
13	that talks about I think Facebook disputes
14	the Disinfo Dozen are actually responsible for as
15	much misinformation spreading as the CCDH thing.
16	Is that correct?
17	A. Sorry. Can you repeat that, sir?
18	Q. Well, let me ask you this. In the
19	second paragraph of the post, it talks about: Any
20	amount of COVID-19 misinformation violates our
21	policies is too much by our standards. And we have
22	removed over three dozen pages, groups, Facebook or
23	Instagram accounts linked to these 12 people.
24	Right?
25	A. Yes. The first sentence says that.

**Page 268** 

1	Said: Any amount of COVID-19 that violates our
2	policies is too much by our standards. And we've
3	removed over three dozen pages, groups, and
4	Facebook or Instagram accounts linked to these 12
5	people, including at least one linked to each of
6	the 12 people for violating our policies. And then
7	it goes on to describe other things.
8	Q. About imposing penalties on two
9	nearly two dozen additional pages, groups, or
10	accounts linked to these 12 people, right?
11	A. Yes.
12	Q. So this is the kind of second report
13	that Facebook has sent you guys after that July
14	23rd meeting where they're reporting back about
15	actions taken against the Disinfo Dozen, correct?
16	A. That's correct.
17	Q. So there was a Nick Clegg e-mail at
18	7:30 p.m. on July 23rd where he reported back the
19	steps they'd taken that included moving against
20	many Disinfo Dozen accounts, correct?
21	A. That's correct.
22	Q. And then again, on August 18th,
23	there's a report back with further adverse actions
24	taken to remove content and and pages and groups
25	associated with the Disinfo Dozen, correct?

**Page 269** 

1	A. If you're referring to this e-mail.
2	Q. Correct. Yeah. Right?
3	A. Yes.
4	Q. Yeah. Okay. And you you just
5	responded: Thank you, Brian. Appreciate you
6	sharing this. Right?
7	A. That is my response to Brian,
8	correct.
9	Q. Does this e-mail jog your memory as
10	to any further discussions with Facebook from the
11	Surgeon General's office about the Disinfo Dozen?
12	A. There were no further conversations
13	with Facebook regarding the the Disinfo Dozen
14	between Facebook and the Surgeon General's office
15	to my recollection.
16	Q. Yeah.
17	Were were the Disinfo Dozen raised
18	at all in the July 23rd call?
19	A. Not to my memory.
20	Q. Exhibit 25.
21	Do do you see it?
22	A. I see that you have it up, and now
23	gov government counsel is providing me with it
24	as well.
25	Q. In the middle of this e-mail, there's

Page 270

1	or the the the first e-mail here,
2	chronologically, about halfway down the first page,
3	is an e-mail from Nick Clegg to you, Dr. Murthy,
4	and DJ, and Brian Rice, correct?
5	A. Yes.
6	Q. And this was sent on August 20th of
7	2021, correct?
8	A. That's correct.
9	Q. So this is two weeks exactly after
10	your August 6th e-mail where you you asked them
11	for an update within two weeks as the actions they
12	took in light of the health advisory, correct?
13	A. That's correct.
14	Q. And, in fact, Nick Clegg says, you
15	know: Dear Surgeon General, you asked for an
16	update on existing and new steps that Facebook is
17	taking. Right?
18	A. Yes, that's what that e-mail says.
19	Q. So this is, I guess, the report back
20	to your request for a a request for report in
21	two weeks related to actions they took in respect
22	to the advisory, right?
23	A. That's correct.
24	Q. And one of the things, in the next
25	paragraph, that Nick Clegg talks about is he

Page 271

1	talks about several things, but one is further
2	policy work to enable stronger action against
3	persistence distributors of vaccine information,
4	correct?
5	A. Sorry. Can you go a little earlier
6	in that paragraph just so I understand what he's
7	referring to? Those prior all right. (Reading
8	in sotto voce.) Okay.
9	Q. So he says
10	A. Yes, got it.
11	Q. Yeah. Further
12	A. Yep.
13	Q policy work to enable stronger
14	action against persistence distributors of vaccine
15	misinformation, right?
16	A. That's correct.
17	Q. He talks about boost the access to
18	authorative information and other things as well,
19	right?
20	A. Sorry, where? What what's I
21	I I don't think you're lying to me, I just want
22	to know where where you're seeing that.
23	Q. Let me make it bigger.
24	A. Yeah, thank you. That's very
25	helpful.

**Page 272** 

1	Q. Yeah. Sorry. Boosting access to
2	authoritative information
3	A. Yeah, I see that. Thank you, sir.
4	Q. There's two pieces to this report;
5	one is elevating access to better information,
6	right? That's one thing he talks about with some
7	bullet points, right?
8	A. Yeah, that's a section that he's
9	lined out in in bold.
10	Q. Yeah. And then limiting potentially
11	harmful information is the second section in bold
12	on the next page, right?
13	A. Yes. And I believe there's a third
14	section as well on increasing transparency.
15	Q. Yeah. And I take it, that was a bit
16	of a sticking point in your discussions with them,
17	right, increasing transparency?
18	A. I think that's that's fair.
19	Q. In other words, the the perception
20	of the Surgeon General's office is they weren't
21	really taking meaningful steps to increase
22	transparency, right?
23	A. I think we I don't I don't
24	think we we few we thought that they would
25	make make many moves in that direction, correct.

**Page 273** 

1	O Yosh And then going book up whom
2	Q. Yeah. And then going back up where
	it talks about limiting potentially harmful
3	information, he says: We continue to improve and
4	refine measures that reduce the spread of
5	potentially harmful content and limit the
6	distribution of actors who share misleading
7	information about COVID and the vaccine. Correct?
8	A. Yes, that's what the document says.
9	Q. And he's got about nine bullet points
10	on that, right?
11	A. I think it's five. One of I
12	consider those other sub bullets possibly, or he's
13	just bad at formatting, but I don't know if he
14	thinks that the that the the the
15	the ones that are not filled in or or I think
16	those might be sub bullets. But yeah, I I I
17	don't not not a dispute of of of merit.
18	Q. Those are five bullets and the first
19	bullet has four sub bullets, right?
20	A. Three sub bullets, yes.
21	Q. I see four.
22	A. One, two, three oh, you're right.
23	Thank you so much.
24	Q. First one is: We will shortly be
25	expanding our COVID policies to further reduce the

**Page 274** 

1	spread of potentially harmful content on our
2	platform and these changes will apply across
3	Facebook and Instagram. Right?
4	A. Yes, that's what the e-mail says.
5	Q. So he's reporting back with new
6	policy changes, in addition to the ones he already
7	reported to you in the e-mail on July 23rd, that
8	
	will reduce content misinformation content about
9	COVID, right?
10	A. The only thing I'll say to that
11	question is I you know, I don't have both of
12	them in front of me to compare and say whether or
13	not there was some overlap. I don't know if they
14	were if some of the things he reported in that
15	first e-mail are also captured here.
16	Q. Suffice to say
17	A. So I'm not sure
18	Q. Go ahead.
19	A. I'm not sure I I'm not
20	sure how much of this is, like, new and in addition
21	versus, in some ways, a re recapture of what
22	they've shared.
23	Q. But it's being presented here as new
24	changes, right? He says: We continue to improve
25	and refine measures. Right?

**Page 275** 

1	A. Yes. Yeah.	
2	Q. And those measures	
3	A. I'm just saying I don't know how	
4	accurate that is.	
5	Q. Right. Right. Yeah.	
6	But this is what he's reporting to	<b>)</b>
7	you guys, right?	
8	A. Correct.	
9	Q. And new measures include increasing	ıg
10	the strength of dem demotions for COVID and	Ĺ
11	vaccine-related content that's related partly f	alls
12	on missing context, right?	
13	A. That's correct.	
14	Q. And he says he's making it easier	
15	they're making it easier to have pages, groups,	and
16	accounts demoted for sharing COVID and	
17	vaccine-related misinformation and so forth.	
18	Right?	
19	A. Yes, that is what he has written i	.n
20	that bullet.	
21	Q. And he talks about making entities	;
22	linked to other entities that have been removed	l, as
23	non recommendable. Right?	
24	A. Sorry, can I (reading in sotto	
25	voce). Rendered and is not okay. Yes, I se	e:e

**Page 276** 

1	that. Thank you.
2	Q. And lastly: We will also be
3	strengthening our existing demotion penalties for
4	websites that are repeatedly fact-checked for COVID
5	and vaccine misinformation content shared on our
6	platform. Right?
7	A. Yes.
8	Q. Then he's got looks like he's got
9	a report about removing 20 million pieces of
10	content and removing 3,000 accounts, pages, and
11	groups for people who have been violating rules
12	against COVID and vaccine misinformation.
13	A. Yes. And I would note that it
14	appears that that bullet is a summation, not a new
15	thing, right. That's just sort of saying in total,
16	these are all the things we've done.
17	Q. Yeah. Going back to the beginning of
18	the pandemic it looks like.
19	A. Exactly. Yes, sir.
20	Q. Yeah. It says: We've specifically
21	investigated the people sometimes identified in the
22	media as the Disinfo Dozen. Right?
23	A. Yes.
24	Q. And it talks about applying penalties
25	to some of their website domains as well as so

**Page 277** 

1	that posts are moved lower in the news feed and so
2	forth.
3	A. Yes, that's what Nick is describing.
4	Q. So this is Nick's or this is
5	Facebook's third report since July 16th to you guys
6	about adverse actions taken about taken against
7	content associated with the Disinfo Dozen, right?
8	A. I believe so.
9	Q. Okay. Let me flip back to the first
10	page of this document. You respond to Nick right
11	here in this
12	A. Yes.
13	Q. You say: I hope this finds you well.
14	No Shakespeare quotes in this response,
15	unfortunately. But you say: Brian and I are also
16	in touch, but we look forward to continuing to move
17	forward together with urgency and solutions during
18	these extraordinary times. Right?
19	A. Yes, that's what I wrote.
20	Q. What did you mean by "moving forward
21	together with urgency and solutions"? It's unusual
22	phrasing.
23	A. I think I was hoping that Facebook
24	would continue to move. Urgency means, you know,
25	that they would take this seriously, and solutions

**Page 278** 

1	means that they would also come with real solutions
2	to the problems and not just pretend to solve
3	problems. So I think that's what I meant.
4	Q. Exhibit 27, do you remember getting
5	this e-mail from Brian Rice on August 23rd?
6	A. Can I review this for one second,
7	sir?
8	Q. Yeah. Sure.
9	A. I don't remember it, but now that I
10	see it, it rings a bell.
11	Q. If you go to the next page, it
12	actually starts with an e-mail from Brian Rice to
13	Rob Flaherty or actually from Rob Flaherty to
14	Brian
15	A. Oh.
16	Q Rice.
17	Does that ring a bell?
18	A. I'm I'm seeing it now. Sorry.
19	Brian. Okay, I see the note.
20	Q. So
21	A. Va vaguely familiar, yes.
22	Q. So Flaherty said to Rice: Now that
23	the FDA has approved Pfizer presuming the Pfizer
24	vaccine
25	A. Yes.

Page 279

1	
1	Q I'm making rounds to get a sense
2	from the various platforms if you guys are planning
3	to promote it in any way.
4	A. Yes, that's correct.
5	Q. And he says: We appreciate a push
6	here, given the fact that this is an off-cited
7	blocker for many folks. Right?
8	A. Yes, that's what Brain has written to
9	I'm sorry what Rob has written to Brian.
10	Q. So Rob's asking he's asking
11	Facebook and other social media platforms to kind
12	of, you know, promote the fact that the FDA has now
13	approved the Pfizer vaccine, which had been a point
14	of vaccine hesitancy for some people until then,
15	correct?
16	A. Yes. That is that that is
17	appears to be a correct reading of the e-mail.
18	Q. And Brian responded to Rob talking
19	about an update about what they're doing about it
20	to you know, to update any language as needed,
21	for example, right?
22	A. Yes.
23	Q. And that that he says: We'll
24	keep you updated on this as it progresses. Right?
25	A. Yes, that's what Brian writes to Rob.

Page 280

1	Q. And then Brian, who is the Facebook
2	guy, also states: We're also updating our
3	misinformation policies to remove the specific
4	claims that there are no FDA-approved vaccines and
5	the Pfizer vaccine is not FDA approved, and we'll
6	continue to look for claims that are no longer
7	accurate, given the approval today. Correct?
8	A. That is what Brian has written to
9	Rob, yes.
10	Q. So his response to Rob includes a
11	report back on additional content that Facebook
12	plans to remove from its platforms if people post
13	it, right?
14	A. I don't know that he says remove.
15	Oh, you're right. Yes. He says: We're updating
16	our (unintelligible) to remove the specific claims.
17	Yeah, so it looks like they're defining claims that
18	that Pfizer's not FDA approved, they're defining
19	that as health misinformation, which according to
20	their policies, they would remove. It sounds like
21	they're adding that as a definition of
22	misinformation.
23	Q. And that
24	A. I don't know that they're updating
25	the overall policy. I think they're adding that to

**Page 281** 

1	their definition of misinformation.
2	Q. Right. So they're update they're
3	updating the policy to remove those specific claims
4	if people post them on their platform, right?
5	A. Yeah, I I that is what he says,
6	yes.
7	Q. Yeah. And he then forwarded that on
8	to you too, right? He reported to you on those
9	points?
10	A. Yes. He says: Eric, making sure to
11	flag for you as well. Let me know if you have any
12	questions.
13	Q. Did you have any questions?
14	A. Not to my recollection.
15	Q. Do you remember any discussions of
16	removing misinformation related to the FDA approval
17	of the Pfizer vaccine?
18	A. No.
19	Q. And this is sent to you three days
20	after that report on August 20th that Nick Clegg
21	sent about expanding or adjusting their policies to
22	remove more misinformation, right?
23	A. Yes. The 23rd is three days after
24	the 20th.
25	Q. This is a breaking point.

Page 282

1	A. Great.
2	Q. We can take a quick break. I'm happy
3	taking a quick break now or going forward. Break?
4	A. I would say to break in five minutes.
5	I didn't know how much longer you were going to go.
6	but, yeah, should we do you want to take an
7	eight-minute break?
8	Q. Yeah.
9	MR. SAUER: Off the record.
10	THE VIDEOGRAPHER: The time is 2:14
11	p.m. We are off the record.
12	(A short break was taken.)
13	THE VIDEOGRAPHER: The time is
14	2:28 p.m., Central Standard Time. We are back on
15	record.
16	Q. (BY MR. SAUER) Mr. Waldo, I'm
17	showing you Exhibit 28, and this is a lengthy,
18	232-page report that was done by the Virality
19	Project. I think you testified earlier that you
20	never heard of Virality Project; is that right?
21	A. That's correct. I have not heard of
22	them.
23	Q. Okay. And so do have you ever
24	seen this report before? It's kind of got a
25	distinctive cover.

**Page 283** 

1	A. I have not.
2	Q. And then were you aware of any
3	involvement in the Surgeon General's office with
4	the Virality Project?
5	A. I'm not aware of any involvement with
6	the Surgeon General's office and the Virality
7	Project.
8	Q. Okay. And then how about with the
9	entities that make it up, include the Stanford
10	Internet Observatory, which we've already talked
11	about. Are you other than the announcement
12	being hosted at Stanford, are you aware of any
13	collaboration between the Surgeon General's office
14	and the Stanford Internet Observatory?
15	A. I think I mentioned that we had a
16	call with Renee at some point. I think after the
17	announcement. I think that was just, again, a
18	brainstorm about potential follow-up events to do.
19	Q. How about the University of
20	Washington's Center for Informed Public, does that
21	ring a bell?
22	A. I'm not familiar with them.
23	Q. How about Kate Starbird, a professor
24	at the University of Washington?
25	A. I don't think so, unless she was a

Page 284

1	panelist on the at that Stanford event, but I
2	don't believe so.
3	Q. How about Graphika, an organization
4	called Graphika with a p-h and a k?
5	A. I'm not familiar with Graphika, sir.
6	Q. How about the Atlantic Council?
7	A. Is that the Atlantic magazine, sir?
8	Q. No, it's associated with NATO.
9	A. I'm not familiar with them.
10	Q. In this report, at one point, it
11	says: The Office of the Surgeon General
12	incorporated the Virality Project's research and
13	perspectives into its own vaccine misinformation
14	strategy.
15	Would you have any knowledge of the
16	basis for a statement like that?
17	A. I do not have any knowledge for the
18	basis of that statement.
19	Q. This report talks about how
20	stakeholders, including government stakeholders,
21	were allowed to submit tips through the Virality
22	Project of online content they thought was harmful
23	misinformation about COVID-19 vaccines. Are you
24	aware of anyone in the Office of Surgeon General
25	submitting tips to the Virality Project about

Page 285

1	content that they wanted to be flagged for removal
2	from social media platforms?
3	A. I'm not familiar.
4	Q. Are you aware of any other federal
5	official participating in in that that
6	activity of submitting tips to the Virality Project
7	about online COVID vaccine misinformation?
8	A. I am not familiar with any government
9	official participating with the Virality Project in
10	any capacity.
11	Q. Okay. There's a reference in here to
12	health freedom organizations and content
13	misinformation content spread by health freedom
14	organizations. Are you familiar with that concern
15	at all, that health freedom organizations are
16	spreading misinformation?
17	A. I am not familiar with that.
18	Q. And I take it same question for
19	Virality Project tickets, that there are tickets
20	they used to track online misinformation related to
21	COVID vaccines. Are you aware of government
22	officials being involved in Virality Project
23	tickets?
24	A. I'm not familiar with any government
25	officials being involved in Virality Project

**Page 286** 

1	tickets.
2	Q. There's a reference there's about
3	49 references in this report to someone called Alex
4	Berenson. Do you know who that is?
5	A. I do not know who Alex Berenson is.
6	Q. You've never heard of former New York
7	Times reporter and well-known vaccine skeptic Alex
8	Berenson?
9	A. I do not know who Alex Berenson is,
10	sir.
11	Q. So that have you ever remember
12	any discussions of I guess if you don't know who
13	he is, do you remember his name coming up in
14	discussions of misinformation?
15	A. I do not know who Alex Berenson is,
16	and I do not recall his name coming up in any
17	discussions about health misinformation.
18	Q. There's a reference in this report to
19	the Gateway Pundit, a website where it's
20	described the report describes the Gateway
21	Pundit as a purveyor of health misinformation.
22	Do you remember any references in any
23	connection to the Gateway Pundit?
24	A. I do not, sir.
25	Q. How about someone called Jim Hoft or

Page 287

1	Joe Hoft, H-O-F-T? Has that name ever come up?
2	A. Sorry, is that the name of a person
3	or an organization?
4	Q. Person. H-O-F-T, Jim Hoft and Joe
5	Hoft, brothers.
6	A. I have not heard of Jim or Joe Hoft.
7	Q. How about Dr. Jay Bhattacharya, is
8	that name familiar to you?
9	A. I'm not familiar with Dr. Jay
10	Bhattacharya.
11	Q. How about Martin Kulldorff,
12	K-U-L-D-O-R-F-F?
13	A. I'm not familiar with Martin
14	Kulldorff.
15	Q. You don't remember those names ever
16	coming up?
17	A. Ever coming up? I've never heard
18	that that name before, sir.
19	Q. Okay. How about Aaron Kheriaty,
20	K-H-E-R-I-A-T-Y.
21	A. I do not know Mr. Kheriaty.
22	Q. Have you ever heard his name before?
23	A. I have not heard his name before this
24	moment.
25	Q. About America's Frontline Doctors, an

**Page 288** 

1	organization. Do you remember that ever coming up?
2	A. I don't have any recollection of
3	America's Frontline Doctors.
4	Q. How about Robert F. Kennedy, Junior?
5	A. I have heard of Robert F. Kennedy,
6	Junior.
7	Q. What have you heard about him?
8	A. I know that he is a vaccine skeptic.
9	Q. What what has his name ever
10	come up in connection with online misinformation
11	about COVID vaccines?
12	A. Only in what I've read in my personal
13	capacity.
14	Q. How about in your official capacity?
15	Is that a name that's ever crossed your desk?
16	A. No, it is not.
17	Q. There's multiple references in this
18	report to the involvement of the Surgeon General's
19	office in the Virality Project. Who would know
20	and there's five references to Dr. Murthy. Who in
21	the Surgeon General's office would know whether or
22	to what extent the Surgeon General's office is
23	involved in the Virality Project?
24	A. So I'm not familiar with the Virality
25	Project, and but I think given the given the

**Page 289** 

Fax: 314.644.1334

1	area that this is focused on, misinformation, I
2	would assume the only people who could know would
3	be Kyla Fullenwilder, Daniel Tartakovsky, Tyiesha
4	Short, Rafael Compos, Max Lesko, and Dr. Murthy
5	himself.
6	Q. I think all those names have come up
7	today already except I don't remember you
8	mentioning Tyiesha Short. Who's she?
8 9	mentioning Tyiesha Short. Who's she?  A. I think I mentioned Tyiesha in
9	A. I think I mentioned Tyiesha in
9	A. I think I mentioned Tyiesha in passing. She reported to Daniel Tartakovsky.

Daniel, and I believe that she was someone who did

Q. So you're -- you're -- the report

some research for the -- the report itself.

- 17 being health advisory?
- 18 A. Yeah, sorry. The -- the health mis-
- 19 and disinformation advisory.
- 20 Q. So that's your kind of educated
- 21 speculation as to who would be likely to know would
- 22 be those names?

14

15

- 23 A. That's correct, sir.
- Q. Yeah, and I guess that makes sense
- 25 because the report says that the health advisory

**Page 290** 

1	adopted essentially the approach of the Virality
2	Project, so the people most likely to know about
3	the Surgeon General's involvement in the Virality
4	Project would be the people who were involved in
5	drafting the health advisory, right?
6	A. You're what you're describing
7	is
8	Q. And so you mentioned the policy team,
9	Dr. Murthy himself, and Max Lesko, right?
10	A. I mentioned Daniel and Tyiesha from
11	the policy team. As we described previously on the
12	org chart, Kyla Fullenwilder technically reports to
13	the design team, to Anne Kim, and then Max Lesko
14	and Dr. Murthy.
15	At some point when he was in the
16	office, Adam maybe would have Adam Beckman would
17	be someone who may know because during this time,
18	we did not have a policy director and Adam was
19	functionally the policy director, during that, you
20	know, until sometime I think in late August, early
21	September when we got a policy director. So Adam
22	Beckman is the only other person I didn't mention
23	in our first round of this question.
24	Q. Okay. I'm going to put up Exhibit
25	30. Can you see it on the screen share?

**Page 291** 

1	A. Yes, I can. And I also have the
2	document in front of me from government counsel.
3	Q. And this is an e-mail chain going to
4	September 18th from Brian Rice. I think he's
5	emailing you and some White House people, right?
6	Courtney Rowe, is she in the White House?
7	A. Yes, Courtney was a member of the
8	COVID-19 team.
9	Q. What was her role exactly?
10	A. I'm not positive, but I think she was
11	a the communications lead. She I knew
12	Courtney previously in the Obama administration as
13	a communications lead, so that's my very very
14	educated guess.
15	Q. Did you interact with her with on
16	any misinformation-related issues in in the
17	Biden administration?
18	A. After the report came out, at some
19	point, we did have a call that Courtney was on
20	between the Office of the Surgeon General and
21	members of the COVID-19 team to discuss
22	misinformation.
23	Q. Yeah, what kind of misinformation
24	concerns were discussed?
25	A. It was overall just a call to talk

Page 292

1	about whether or not we were going to do any
2	other of that sort of public-facing events or
3	there was any other sort of press-related things we
4	were going to do to talk about the issue.
5	Q. And what was the did the White
6	House people want you to do more or what was the
7	nature of the discussions?
8	MS. CHUZI: Objection. To the extent
9	that the question is asking for privileged
10	information, I would instruct the witness not to
11	answer.
12	THE WITNESS: On the advice of
13	counsel, I will not answer the question.
14	Q. (BY MR. SAUER) Let me ask you about
15	the e-mail on the shared screen. Where do you
16	remember Brian Rice writing to you he says Eric
17	and team. I assume Eric is you, and the team is
18	Courtney Rowe, DJ Patil, and Rob Flaherty; is that
19	fair to guess?
20	A. Yes. I think if you look at the
21	chain, it starts it starts with just a COVID
22	inside report from the 21st, then another report on
23	the 7th. So yes, I think it's it's fair to
24	assume he's he's referring to me and the the
25	COVID-19 team.

**Page 293** 

1	Q. And as to those COVID reports,
2	those during all this time frame, Facebook is
3	sending those to you guys every two weeks,
4	basically, right?
5	A. That sounds correct, sir. I think
6	it's been referred to in these documents as
7	biweekly. That sounds accurate.
8	Q. And that continues, I think, all the
9	way until the following summer of 2022, right?
10	Because you mentioned earlier that at one point,
11	Facebook kind of said we want to stop it, and the
12	response was no, please keep sending them because
13	we have early childhood vaccine authorization in
14	the summer of 2022, right?
15	A. Early childhood happened before then,
16	I think. I don't I don't I know this because
17	I also have a child yeah, and maybe it was,
18	like, late spring, but, yes, they they
19	continued we continued to receive them on a
20	biweekly basis for a while, but I don't know that
21	anyone was doing anything with them.
22	Q. Are you still getting them? I mean,
23	I know you've changed in a different role as senior
24	advisor. Do you know if they're still here in
25	November of 2022?

Page 294

1	A. I don't think I'm getting them
2	anymore, sir.
3	Q. It says Eric and team in this e-mail,
4	and he talks about: I'm sure you saw yesterdays's
5	story in the Wall Street Journal about spread of
6	COVID mess COVID-19 misinformation and comments
7	on Facebook. Right?
8	A. Yes, that's the yeah, I'm sure you
9	saw yesterday's story in the Wall Street Journal
10	sorry, WSJ about the spread of COVID-19
11	misinformation and comments on Facebook. The
12	story, largely based on cherry-picked leaked
13	documents, doesn't accurately represent the problem
14	or the solutions we have put in place to make
15	comments on posts about COVID and vaccines safer.
16	Yes.
17	Q. Yeah. So in other words, Brian is
18	referring to a recent media article about COVID-19
19	misinformation on Facebook, and he's trying to kind
20	of refute the article to to you guys, right?
21	A. Yes, that is what it appears
22	that's what he's trying to do, yes.
23	Q. And Rob Flaherty is the one who
24	responds to this e-mail, right?
25	A. Yes, Rob is the one who responds on

Saturday, September 18th.

#### ERIC WALDO 12/22/2022

**Page 295** 

Fax: 314.644.1334

_	cacarate, copression results
2	Q. Which is the same day that Brian sent
3	his, right? It falls on Saturday?
4	A. Yes. And again, sir, just for the
5	benefit of you, to the extent it's relevant, my
6	child was born on September 17th, so I was not
7	checking e-mail. There was an out-of-office reply
8	for me starting on the 16th. So I while I'm
9	seeing these now, I definitely was not responding
10	to these or looking at them.
11	Q. I gotcha. Well, let me ask you this:
12	Rob says: Happy to talk about it, Brian. Would be

- 14 big the problem is, what solutions you're
- implementing, and how effective they have been,

interested to see, as we have long asked for, how

16 right?

13

1

- 17 A. Yes, that is what Rob writes to
- 18 Brian.
- 19 Q. Right. And then Rob says:
- 20 Understood, Rob. We will circle back over the next
- 21 few days to brief.
- 22 Right?
- 23 A. That is what, yes, Brian writes to
- 24 Rob.
- Q. Yeah, and you may not have been that

**Page 296** 

1	focused, given your personal situation at the time,
2	but do you know whether there was a briefing on
3	this?
4	A. I do not.
5	Q. Do you know whether Facebook talked
6	to, you know, Courtney, Rob Flaherty, DJ Patil
7	about this in your absence?
8	A. I do not.
9	Q. Exhibit 31. Do you remember this
10	e-mail from the Google/YouTube team in
11	September 29th?
12	A. So I would have been on paternity
13	leave during this time.
14	Q. Okay. And in this e-mail, they
15	report back to you and Nancy S. Negron about
16	A. Negron.
17	Q. Yeah, who's she?
18	A. Nancy Negron was my deputy director
19	of engagement.
20	Q. And they report back about having a
21	COVID-19 vaccine misinfo policy that allows them to
22	remove a limited list of verified false claims
23	about COVID vaccines, right?
24	A. Yes, that's what the e-mail says.
25	Q. And they also report back to you guys

Page 297

1	that they're introducing a new policy that
2	prohibits content that includes harmful
3	misinformation about the safety, efficacy, and
4	ingredients for the vaccines, right?
5	A. Yes, that's what the e-mail says.
6	Q. Is this an unsolicited e-mail or are
7	they responding to some kind of communication or
8	request from you guys, do you know?
9	A. I'm not positive, but it would appear
10	to be an unsolicited e-mail.
11	Q. I know that you had said earlier that
12	you reached out to Facebook, Twitter, and YouTube
13	in the aftermath of the health advisory that
14	to to see what steps they were taking. Is that
15	response to that request for information?
16	A. Could be. I'm not certain, to be
17	honest with you. But based on both my departure
18	and I think I had had an out-of-office at this
19	moment, which may have led them to add Nancy.
20	Nancy was also just coming on, and I don't think
21	her HHS e-mail had been set up yet, but I'm not
22	I'm not positive.
23	Q. Let's look at Exhibit 32. Can you
24	see this one on screen share?
25	A. Yes, I see this note.

**Page 298** 

1	O De west memember. Beh Eleberts conice
	Q. Do you remember, Rob Flaherty copies
2	you on this, the initial e-mail, to Brian Rice of
3	Facebook. Do you remember being copied on this? I
4	think you I think you may have said you were out
5	for 30 days. Looks like you're probably just back
6	from paternity leave, your first stint of paternity
7	leave. Do you remember this?
8	A. Yeah, I was probably just back. As
9	I'm looking at it hold on. I do recall that
10	for for vaccines for for kids, Kristina
11	Schake and others were leading the outreach.
12	Q. Kristina Schake, is she in the Office
13	of Surgeon General or Office for HHS?
14	A. No, she was elsewhere in HHS.
15	Q. Okay. And Rob here, I think,
16	initiates this and asks for a meeting with
17	Facebook, right?
18	A. Yes, I think to discuss outreach for
19	kids' vaccines.
20	Q. Yeah, 5 to 11 vaccine is the
21	authorization for children ages 5 to 11, right?
22	A. That's correct, and vaccines for
23	for young people ages 5 to 11.
24	Q. And he says: We'd like to talk about
25	what we're seeing as the biggest headwinds we're

**Page 299** 

1	going to face and discuss what you-all are planning
2	as we move into the next phase, right?
3	A. Yes, that's what Rob has written to
4	to Brian.
5	Q. And Rob says: We remain concerned
6	about mis- and disinformation on feed and in
7	groups, and the wide reach of hesitancy inducing
8	content across your platform, right?
9	A. Yes, that's what Rob has written to
10	Brian.
11	Q. And he says: With that said, we hope
12	as ever that this will be a productive and
13	forward-looking conversation, right?
14	A. Correct, that is what Brian has or
15	what Rob has written to Brian.
16	Q. So Rob's asking for a meeting where
17	one of the concerns he wants to talk about is mis-
18	and disinformation on feed and in groups on
19	Facebook's platforms, right?
20	A. I'm not sure. He definitely says
21	there that he's concerned about it. But in
22	general, it seems like the subject is they want to
23	talk about headwinds. They're concerned about
24	misinformation and they want to have a productive
25	conversation about how to help on I think

Page 300

_	
1	probably share what the admin's plans are for the 5
2	to 11 rollout.
3	Q. And their concerns include mis- and
4	disinformation on feed and in groups, correct?
5	A. That is what Brian has says in his
6	e-mail.
7	Q. Rob, right? Not Brian?
8	A. Sorry, sorry. That's what Rob has
9	written to Brian.
10	Q. Yeah, and then he's another
11	concern is the wide reach of hesitancy-inducing
12	content across your platform, right?
13	A. Yes.
14	Q. Do you know, did this meeting
15	occur
16	A. I'm not certain.
17	Q because Rob says Thanks, Rob,
18	we welcome the opportunity and adding Felicia on
19	our end to help coordinate, right?
20	A. Yeah, I'm guessing.
21	Q. Did this meeting occur?
22	A. I'm not certain. Probably. If they
23	added schedulers, usually those meetings happen.
24	Q. Were you included in the meeting? I
25	mean, you're on the list of recipients. Were you

Page 301

1	included in that macting do you macalla
	included in that meeting, do you recall?
2	A. I don't recall.
3	Q. How about at your colleague at
4	HHS, Kristina Schake?
5	A. Kristina was likely on that call.
6	Q. But you don't you don't know if
7	you were. Was anyone else in the Office of Surgeon
8	General on that call?
9	A. So Kristina Schake ran ran the
10	public engagement campaign for vaccines at HHS, so
11	that was we sort of took our marching orders on
12	some of those, like, public-facing pieces from
13	Kristina, so she would have led, and then possibly
14	looped in Alex Phillips, our communications
15	director, based on what they wanted us to do to
16	help help roll out the the vaccine.
17	Q. Okay. Do you have any understanding
18	of what was discussed in this meeting?
19	A. I don't recall. I don't recall if I
20	was on the the call or or what would have
21	been discussed.
22	Q. So you may have been on the call, but
23	you're not sure?
24	A. It's possible. I may have been on
25	it. I around this time, we ended up doing, for

Page 302

1	the rollout, an event with Dr. Biden, so I remember
2	that was sort of how we were engaging with the
3	White House on the kids' vaccine rollout.
4	Q. Let's look at Exhibit 33. Not long
5	after that Wall Street Journal article, there was
6	another Washington Post article criticizing
7	Facebook for misinformation, right? Do you
8	remember that?
9	A. I think is that the Frances
10	Haugen, the leaker op ed, or no.
11	Q. I believe it had to do with Frances
12	Haugen.
13	A. Okay.
14	Q. Does that ring a bell?
15	A. Yes.
16	Q. October 28th of 2021?
17	A. Yes, I do recall when the article
18	came out about the leaker, yes.
19	Q. And Dr. Murthy retweeted the article
20	on October 28th saying he was deeply disappointed
21	to read this story, right?
22	A. Yes, he that his his tweet
23	says: I was deeply disappointed to read this.
24	Q. And he refers back to the the
25	advisory on health misinformation and states: I

Page 303

1	stated clearly that tech platforms have a
2	responsibility to improve our health information
3	echo system.
4	Right?
5	A. Yes, that is what Dr. Murthy tweets.
6	Q. And then he's got a several-tweet
7	thread on this, at the bottom, which he says: We
8	must demand Facebook and the rest of the social
9	media ecosystem take responsibility for stopping
10	health misinformation on their platforms. The time
11	for excuses and half-measures is long past. We
12	need transparency and accountability now. The
13	health of our country is at stake.
14	Correct?
15	Q. That's correct.
16	A. That's what Dr. Murthy has tweeted.
17	Q. Were you involved in crafting these
18	tweets for Dr. Murthy?
19	A. I was involved in reviewing them. I
20	think there was a deliberation between the
21	communications team and Dr. Murthy about what the
22	content would be of this Twitter thread.
23	Q. And were you involved in formulating
24	the content?
25	A. I I looked at different drafts and

Page 304

1	helped on different drafts, but ultimately, this
2	was a what Dr. Murthy ended up writing
3	drafting himself.
4	Q. Okay. So he was the author of the
5	these, principally?
6	A. I think, again, as you know, writing
7	is a complicated process. I think there was a
8	draft from a draft from the probably I
9	don't recall, but my guess based on how the office
10	tended to work was there would have been a draft
11	from the communications team of a tweet thread,
12	then there was probably a version control where
13	then I maybe made some edits and I had a version,
14	and then Dr. Murthy ultimately came in and and
15	and made the final and substantial edits to what
16	he wanted there to be from from his Twitter
17	account.
18	Q. Do you have an understanding
19	A. I'm sorry.
20	Q. Go ahead.
21	A. And I would say, in addition, likely,
22	and I don't recall, someone from the policy team
23	would have reviewed the content to ensure the
24	integrity of our you know, of our scientific
25	accuracy.

Page 305

1	Q. Do you have an understanding of what
2	message was being was intended to be conveyed by
3	this tweet thread?
4	A. I mean, I think it I think the
5	the tweet thread speaks for itself to say that
6	it's clearly Dr. Murthy expressing disappointment,
7	and then in the thread talking about I think
8	really referencing things that are referenced in
9	the advisory, doing this vis-a-vis his Twitter
10	thread about how why why it's important for
11	us to have more transparency and accountability
12	around health misinformation, especially vis-a-vis
13	the social media organizations.
14	Q. Yeah, and the very last tweet, he
15	sums it up by demanding that Facebook and the other
16	platforms do more, or take responsibility for
17	stopping health misinformation on their platforms,
18	right?
19	A. Yes. He writes: We must demand
20	Facebook and the rest of the social media ecosystem
21	take responsibility for stopping health
22	misinformation on their platforms.
23	Q. And he goes on to say: The time for
24	excuses and half-measures is long past.
25	Right?

Page 306

4	
1	A. Yes, that's his next line in his
2	tweet thread.
3	Q. And so that was a carefully crafted
4	message. It sounds like there were a lot of people
5	who thought about exactly what to say in this tweet
6	thread, including yourself as one of them, right?
7	A. Whether it's carefully crafted or
8	not, it was lots of work went into it. I don't
9	know if that means it was careful, but I appreciate
10	what you're trying to say.
11	Q. Let me pull up Exhibit 35. That same
12	day, October 28th, that the the Surgeon General
13	tweeted that Washington Post article, Rob Flaherty
14	e-mailed Brian Rice a link to the same article with
15	a subject line: Not even sure what to say at this
16	point.
17	Correct?
18	A. Yes, that's Rob's e-mail to Brian.
19	Q. Yeah, so that's all he says in the
20	e-mail, he links the article and says in the
21	subject line: Not even sure what to say at this
22	point.
23	Right?
24	A. Yes, that's what his e-mail says in
25	the subject line to to Brian.

Page 307

1	Q. What let me ask you this: Was
2	there any coordination between you and your office
3	and Rob Flaherty about you have the tweets and they
4	have the e-mail of Facebook. Was that was that
5	just a coincidence that you both raised in
6	different venues, or was there a kind of
7	coordination there?
8	A. There was no coordination.
9	Q. So it's a coincidence that Rob
10	happened to send the same article to Brian Rice
11	that you guys had written the tweet thread for
12	about with Dr. Murthy on, right?
13	A. I think this was one of the most
14	popular articles in all of news that week, so I'm
15	not surprised that people who care a lot about this
16	issue were certainly hitting up Facebook about it.
17	Q. You say you both hit up Facebook in
18	different ways, right? You with a tweet thread and
19	Rob with a e-mail?
20	A. We we commented upon it using our
21	public platform to to comment upon the substance
22	of the article. And Rob e-mailed, you know, Brian.
23	Q. And and then Brian sent a kind of
24	response where he tries to justify what their
25	practices are and he disagrees with the analysis in

Page 308

1	the article, right?
2	A. Yes, that's what Brian writes to Rob.
3	Q. And then Brian forwards that e-mail
4	chain to you, right? And a few days later, saying
5	we heard from Rob Thursday as well regarding
6	Thursday's Washington Post story, right?
7	A. Yes, Brian forwards me the
8	interaction between the two of them.
9	Q. Yeah, and then he says: I saw the
10	Surgeon General's reaction on Twitter.
11	Presumably that's a reference to the
12	Twitter thread we just looked at, right, from
13	October 28th?
14	A. Yes.
15	Q. And it says: We want to make sure
16	you have the context necessary as we feel strongly
17	the claims in the story are not accurate. Right?
18	A. Yes, that's what Brian has written to
19	me.
20	Q. Then he asks you for a meeting,
21	basically, says: Please let me know if you have
22	time for a longer conversation next week, right?
23	A. Yes, he requests a meeting by asking
24	me for time.
25	Q. Did you, in fact, meet with him, do

Page 309

1	you recall?
2	A. I don't think I did.
3	Q. Did you respond to his request for a
4	meeting in any way?
5	A. I probably wrote something, but maybe
6	not. I'm not sure. I tried to be responsive, but
7	I'm not sure if I wrote back. If you have that
8	e-mail, I'd be happy to look at it.
9	Q. I'm trying to remember myself.
10	A. If you can refresh your recollection
11	and mine at the same time, we'll call it a win.
12	Q. Let's look at Exhibit 36. Second
13	page of this document, independent of the e-mail
14	with Rob Flaherty on the day of the Frances Haugen
15	article, October 28th, Nick Clegg e-mailed
16	Dr. Murthy directly, right?
17	A. Yes, that first e-mail is from Nick
18	to Dr. Murthy on October 28th, yes.
19	Q. He talks about the launching of the
20	Mediverse and so forth, and at the end, he talks
21	about the intense debate that's been prompted by
22	the documents that have been disclosed by a former
23	employee, right?
24	A. That last paragraph, yes.
25	Q. Yeah. That's a reference to the

**Page 310** 

1	Washington Post article, presumably, right?
2	A. Yes, I yes.
3	Q. And then you're the one who responds
4	to this e-mail, scrolling up to the first page, on
5	the next day, October 29th. You send an e-mail to
6	Nick Clegg and Brian Rice. You're kind of omitting
7	Dr. Murthy from the e-mail chain, right?
8	A. That's correct.
9	Q. Yeah. And you mention that you
10	thank him for the note to Dr. Murthy, and you say:
11	I did want to say that we have seen the recent
12	public reports around Facebook and the
13	misinformation, right?
14	A. Yes.
15	Q. And you say: We're certainly
16	concerned about what we are seeing, given our
17	emphasis on health misinformation in our advisory
18	and the ongoing conversation our teams have been
19	having.
20	Right?
21	A. Correct.
22	Q. Are there any conversations your
23	teams have been having at this stage that we
24	haven't covered by talking about these e-mails and
25	so forth in your testimony today?

**Page 311** 

1	A. No.
2	Q. So there's go ahead.
3	A. Sorry, sir. Can you repeat your
4	question?
5	Q. Yeah. Were there any other
6	conversations in this period from July and October
7	of 2021 between your teams about misinformation?
8	A. Not to my knowledge.
9	Q. You go on to say: As has been the
10	case, you'll continue to see us raising the issue
11	of health misinformation in public and private as a
12	critical public health issue.
13	Right?
14	A. Yes, that's what I write.
15	Q. Yeah. What what are the private
16	conversations where you're going to continue
17	raising the issue of health misinformation?
18	A. I assume in that in the context of
19	that of that e-mail, I think I'm trying to say
20	we're going to talk, this is an issue we've raised
21	as a priority, that we that's why we issued an
22	advisory, and when people come and talk to us,
23	whether it's at a a panel or on Meet the Press,
24	or it's a meeting with a stakeholder that's in
25	private, they'll say what are your issues of

Page 312

1	importance?
2	And you'll see Eric Waldo or
3	Dr. Murthy or whomever would stand up and say the
4	issues we're talking about are: Health
5	misinformation, youth mental health, workplace
6	mental health, clinician burnout, et cetera. So
7	that's one of the issues that we were going to keep
8	talking about.
9	Q. How about that issue of that used
10	the word "private". What are the private
11	conversations where you raise it?
12	A. Again, I think as I've just
13	mentioned, sir, as you know, in the government,
14	you're not always just doing a panel that's open
15	press, you're meeting with stakeholders, you know,
16	in closed-door meetings and they ask you what your
17	priority areas are or what areas they might want to
18	partner with you.
19	And so my philosophy as a chief
20	you know, as a public engagement official is that
21	explain to anyone who work who's working with
22	us or meeting with us overall what our office is
23	focused on. And certainly at this time, in
24	nonpublic meetings, I was telling people of any
25	kind, whether it was one at the PTA or someone else

**Page 313** 

1	to say when someone says, what is the Surgeon
2	General interested and what is he working on, I'd
3	say: You saw that we issued we're working on
4	COVID-19. You saw us issue an advisory on health
5	mis- and disinformation. You saw, you know, coming
6	soon, youth mental health, workplace mental health,
7	clinician burnout, social isolation and loneliness.
8	So I would say that talking about
9	health mis- and disinformation was in our talking
10	points of when we talked to stakeholders in public
11	and private.
12	Q. You say talking points. I think you
13	referred to them this morning, too. Did you
13 14	referred to them this morning, too. Did you actually have literal talking points when you would
	<u>-</u>
14	actually have literal talking points when you would
14 15	actually have literal talking points when you would go into these meetings, and specifically the
14 15 16	actually have literal talking points when you would go into these meetings, and specifically the meetings with social media platforms? Did you talk
14 15 16 17	actually have literal talking points when you would go into these meetings, and specifically the meetings with social media platforms? Did you talk to them about the meetings
14 15 16 17 18	actually have literal talking points when you would go into these meetings, and specifically the meetings with social media platforms? Did you talk to them about the meetings  A. No.
14 15 16 17 18 19	actually have literal talking points when you would go into these meetings, and specifically the meetings with social media platforms? Did you talk to them about the meetings  A. No.  Q. Would you actually have a document
14 15 16 17 18 19 20	actually have literal talking points when you would go into these meetings, and specifically the meetings with social media platforms? Did you talk to them about the meetings  A. No.  Q. Would you actually have a document that was your talking points?
14 15 16 17 18 19 20 21	actually have literal talking points when you would go into these meetings, and specifically the meetings with social media platforms? Did you talk to them about the meetings  A. No.  Q. Would you actually have a document that was your talking points?  A. No.
14 15 16 17 18 19 20 21 22	actually have literal talking points when you would go into these meetings, and specifically the meetings with social media platforms? Did you talk to them about the meetings  A. No.  Q. Would you actually have a document that was your talking points?  A. No.  Q. Okay. So you're referring to them

**Page 314** 

- 1 in, you want to be able to have the elevator pitch
- 2 of what you're working on and ways you want to
- 3 collaborate and what your priorities are.
- 4 Q. In this e-mail that's on the screen,
- 5 Exhibit 36, you know, you said that point about
- 6 the -- that we just discussed. And Brian responds
- by asking you for a meeting, and I think you
- 8 responded, "Let me get back to you next week once
- 9 we're done crashing on our rollout of vaccines
- 10 **5-11.**" Right?
- 11 A. Yes.
- 12 Q. So you kind of put him off. Did you
- ever give him that meeting, do you recall?
- 14 A. I don't think I did.
- 15 **Q.** Okay.
- 16 A. But I'm not sure. If you can show me
- 17 that meeting, I'm happy to talk about it, or not
- 18 remember it, but I -- I don't -- I don't think --
- 19 I -- I was not -- I was not looking to spend more
- 20 time with Brian or folks at Facebook.
- Q. Was it -- was it a tense relationship
- 22 by this stage?
- 23 A. No. Actually, I think as we've
- 24 discussed, you know, I think the Surgeon General's
- 25 office, I think we felt like we raised the issue,

**Page 315** 

- 1 and that as I mentioned before in the conversation,
- 2 you know, we had other priorities that we needed to
- 3 move on to, and with a, you know, small but mighty
- 4 team and limited bandwidth, we had done our part in
- 5 -- in the relay race of policy work, and we're now
- 6 trying to continue to move on to other priority
- 7 areas.
- 8 Q. Can you look at Exhibit 37, which is
- 9 up on the screen?
- 10 A. Sure.
- 11 Q. Taking this -- scrolling down to the
- 12 bottom, so we're taking these e-mails in kind of
- chronological order, there's an e-mail from Brian
- 14 Rice to Rob Flaherty, you, Courtney Rowe, and Becca
- 15 Siegel. Do you see that?
- 16 A. I do.
- 17 Q. So that's dated October -- Friday,
- 18 October 29th, right?
- 19 A. Yes, yes. Sorry, I was looking at
- 20 the e-mail above that. Yes, the Friday, October
- 21 29th e-mail, yes. COVID insights and plan for
- 22 approval of kids' vaccines, yes.
- Q. And then he says: Thanks again -- in
- the beginning of this, he says: Thanks again for
- 25 taking the time to meet with us on Monday. Right?

**Page 316** 

1	A. Yes.
2	Q. Okay. Do you remember that meeting?
3	It sounds like you and Rob Flaherty and Courtney
4	Rowe and Becca Siegel were involved in that?
5	A. So I think that's what you were
6	asking me before when they when Rob asked for
7	time to talk about the kids' vaccine rollout, and I
8	said I wasn't sure if I attended. So it looks like
9	I probably did, if he's addressed or he's just
10	still cc'ing me and thanking Rob and Courtney, or
11	folks who attended the meeting.
12	Q. So you're still not sure whether
13	you I take it this would have been if this is
14	the 29th, that meeting would have happened on
15	Monday the 25th, right?
16	A. That sounds right.
17	Q. And you don't you still based
18	on this, you're still not sure whether you're at
19	that meeting, right?
20	A. I honestly don't recall.
21	Q. Okay.
22	A. Again, we had a launch that we were
23	doing with Dr. Biden for kids' vaccine, and that
24	was taking a lot of my time.
25	Q. In this e-mail, one of the first

Page 317

1	things they say is: As discussed so discussed
2	in the meeting. As soon as the EUA is issued I
3	take it that's the emergency use authorization
4	for vaccines for children 5 to 11, we will also be
5	able to apply claims for our current misinfo
6	policies for COVID-19 vaccines to include claims
7	about child vaccinations, right?
8	A. Yes, that's what he's written in this
9	e-mail.
10	Q. So do you remember him being he
11	says that he indicates that was discussed in the
12	meeting on October 25th. Does that ring a bell?
13	A. Okay.
14	Q. Do you remember them discussing that
15	they were going to expand their misinformation
16	policies to include claims about child vaccination?
17	A. As I mentioned, I'm not sure if I
18	attended this meeting, but I don't recall.
19	Q. Yeah, so none of this rings a bell
20	about several they say several claims that we
21	will be able to remove as soon as the CDC debunks
22	them, such as COVID vaccines giving children Bell's
23	palsy and blood clots and so forth.
24	Does that ring a bell at all?
25	A. It does not.

Page 318

1	Q. Do you remember the CDC being
2	mentioned in any conversations with Facebook about
3	misinformation?
4	A. I do not.
5	Q. And this e-mail is actually sent to
6	you guys the day after I guess, yeah, the day
7	after the Frances Haugen article and Surgeon
8	General Murthy's tweet, right?
9	A. That sounds correct.
10	Q. Yeah, October 28th was the date of
11	those, and October 29th is the date of this e-mail?
12	A. Okay.
13	Q. Yeah, so immediately after the day
14	after that tweet, Facebook e-mails the group of you
15	and reports back how they're going to apply their
16	current misinfo policies to things about child
17	vaccination, right?
18	A. That is the day after, correct.
19	Q. Yeah, and then they follow up again,
20	if you scroll back up, on the next Thursday,
21	November 4th, where Brian Rice says to you he
22	wanted to follow up and share what steps we've
23	taken over the last several days, as the FDA and
24	CDC approvals have now been granted, right?
25	A. Yes.

**Page 319** 

1	Q. And it says: Last Friday, we updated
2	our misinformation policies for COVID-19 vaccines
3	to make clear that they apply to claims about
4	children, including Bell's palsy and blood clots
5	and multiple sclerosis, right?
6	A. Yes, that's what the e-mail says.
7	Q. So and this would be a, I guess,
8	less than a week after the tweets about the Frances
9	Haugen article, correct, where they're giving you a
10	second update about applying their misinformation
11	policies to content about child vaccination, right?
12	A. That's correct.
13	Q. Let's briefly look at Exhibit just
14	a second.
15	MR. SAUER: David, what's our
16	on-the-record time? You're muted.
17	THE VIDEOGRAPHER: One second,
18	please. We are at 5:42.
19	Q. (BY MR. SAUER) Okay. Let's look at
20	Exhibit 38. After that Washington Post article on
21	October 28th, the Surgeon General gave a series of
22	public statements and podcasts where he talked
23	about health or speeches where he talked about
24	health information, correct?
25	MS. CHUZI: Counsel, the exhibit is

**Page 320** 

1	not on the screen. I don't know if you intended to
2	pull it up just yet, but it's not on the screen.
3	Q. (BY MR. SAUER) Following that
4	October 28th Washington Post article, did the
5	Surgeon General do a series of public statements
6	and podcasts and so forth about health
7	misinformation?
8	A. I'm not sure.
9	Q. Okay. Do you remember a discussion
10	after the October 28th article of having the
11	Surgeon General's office take a more proactive role
12	in using the bully pulpit, so to speak, to
13	emphasize the issue of health misinformation?
14	A. After the October 28th meeting?
15	Q. October 28th, Washington Post
16	article.
17	A. I do not recall that.
18	Q. Okay. For example, here's a podcast
19	that the Surgeon General gave on December 21st,
20	2021. Does that ring a bell? Did you know he was
21	doing that podcast?
22	A. The podcast podcast was part of
23	the communications team, so Alex Phillips was the
24	one this is goes within the press team, so my
25	team wasn't responsible for preparation or creation

**Page 321** 

1	of the podcast outreach, so I probably knew about
2	it right before it happened, but I wasn't tracking
3	it.
4	Q. And were you involved in kind of
5	formulating his remarks for the podcast or anything
6	like that?
7	A. I was not.
8	Q. Okay. Just real briefly, then, if
9	you scroll down, there's a little bit of it that's
10	transcribed by a court reporter here where he says:
11	I think, number 1, we have to track down where this
12	misinformation is coming from and understand how to
13	hold the platforms accountable, new technology
14	platforms that are driving so much of the
15	misinformation spread.
16	Right?
17	A. Yes, I I can see that.
18	Q. That's another emphasis on the points
19	that are raised in the health advisory, right,
20	about holding them accountable for the spread of
21	misinformation on their platforms?
22	A. Yes, this is consistent with his
23	previous statements as well as the content within
24	the advisory itself.
25	Q. And he says: They, the platforms,

Page 322

1	are subjecting people in the United States and
2	around the world to extraordinary harm, and they're
3	doing so with little accountability and very little
4	transparency, right?
5	A. Yes. That is what he says on this
6	transcript.
7	Q. And he says: That can't be allowed
8	to continue because it's putting everyone's health
9	at risk.
10	Right?
11	A. Yes, that's what Dr. Murthy says.
12	Q. And he also says: I do think that
13	part of what they have to do, the platforms, is
14	take aggressive action against people who are
15	intentionally spreading misinformation.
16	Right?
17	A. Yes, that's what he says in this
18	podcast.
19	Q. Okay. And does that reflect kind of
20	the that kind of reflect or re-emphasize the
21	message in the health advisory?
22	A. I think this is consistent with the
23	messaging we've reviewed all day today of the
24	advisory, the rollout, and public statements, yes.
25	Q. Were in this time frame, now we're
l	

Page 323

1	to December of 2021, were there more communications
2	with the social media platforms directly, in
3	private, you know, that relate to them taking more
4	aggressive action against people spreading
5	misinformation?
6	A. In December of 2021?
7	Q. Yeah.
8	A. Not to my knowledge.
9	Q. Do you remember any any let me
10	ask this: In the period between October of 2021
11	and December of 2021 or January of 2022, were
12	there do you recall any communications with any
13	of those social media platforms?
14	A. I do not.
15	And, sir, I think I just want
16	again, I mentioned at the top, but I'll remind you,
17	since it sounds like we're starting to get into
18	2022, I was on paternity leave sort of January
19	through early March of of 2022.
20	Q. So you you may not be aware
21	whether or not people in the Surgeon General's
22	office had communications with social media
23	platforms in that time frame?
24	A. It's possible that it could have
25	occurred while I was on leave, but I would assume I

**Page 324** 

1	would have been informed about those meetings when
2	I returned.
3	Q. Were you informed about any meetings
4	like that?
5	A. I mean, in general, I was checking in
6	with my team about major issues. And I think,
7	given the scrutiny that we had seen from this
8	issue, I I think the team would have told me if
9	there had been a lot of meetings with Facebook or
10	other social media companies.
11	Q. Are you aware of any meetings between
12	anyone in the Surgeon General's office and any
13	social media platforms anytime from October of 2021
14	through March of 2022?
15	A. Not to my knowledge.
16	Q. And I take it during a lot of that
17	time from January to March, you were out on kind of
18	the second part of your paternity leave, right?
19	A. That's correct.
20	Q. Let me call up Exhibit 39 real
21	quickly. Can you see this Surgeon General Murthy
22	on COVID mental health and Alyssa Milano's podcast
23	Sorry, Not Sorry?
24	A. I do see that this is a podcast, yes.
25	Q. And I take it this podcast occurred

Page 325

1	on January 3rd, 2022. Does that ring a bell?
2	A. So, again, I would have been out on
3	leave, but I remember that we were trying to
4	schedule this podcast.
5	Q. Okay. But you
6	A. I think it was it was a
7	rescheduled multiple times.
8	Q. Okay. And why was it rescheduled?
9	A. Scheduling.
10	Q. Those people had conflicts or Surgeon
11	General had conflicts?
12	A. Correct.
13	Q. And, again, were you involved in sort
14	of inputting into the kind of message that would be
15	conveyed in this podcast?
16	A. No, that would have been designed by
17	the communications team.
18	Q. Who's that, by the way? Does that
19	include Alexandria Phillips?
20	A. Yeah, so Alexandria Phillips is the
21	communications director, and was the communications
22	director at the time.
23	Q. Who else is on that team?
24	A. The team has grown. She has a press
25	secretary, a chief of staff, a digital director, a

**Page 326** 

1	speech writer, a sort of a correspondence
2	story-bank person as well. Those are some of the
3	staffers that I'm aware of.
4	Q. Okay. Let me actually turn to
5	direct your attention to the transcript of
6	Dr. Murthy's comments here in January of 2022.
7	He's talking to the the host of the podcast, and
8	he says, among other things sorry, I'm in the
9	wrong spot. Unless those platforms step up and
10	make their spaces safer and reduce the amount of
11	misinformation on their site, it's going to be
12	pretty tough to get a full handle on the spread of
13	misinformation.
14	Right?
15	MS. CHUZI: Objection. I'd like to
16	call attention to the portion of this transcript
17	that says that it is not necessarily an accurate
18	transcription.
19	Q. (BY MR. SAUER) Sure. Do you see
20	there where the transcript reports he said: Unless
21	those platforms step up and make their spaces safer
22	and reduce the amount of misinformation on their
23	site, it's going to be pretty tough to get a full
24	handle on the spread of misinformation? Do you see
25	that?

**Page 327** 

1	
1	A. I do see that.
2	Q. Yeah, and is that do you have any
3	reason to doubt that that's what Dr. Murthy said in
4	this podcast?
5	A. That I have not listened to the
6	podcast, I've not read the transcript before this
7	moment, but those talking points or that statement
8	seems aligned with the other with the advisory
9	and the other public statements we've seen thus
10	far.
11	Q. And and so that would be
12	consistent with all the messages we've talked about
13	today in this deposition from Dr. Murthy and your
14	office?
15	A. Yes.
16	Q. And then the podcast cuts to a a
17	a quote of President Biden, you see that,
18	saying: The unvaccinated are responsible for their
19	own choices, but those choices have be shulled
20	(sic) by dangerous misinformation on cable TV and
21	social media.
22	Correct?
23	A. Do you think that means shilled? I
24	don't I don't know what shulled means.
25	Q. Yeah, let me ask you this: Do you

Page 328

1	recall any discussion of using this quote from
2	President Biden in the podcast, along with
3	Dr. Murthy's comments?
4	A. No, I do not.
5	Q. And President Biden goes on to say:
6	You know these companies and (inaudible) are making
7	money by peddling lies and allowing misinformation
8	that can kill their own customers and their own
9	supporters. It's wrong.
10	Right?
11	MS. CHUZI: Objection.
12	Mischaracterization of the record.
13	Q. (BY MR. SAUER) Do you see where it
14	says that?
15	A. I see that that is the the quote
16	from President Biden that says: You know, these
17	companies and blank are making money by it says
18	pedally lies and allowing misinformation that
19	can kill their own customers and their own
20	supporters. It's wrong.
21	Q. Do you remember President Biden
22	saying that?
23	A. Not really.
24	Q. He goes on to say in the quote: Not
25	just it's wrong, but it's immoral. I call on the

Page 329

1	purveyors of these lies and misinformation to stop
2	it. Stop it now.
3	Correct?
4	A. That is you're that is a
5	correct reading of this transcript.
6	Q. Was it was it do you know if it
7	was the Surgeon General's office's idea to use that
8	statement from President Biden in connection with
9	Surgeon General Murthy's comments calling upon the
10	technology companies to step up and make their
11	spaces safer and reduce the amount of
12	misinformation on their sites?
13	A. Sir, I know you just repeated the
14	quote, but can you repeat the question?
15	Q. Was it the Surgeon General's office's
16	idea to use President Biden's strongly worded quote
17	in connection with Dr. Murthy's comments in his
18	podcast?
19	A. I don't know. But my strong
20	speculation would be that we did the podcasts
21	that we went on were edited and run by whomever to
22	the to the desires of those podcast folks.
23	Q. On the next page, the transcript
24	reports that Dr. Murthy said: We're also asking
25	them to go after people who are superspreaders of

Page 330

1	misinformation on these sites, that they're causing
2	harm.
3	Correct?
4	A. That is what the transcript says,
5	correct.
6	Q. And so that's consistent with Surgeon
7	General Murthy's prior public and private
8	
9	statements asking the social media companies to
10	take action against superspreaders of
	misinformation, right?
11	A. I consider that consistent, yes.
12	Q. And in a sense, it kind of reinforces
13	the prior messaging going back to at least
14	July 15th, right?
15	A. I think it's consistent with I
16	think it's entirely consistent and with the
17	messages that Dr. Murthy was sharing about health
18	mis- and disinformation.
19	Q. Let's look at Exhibit 41.
20	MR. SAUER: Amanda, this should be in
21	the third e-mail I sent you at the beginning of the
22	break.
23	Q. (BY MR. SAUER) Here's a
24	February 14th, 2022, panel discussion involving
25	Dr. Murthy. I take it this would have happened

**Page 331** 

1	when you were out on paternity leave as well,
2	correct?
3	A. Yes, I was on paternity leave at the
4	time of this panel.
5	Q. Okay. Did you know that the Surgeon
6	General was involved in this panel hosted by the
7	Rockefeller Foundation?
8	A. I don't recall. I don't I wasn't
9	aware of this panel.
10	Q. Okay. Let's look at quickly, then
11	I'm going to flip ahead to page 10 of the
12	transcript. It talks about the speed scale and
13	sophistication with which misinformation is
14	spreading, right?
15	A. Yes.
16	Q. And it talks about how it's been
17	enabled, in fact, by technology platforms, right?
18	A. Correct.
19	Q. And again, that's, I take it,
20	consistent with the prior messaging that we
21	discussed today, from
22	A. Yes, I think this is yes, this
23	looks like a consistent message with what we've
24	seen in previous public statements, interviews, as
25	well as the advisory itself.

Page 332

1	Q. And is it also true that these kinds
2	of messages were conveyed in private meetings and
3	conversations that we've talked about today?
4	A. I think I don't have any any
5	update for what I've described about the private
6	about the private meetings. If I didn't recall
7	what had, then I don't recall. And if I said I
8	recalled something, then that's the description. I
9	don't have an update for those meetings.
10	Q. Lower on the page, he says: We
11	certainly need technology companies to step up and
12	do more to help reduce this spread of
13	misinformation and to be transparent with the
14	public about how much misinformation is being
15	transacted on their sites and so forth.
16	Right?
17	A. Yes, you've read that accurately.
18	Q. Yeah. And that, I take it, is very
19	consistent with the message of the health advisory,
20	right?
21	A. Yes. I think the message of of
22	asking an all-society approach, including
23	technology companies, to do more at a moment of a
24	pandemic and public health crisis is consistent
25	with Dr. Murthy's messaging.

Page 333

1	Q. On the next page here, page 11 of the
2	transcript, he goes on to say: And of course,
3	there's a role for government here as well to set
4	safety standards to push for transparency and
5	accountability particularly from platforms.
6	Right?
7	A. Yes, that is the that is an
8	accurate reading of of what the transcript
9	that's being shown on the screen.
10	Q. What does he mean, to your
11	understanding, about the role of the government in
12	setting safety standards when it comes to
13	misinformation?
14	A. He says: And of course, there's a
15	can I take a look at this for a second?
16	Q. Sure.
17	A. I just want to make sure I'm reading
18	it in the right context.
19	Okay. I don't know what he means by
20	safety standards, but he, in the next sentence,
21	talks about that that his office can call
22	attention to these challenges, which is what my
23	office is doing. So, again, I think as we've
24	described previously, I think the role of the
25	Surgeon General is to help call attention to issues

Page 334

1	of of national public health import.
2	Q. Of course he says: And also to call
3	attention to these challenges.
4	So calling attention is in addition
5	to setting safety standards. Has there been any
6	discussions in the Surgeon General's office about
7	the government setting safety standards when it
8	comes to misinformation issues?
9	A. Not not to my knowledge.
10	Q. So do you know what Dr. Murthy's
11	talking about here?
12	A. I do not.
13	Q. Two pages later, he says: I would
14	submit this is what we need the platforms to do is
15	we can't, I think, tolerate an environment anymore
16	where platforms are saying no, we're trying our
17	best, even though it's not good enough. That's
18	that's not good enough for society.
19	Correct?
20	A. That is an accurate reading of that
21	transcript as presented on this screen.
22	Q. And that's consistent with the
23	messaging of the health advisory and he emphasizes
24	that message, correct?
25	A. I think I think, again, it's

Page 335

1	consistent with the theme of we're asking people to
2	do more at the time of a public health crises where
3	people are dying every day during a historic
4	pandemic.
5	Q. He goes on to say: We're seeing the
6	harms that are being visited upon us in terms of
7	not just COVID information, and you know, illness
8	and death, but in a whole range of other
9	circumstances, other than COVID information.
10	What other circumstances is he
11	talking about, do you know?
12	A. I don't know.
13	MS. CHUZI: Counsel, I think we're at
14	the six-hour mark. I think we've been going for an
15	hour if my if my counting is accurate. I'm
16	wondering if now would be a good time to take a
17	break?
18	MR. SAUER: Yeah, it sure is, and it
19	will give me a chance to cull through we are at
20	breaking point, but give me a chance to
21	whip through the last few exhibits and see what I
22	can pull out and see how quickly we can wrap up.
23	THE VIDEOGRAPHER: The time is
24	3:29 p.m. We are off the record.
25	(A short break was taken.)

Page 336

1	THE VIDEOGRAPHER: The time is 3:41
2	p.m. Central Standard Time. We are back on the
3	record.
4	Q. (BY MR. SAUER) Mr. Waldo, you're
5	aware that on March 3rd the Surgeon General's
6	office issued a Request For Information about
7	social media misinformation. You recall that?
8	A. Yes.
9	Q. Yeah. And here on the screens share,
10	I'm showing you Exhibit 42 that I previously
11	e-mailed your counsel. (Technical difficulty) this
12	the RFI
13	A. That's correct.
14	Q on here, right? Yeah. Called
15	Impact of Health Misinformation on the Digital
16	Information Environment in the United States
17	Through the COVID-19 Pandemic Request for
18	Information, right?
19	A. That's correct.
20	Q. And were you involved in formulating
21	this RFI at all?
22	A. I was involved in meetings where the
23	where there was a discussion about whether or
24	not to do this RFI or for the overall strategy
25	around around this data by with with the

Page 337

1	team, yes.
2	Q. Overall strategy. What overall
3	strategy was there with regarding this RFI?
4	A. I'm sorry, I didn't say strategy
5	about this RFI. Strategy whether or not there was
6	going to be additional data requests to make and
7	how to make them.
8	Q. Oh. You mean additional data
9	requests. What do you mean by that?
10	A. I mean I shouldn't say additional.
11	I think there was a question of whether or not we
12	were going to going to make questions, you know,
13	ask for given that the given the
14	conversations with Facebook and others, was there
15	something more constructive we could do around
16	helping researchers have a better understanding of
17	what's happening in this community. And so
18	ultimately, the RFI was was determined as the
19	path forward.
20	Q. Okay. So were there other paths
21	forward (technical difficulty) Surgeon General's
22	office
23	(A discussion was held off the
24	record.)
25	Q. (BY MR. SAUER) Were there other

Page 338

1	paths forward about COVID-19 misinformation that
2	the Surgeon General's office did or was this the
3	only one at this time?
4	MS. CHUZI: Objection. To the extent
5	that question calls for information covered by the
6	deliberative process privilege, I will instruct the
7	witness not to answer.
8	THE WITNESS: On the advice of
9	counsel, I will not answer the question.
10	Q. (BY MR. SAUER) I'm not asking about
11	deliberations. I'm asking if there were actions
12	taken. Did the Surgeon General's office do
13	anything other than RFI to address issues of COVID
14	misinformation in this time frame?
15	A. Not to my knowledge.
16	Q. Scrolling down, were you involved in
17	formulating, you know, kind of what kind of
18	information to ask for here in the RFI?
19	A. No.
20	Q. Who was involved in formulating kind
21	of the specific types of information to ask for?
22	A. I think Kyla was the primary driver
23	on the RFI from a content expert perspective.
24	Q. That's Kyla Fullenwider?
25	A. That's correct.

Page 339

1	Q. Do you know if she had input from
2	Renee DiResta or other academics in formulating the
3	RFI?
4	A. I do not.
5	Q. Do you know do you know who she
6	who she would have worked with in formulating it?
7	A. I do not.
8	Q. Do you know if anyone besides Kyla
9	had any input into what information to ask for?
10	A. I know that Kyla was running these
11	ideas by Max Lesko from an more of a process,
12	getting Dr. Murthy's input perspective. More or
13	less of a content expertise perspective. But I
14	think she certainly ran this by Max.
15	Q. And that was to get Dr. Murthy's
16	approval on the approach taken?
17	A. I believe so, yes.
18	Q. Do you know if Dr. Murthy provided
19	input on the content of the RFI, asked for this
20	information, that kind of thing?
21	A. I'm not certain.
22	Q. Anyone else you know of besides
23	Dr. Murthy, Max Lesko, and Kyla Fullenwider
24	involved in the formulation of the RFI?
25	A. Not to my knowledge.

Page 340

1	Q. What is Kyla's role in the Surgeon
2	General's office in this time frame? I remember
3	she's in US Digital Response. Is she a an
4	employee of the Surgeon General's office by now or
5	
6	what's her formal role?
	A. I'm not certain how what was the
7	mechanism for how she was employed out of HHS, but
8	I know she was doing work on behalf of the Surgeon
9	General.
10	Q. The RFI here on the I think it's
11	on the second page of the document asks for
12	information about technology platforms, correct?
13	A. What page are you on, sir?
14	Q. Second page of the document, here
15	down in the bottom right, column number 2,
16	Information about Technology Platforms.
17	A. Yes. That's correct.
18	Q. And it asks number 3: Information
19	about how widespread COVID-19 misinformation is on
20	individual technology platforms including general
21	search engines, content sharing platforms, social
22	media platforms, e-commerce platforms, crowdsourced
23	platforms, and instant messaging systems, correct?
24	A. That's correct.
25	Q. Were there discussions general

**Page 341** 

1	search engines, that's like Google, right?
2	A. I assume so.
3	Q. What's a content sharing platform?
4	Is that like Reddit?
5	A. I'm not certain. I don't I'm not
6	sure what the technical definition is there, but
7	it
8	Q. Do you know what kind of platform
9	A. Because that seems that seems
10	different than social media.
11	Q. Yeah, what kind of platforms are they
12	referring to there, do you know?
13	A. I do not.
14	Q. It goes on to say social media
15	platforms, then e-commerce platforms. What are
16	those?
17	A. I presume places where you where
18	e-commerce occurs so
19	Q. eBay, Amazon, places like that?
20	A. I think I definitely would think
21	Amazon, yeah.
22	Q. What were there discussions that
23	you're aware of about COVID misinformation being
24	shared on e-commerce platforms?
25	A. I recall at some point in the rollout

**Page 342** 

1	Kyla sharing with me just from a factual
2	perspective that on sites like Amazon it was
3	possible to also spread health mis- and
4	disinformation based on promotion of, you know,
5	certain I think the algorithm could promote if
6	you like this, buy this, and maybe promoting
7	conspiracy theories.
8	Q. So conspiracy theories about COVID or
9	other conspiracy theories?
10	A. I think it was about COVID but I
11	don't truly recall.
12	Q. Okay. What are crowdsourced
13	platforms?
14	A. I'm not sure what the technical
15	definition is of a crowdsourced platform.
16	Q. Do you know what platforms are being
17	referred to there in that in that phrase?

- A. As I said just now, I don't know what
- 19 crowdsourced platforms means in the context of this
- 20 document.
- Q. So one of the things that's asked for
- 22 here is aggregate data and analysis on the
- 23 prevalence of COVID-19 misinformation on individual
- 24 platforms including exactly how many users saw or
- 25 may have been exposed to instances of COVID-19

Page 343

1	misinformation, right?
2	A. Yes, that's what the RFI says on that
3	paragraph.
4	Q. Is that the kind of data that you
5	guys have been asking Facebook for in the meetings
6	in 2021 where you talked about data transparency?
7	A. It appears to be a version of that,
8	yes.
9	Q. Scrolling down here at number 5, it
10	says information about the sources of COVID-19
11	misinformation. Do you see that?
12	A. I do see that.
13	Q. And it asks for information about the
14	major sources of COVID-19 misinformation associated
15	with exposure, correct?
16	A. That is what 5 sub bullet A says,
17	correct.
18	Q. What does "associated with exposure"
19	mean there?
20	A. It says I'm not sure technically.
21	It says information about COVID resources about
22	COVID-19 misinformation. Information about the
23	major sources of COVID-19 misinformation associated
24	with exposure. I don't let's see, does it have
25	the definition in there further down?

Page 344

1	O I don't regall I guess up here it
	Q. I don't recall. I guess up here it
2	says
3	A. Sorry. I was trying to look. Yes.
4	Q. Seeing content in news feeds and
5	exposure.
6	A. Yeah, okay. So it seems to be saying
7	that information associated with seeing the content
8	in news feeds and search results are
9	algorithmically nominated content.
10	Q. It goes on under little I there to
11	say: By source, we mean both specific public
12	actors that are providing misinformation as well as
13	components of specific platforms that are driving
14	exposure to misinformation, correct?
15	A. Yes, that's what the document says.
16	Q. So the RFI is actually seeking
17	information about specific speakers or posters on
18	social media platforms that spread misinformation,
19	right?
20	A. I'm not sure, because earlier, you
21	highlighted that it talks about aggregate data and
22	I'm pretty sure the document also talks about
23	anonymity.
24	Q. So you think that specific public
25	actors does not refer to specific people who spread

Page 345

1	provide misinformation?
2	A. It may, but I'm pretty sure in this
3	document there's some sort of caveat about having
4	to submit anonymized data.
5	Q. Okay. That would be an indicator of
6	people who are reviewing it, right, the people
7	exposed to the misinformation, right?
8	A. I'm sorry. Say again, sir.
9	Q. Doesn't the anonymized data refer to
10	the users who are exposed, not the public actors
11	who are providing this information?
12	A. I'm not sure. If you can bring up
13	that portion of the document, I'm happy to take a
14	look. But I'm pretty sure in general when the
15	federal government does requests for information
16	like this, there are various stipulations that have
17	to be made to for to ensure that there's
18	anonymized data.
19	Q. Let me ask you this. I believe there
20	was a plan expressed by the Surgeon General's
21	office to render any comments received in response
22	of this information public, right, to publicly post
23	them?
24	A. Are you asking can you repeat the
25	question? It sounded like a statement.

Page 346

1	Q. Did the did the Surgeon General's
2	office announce that it would publicly post all the
3	comments received in response to this RFI?
4	A. I don't know.
5	Q. Was there a do you recall a policy
6	of that?
7	A. I don't know. In my other life
8	working in government for, like, noticing common
9	rule making, which I'm sure you know from your law
10	school days, there was requirements about public
11	making public comments, but I'm not sure if that
12	refers to RFIs as well.
13	Q. Let me ask this. Do you know whether
14	the comments received in response to this RFI have
15	ever been published?
16	A. I'm I'm not aware of whether they
17	have or not.
18	Q. And we submitted a FOIA request for
19	them months ago and haven't received any yet. Are
20	you aware of that?
21	A. I am not.
22	Q. So you don't know whether the Surgeon
23	General's office ever made these the comments it
24	received public?
25	MS. CHUZI: Objection. Asked and

**Page 347** 

1	answered.
2	Q. (BY MR. SAUER) Fair to say?
3	A. As previously stated, I do not know.
4	Q. Let's look at Exhibit 44.
5	MR. SAUER: Amanda, I e-mailed these
6	right as the break was ending, and it was a big
7	group of exhibits.
8	MS. CHUZI: Yes.
9	Q. (BY MR. SAUER) Here's an article
10	from The Hill the same day as the the RFI went
11	out entitled Surgeon General Demands Data on
12	COVID-19 Misinformation From Major Tech Firms. Do
13	you see that?
14	A. I do.
15	Q. That focusing on that word
16	"demands," I recall that kind of description of
17	this being repeated in other media articles. Did
18	you view the does the Surgeon General's office
19	review the article as demanding information?
20	A. Not to my knowledge. It's a by
21	definition, an RFI is a voluntary request for
22	information.
23	Q. Did the Surgeon General's office take
24	any steps to, you know, have the public messaging
25	reflect the description of this RFI as a demand for

Page 348

1	information?
2	A. Not to my knowledge.
3	Q. Do you know if the communications
4	team was involved in talking to the reporters like
5	this Brad Dress who reported on it?
6	A. I don't know.
7	Q. Were you involved in any
8	communications with reporters?
9	A. I was not. Again, I was actually
10	still on paternity leave at this point, sir.
11	Q. Oh, March 3rd, you weren't back yet?
12	A. Yeah, so our nanny canceled on us, so
13	I had to be on leave for another week.
14	Q. Oh. Okay. Okay. Do you so do
15	you well, let me ask let me search another
16	exhibit.
17	Did the Surgeon General's office take
18	any steps to try and encourage social media
19	platforms to to respond to the RFI?
20	A. I believe that the chief of staff,
21	Max Lesko, sent the RFI to contacts at various
22	social media organizations.
23	Q. And that would include Facebook,
24	right?
25	A. Correct.

**Page 349** 

1	Q. And here, for example in Exhibit 45,
2	there's an e-mail from Max Lesko to Nick Clegg and
3	Brian Rice and someone else at Facebook with a
4	letter from the U.S. Surgeon General attached,
5	correct?
6	A. Yes, that's an e-mail from Max Lesko
7	to Nick Clegg, Brian Rice, and Nathaniel Gleicher.
8	Q. And it indicates that he's attached a
9	letter from Surgeon General Murthy to Mark
10	Zuckerberg, right?
11	A. That's correct.
12	Q. And he says also says: Let me
13	know if I can be helpful with respect to the
14	request for information which has been sent to the
15	Federal Register and expect to receive submissions
16	in the coming days. Correct?
17	A. Yes, that's what Max has written to
18	to those individuals.
19	Q. And so the Surgeon General's office
20	e-mailed a link to the RFI to Facebook and also
21	attached a letter directly from Surgeon General
22	Murthy to Mark Zuckerberg, right?
23	A. That is what the e-mail says, yes.
24	Q. And then Exhibit 46. And this is
25	is this actually the letter from Surgeon General

**Page 350** 

4	
1	Murthy to Mark Zuckerberg dated March 3rd, 2022
2	that Max Lesko e-mailed?
3	A. It would appear so.
4	Q. Yeah, let me put it on the screen
5	share. And the purpose of this letter is to
6	encourage Facebook to participate in the RFI,
7	right?
8	A. It's it says: I am writing today
9	to request that your company contribute to the RFI.
10	Q. So he's encouraging Facebook to
11	contribute to the RFI, right?
12	A. He's definitely asking him to do so,
13	yes.
14	Q. And he says: Given that a large
15	proportion of health misinformation is spread
16	through technology platforms, my Advisory includes
17	a call for technology companies to join this
18	broader effort to create a safer, healthier
19	information environment, right?
20	A. Yes, that's what that's an
21	accurate reading of that portion of the letter.
22	Q. And he requests responses from
23	companies about the extent and spread of COVID-19
24	misinformation on your platforms, policies to
25	address COVID-19 misinformation, and their

**Page 351** 

1	effectiveness, sources of COVID-19 misinformation
2	and so forth, right?
3	A. That's an accurate reading of that
4	portion of the letter.
5	Q. Were you involved in drafting the
6	letter? I think you probably were still on
7	paternity leave at this time, right?
8	A. Yeah. As I mentioned, this letter is
9	dated March 3rd and I was still on paternity leave.
10	So I was not involved in the drafting of this
11	letter.
12	Q. Did Max Lesko send similar letters to
13	other social media platforms?
14	A. I think so.
15	Q. Yeah. I mean, I don't want to put
16	six more exhibits in front of you, but would you
17	agree that he sent a very similar, basically
18	identically phrased letter to Google, LinkedIn,
19	Twitter, YouTube, and Microsoft all on that same
20	day, March 3rd, 2022?
21	A. I don't know if he did, but if you
22	I don't have any reason to disbelieve that he did,
23	so. That, I believe was the plan.
24	Q. Let's just very briefly, I'm going to
25	e-mail those to your counsel and I'll pull them up

**Page 352** 

1	real quick.
2	<del>-</del>
	And you said you're aware that that
3	was the plan, right?
4	A. I think I became aware after I got
5	back that that happened. I wasn't part of the
6	planning process.
7	Q. Here on the screen share, I'm showing
8	you Exhibit 47. Similar letter to Sundar Pichai of
9	Google from Surgeon General Murthy about the RFI
10	dated March 3rd, correct?
11	A. Yes, that's the date of the letter.
12	Sir, if you're okay. Sorry.
13	Q. Exhibit 48, yeah, similar
14	letter
15	A. Thank you.
16	Q to the CEO of LinkedIn about the
17	RFI encouraging them to participate, correct?
18	A. It's a letter asking informing
19	them and requesting that they participate in the
20	RFI.
21	Q. In fact, these letters kind of all
22	have exactly the same text, right? Is that your
23	understanding?
24	A. You're moving the letters up and down
25	very quickly but I don't have any reason to believe

**Page 353** 

- 1 they're not virtually the same.
- Q. Exhibit 49, similar letter to
- 3 Twitter, right, and Parag Agrawal, who was then the
- 4 CEO of Twitter?
- 5 A. Yes, it appears to be the same
- 6 functional letter. I'm not having much of an
- 7 opportunity to review it. But I don't have any
- 8 reason to believe it's not the same overall text
- 9 requesting that they participate in the RFI.
- 10 Q. Exhibit 50, same letter to Microsoft
- 11 -- I'm sorry, YouTube, I apologize. Same letter to
- 12 YouTube, correct?
- A. You're okay. Yes, sir, I'm only
- 14 looking at part of the letter that you're sharing
- and I can't actually review all of it in the way
- 16 that we're doing it right now. But it appears to
- 17 be the same form of a letter asking for a request
- 18 -- requesting that -- informing them about the RFI
- 19 and requesting that they participate.
- Q. And then finally, Exhibit 51, similar
- 21 letter to Microsoft, correct?
- 22 A. That looks like it's to the Microsoft
- 23 corporation. Right now, I'm only being exposed to
- 24 the first couple of lines. But it looks -- the
- 25 first -- overall, it seems to be the same letter

Page 354

1	requesting the	hat they participate in the RFI.
2	Q.	Did all of those companies that got
3	the letter, o	did they all participate, do you know?
4	Α.	I don't know.
5	Q.	Do you know if Facebook submitted
6	anything?	
7	Α.	I think so. But I'm not positive.
8	Q.	How about Google?
9	Α.	I don't know.
10	Q.	How about Twitter?
11	Α.	I don't know.
12	Q.	How about Microsoft?
13	Α.	I don't know.
14	Q.	Shortly after the RFI was issued, the
15	Surgeon Gene	ral gave an interview to GQ Magazine,
16	right? Does	that ring a bell?
17	Α.	It does not.
18	Q.	So you weren't let me let me
19	show Exhibit	52 on the screen share. Does this
20	dazzling pic	ture of Surgeon General Murthy jog your
21	memory?	
22	Α.	It does not.
23	Q.	So you don't recall him giving an
24	interview to	GQ Magazine on March 11th of 2022?
25	Α.	I do not.

Page 355

1	Q. Well let me just touch briefly on a
2	couple things in the interview and see what you
3	know about them.
4	On page 6 of the interview, Surgeon
5	General Murthy's asked about Spotify and Joe Rogan.
6	Do you remember a kind of controversy in February
7	of 2022 about whether Spotify should deplatform Joe
8	Rogan for allegedly spreading COVID misinformation
9	in his podcast?
10	A. I remember that Joe Rogan was having
11	controversial people on his podcast. That's about
12	the depth of my knowledge.
13	Q. So you don't remember a specific
14	controversy that related to Joe Rogan and COVID
15	misinformation?
16	A. I think that he was having guests on
17	who were talking about the COVID misinformation.
18	You asked about deplatforming. I don't recall
19	that.
20	Q. And in the interview, Surgeon General
21	Murthy says if you're running a platform whether
22	it's Spotify or another social media platform
23	you've got to think about how do I create a healthy
24	information environment, correct?
25	A. Can you please highlight the text,

**Page 356** 

1	sir.
2	Q. Yeah, I'm having trouble with the
3	highlighting.
4	A. I can see. Okay. Everything's
5	highlighted. Hold on. I have it in front of me.
6	If you give me one moment, I can read that question
7	and answer in a short trip.
8	Q. Here, if it starts with
9	A. Starting with the yeah, hold on
10	one second.
11	Q. There it goes again.
12	A. Okay.
13	Q. So he talks about creating if you're
14	a platform, whether it's Spotify or another social
15	media platform, you've got to think about how do I
16	create a healthy information environment here, how
17	do I create rules and a culture that promotes
18	accurate information. Correct?
19	A. Yes, that's an accurate reading of
20	the transcript.
21	Q. And he's saying this eight days after
22	the RFI was issued. Is he talking about what the
23	RFI is getting at, which is trying to get
24	information about how social media platforms can
25	create rules in a culture to promote accurate

**Page 357** 

1	information, right?
2	A. I'm actually not sure, sir, that he
3	did this interview eight days afterwards. It was
4	published eight days afterwards. I don't know when
5	this interview was actually recorded.
6	And typically, for a magazine
7	article, it's usually done actually a few could
8	have been done weeks earlier. I don't know.
9	Q. So you mentioned you didn't know he
10	was doing this interview, so maybe that answers my
11	question. But do you know whether the idea was to
12	have this interview come out in connection with the
13	RFI?
14	A. I don't know but I'm doubtful that
15	that would have been the purpose of a GQ Magazine
16	interview.
17	Q. Well, it would highlight the
18	information, or highlight the issue of COVID
19	misinformation; that's also what's being sought in
20	the RFI, correct?
21	A. I don't think I again, Alex
22	Phillips would be the one to answer this question
23	as our communications director. But I don't think
24	GQ is where we were going to try to move the ball
25	on misinformation is my guess.

**Page 358** 

1	Q. On the next page of the GQ interview,
2	going to page 7 here, you see where my cursor is,
3	where it says but I do think a platform has the
4	ability, the opportunity, and the responsibility to
5	create rules and a culture that supports the
6	dissemination of accurate information and that
7	reduces the spread of misinformation, correct?
8	A. Yes.
9	Q. And again, that's similar to what he
10	said on the previous page about creating rules and
11	a culture for the social media platforms, right?
12	A. Yes.
13	Q. And he goes on to say that he
14	believes this is, quote, different from censorship,
15	and he talk about how in America, we believe in
16	free speech. And he goes on to say right here:
17	But we also live in a society. That means we need
18	common rules for the common good. We have speed
19	limits on the road because we know that sometimes
20	if we drive too fast that can have an impact on
21	somebody else's health and well being. Right?
22	A. Yes, that's what the Dr. Murthy
23	said to the answer to this question.
24	Q. And that reference to speed limit
25	seems to echo his statement from the February

Page 359

1	podcast where he talked about the government
2	creating standards for misinformation on social
3	media platforms, right?
4	A. Sorry. Ask your question again, sir.
5	Q. Well, let me ask you this. It seems
6	to me that he's making a similar point here as he
7	made in the February 14th podcast that we looked at
8	earlier where he talked about the government having
9	a role to set standards for COVID for
10	misinformation on social media platforms.
11	Here, he's talking about speed limits
12	on the road, which are a standard that the
13	government sets to try and set guardrails around
14	what people do on the roads, right?
15	MS. CHUZI: Objection. Calls for
16	speculation.
17	Q. (BY MR. SAUER) If you know.
18	A. I don't know, sir.
19	Q. Do you know whether his reference to
20	speed limits is intended to, you know, refer to the
21	possibility of, you know, the government setting
22	some guardrails around misinformation?
23	MS. CHUZI: Same objection.
24	THE WITNESS: I I don't know. And
25	it just seems like he's trying to use an analogy or

**Page 360** 

1	a metaphor to communicate the point that and I
2	read the "we" as him referring to society, and we
3	need rules for the common good so and the way
4	that the RFI is and the advisory are asking what
5	folks can do more of, I think it's trying to say
6	how can we create a better public square.
7	Q. (BY MR. SAUER) In other words, a
8	better public square is one that has more rules
9	that prevent the spread of misinformation, right?
10	MS. CHUZI: Objection.
11	Mischaracterizes the testimony.
12	THE WITNESS: I think I think what
13	he's saying is we need better public health
14	outcomes. And in this case, we want to make sure
15	that that we're not spreading it in a way
16	spreading health misinformation in a way that's
17	causing outsized harm at the time of a pandemic
18	when people are dying every day and preventable
19	deaths because of misinformation.
20	Q. (BY MR. SAUER) Right. In other
21	words, the rules to stop those preventable deaths
22	due the misinformation include what he calls common
23	rules for the common good, right there where my
24	cursor is?
25	A. He says that means we need common

**Page 361** 

1	rules for the common good, that is what he said,
2	yes.
3	Q. Yeah. And then he ananolges (sic)
4	those common rules for the common good to speed
5	limits on the road because we know that sometimes
6	if we drive too fast that can have an impact on
7	someone else's health and well being, right?
8	A. Yes. He uses that analogy.
9	Q. And he says if we're going to live
10	together in a society, we've got to take steps and
11	observe certain rules to help protect other people.
12	And that's true here as well, right?
13	A. Yes.
14	Q. Exhibit 53 actually before we talk
15	about this exhibit, you may have already answered
16	this, but do you know whether any of the social
17	media platforms responded to the RFI?
18	A. I think you already asked this
19	question, sir, but I said I didn't know who had
20	responded. You asked each individual organization,
21	and I said I thought Facebook might have responded,
22	and I didn't know about any of the others.
23	Q. Gotcha. Have you ever seen any of
24	the responses?
25	A. Not to my knowledge.

Page 362

1	Q. How about responses from anyone else?
2	Obviously, the RFI was open to the public. Did
3	anyone else respond?
4	A. I'm not aware. I assume there were
5	other responses.
6	Q. Who in the Surgeon General's office
7	
	kind of receives those responses and processes
8	them?
9	A. I think, again, Kyla Fullenwider was
10	the one running point on this.
11	Q. Would there be anyone else besides
12	her?
13	A. I think to the extent that Max was
14	helping shepherd the process, he may have been
15	aware or possibly seen it. But Kyla was the
16	subject matter expert who was guiding this RFI
17	process.
18	Q. Would she be the only one that
19	reviews the responses?
20	A. I don't know.
21	Q. You don't know if she had other team
22	members reviewing responses?
23	A. That's correct. I don't know.
24	Q. Do you know what volume roughly of
25	responses were received? Sometimes you get, you

**Page 363** 

1	know, a hundred thousand comments; sometimes you
2	get five. Do you know roughly what volume was
3	received?
4	A. I don't recall.
5	Q. Did you ever know that or did you
6	just you don't remember or?
7	A. It's possible someone shared it with
8	me anecdotally, but I don't recall.
9	Q. Looking at Exhibit 53, is that up on
10	the screen share for you?
11	You were copied on an e-mail from
12	Brian Rice at Facebook directing to Rob Flaherty
13	and other White House officials including Tim
14	Manning, Dori Salcido, and Subhan Cheema, correct?
15	A. Yes, that is correct.
16	Q. And this is sent on June 22nd of
17	2022?
18	A. That's correct.
19	Q. And he also copies Rebecca Siegel of
20	HHS, right?
21	A. That's correct, Rebecca Siegel from
22	HHS is cc'd.
23	Q. Yeah. Who is she again? She was on
24	the one of the earlier e-mails and I can't remember
25	who you said she is.

Page 364

1	A. Rebecca Siegel was a member of the
2	public education campaign team; I think working
3	with the Kristina Schake.
4	Q. Okay. So she is in HHS outside of
5	the Solicitor (sic) General's office?
6	A. Outside the Surgeon General's office
7	yes, sir.
8	Q. Sorry. Yeah. And where are she and
9	Ms. Schake actually located? Are they in the
10	executive office of the secretary of HHS?
11	A. Ms. Schake, I think, left the left
12	HHS at the end of 2021 is my recollection. I don't
13	know what their reporting structure was. I think
14	I think Ms. Schake reported to the secretary is
15	my recollection.
16	Q. Here, in this e-mail, Brian Rice
17	says: Rob and team, wanted to ensure you were
18	aware of our policy updates following the early
19	childhood vaccine approval. Correct?
20	A. Yes, that is an accurate reading of
21	that first sentence.
22	Q. And I think you testified earlier
23	that you couldn't remember exactly when the early
24	childhood vaccine approvals came out. Here, does
25	this June 22nd e-mail refresh your recollection?

Page 365

1 A. Yes, it appears that that was that
2 it happened in the summer of 2022.
3 Q. Yeah, around sometime in late June of
4 2022. Fair to say?
5 A. Yeah, I think I was confusing the 5
6 to 11 versus the sort of the infants.
7 Q. Yeah. This is under 5, for children
8 under 5, right?
9 A. Correct.
10 Q. And Brian e-mails you all and says:
11 As of today, June 22nd, all COVID-19 vaccine
12 related misinformation and harm policies on
13 Facebook and Instagram apply to people six months
14 or older with the exception of the claim that the
15 COVID vaccines have full FDA approval since
16 children have only emergency use authorization.
17 Correct?
18 A. That's an accurate reading of that
19 sentence.
Q. So he's reporting back to you and the
21 White House, yet, again on how they've updated or
22 changed their policies to remove misinformation
23 from their platforms; is that right?
24 A. I again read this as him saying now
25 just sort of an update on how how this how

**Page 366** 

1	they're changing the definition of what's
2	misinformation.
3	Q. So in other words, they're updating
4	it to include claims about vaccines for children
5	under 5, right?
6	A. Correct.
7	Q. So that's a kind of an expansion
8	of the policy against COVID misinformation to
9	include a category of new claims, correct?
10	A. I think that's a fair that's a
11	fair reading.
12	Q. And he goes on to say: We expanded
13	these policies in coordination with the CDC and
14	ensured that we also included false claims that
15	might be connected to children, such as the false
16	claim that COVID vaccines cause MIS-C. Do you see
17	that?
18	A. I see that, sir.
19	Q. And so he reports how there's been an
20	expansion of their policies to address false claims
21	related to childhood vaccines, correct?
22	A. That's correct.
23	Q. Was this e-mail prior was this
24	e-mail sent to you guys out of the blue? Was there
25	any prior communication with Facebook about the

Page 367

1	under 5 vaccines that you're aware of?
2	A. I'm not aware of any communications
3	with them about under 5.
4	Q. So you think he just sent this update
5	unsolicited, or do you not know?
6	A. I don't know.
7	Q. So you don't know whether the, like
8	the White House people on this, Rob Flaherty, Tim
9	Manning, Dori Salcido, and Subhan Cheema might have
10	asked for what their position was going to be on
11	these?
12	A. I don't know.
13	Q. Did anyone from the Surgeon General's
14	office ask for this information to your
15	recollection?
16	A. Not to my knowledge.
17	Q. Exhibit 54, do you remember this
18	e-mail chain from July June and July of 2022?
19	A. Looks like the e-mail chain started
20	in February, if you go back to the beginning, if
21	I'm looking at the right exhibit, sir. It starts
22	as a COVID insights report biweekly in February of
23	2022.
24	Q. And then March of 2022?
25	A. And then they reup it for March.

Page 368

1	Q. Then April of 2022?
2	A. Yeah.
3	Q. Then May?
4	A. Then May, then June, and that's where
5	he says: We'll plan to discontinue.
6	Q. Right.
7	A. And then Rob says: Yeah.
8	Q. Right.
9	A. Sounds like Rob Rob I think I
10	mentioned I maybe referred to this before, sir,
11	when you were asking when and if we ever stopped
12	getting these. So there is where Rob said he would
13	be fine discontinuing but he wanted to keep them as
14	we continued to work on under 5.
15	Q. Gotcha. Yeah, and I take it that
16	I do recall you saying that. And that exchange I
17	think begins on June 13th of 2022, here on the
18	first page, right?
19	A. That's correct, yes.
20	Q. And Brian says: Attaching the recent
21	reports for your review. We will plan to
22	discontinue these unless we hear from you that this
23	information continues to be valuable. Is that
24	right?
25	A. That is what Rob that is what

**LEXITAS LEGAL** www.lexitaslegal.com Phone: 1.800.280.3376

**Page 369** 

1	Brian writes to Rob, yes, and others.
2	Q. So Facebook is saying to Rob
3	others including you, right, because you're copied
4	on this?
5	A. Yes, I'm cc'd on that e-mail.
6	Q. Did you were you ever asking for
7	these reports to continue?
8	A. I was not.
9	Q. How about anyone in the Surgeon
10	General's office or HHS, did they ask for the
11	reports to continue?
12	A. Nobody to my knowledge.
13	Q. But Rob Flaherty did, right, on June
14	13th?
15	A. Yes, as discussed, that they asked if
16	they can discontinue it, and Rob says that he
17	normally would say we are good to go to discontinue
18	but it would be help to continue to get these as we
19	start to ramp up for under 5 vaccines.
20	Q. And we know from the prior exhibit
21	this is June 13th. We know from the prior exhibit
22	that the under 5 vaccines got authorized shortly,
23	right, in later June of 2022?
24	A. That sounds correct.
25	Q. And Flaherty says: Obviously that

**Page 370** 

1	meaning under 5 vaccines has a potential to be
2	just as charged, right?
3	A. That is what Rob has written.
4	Q. So he means that presumably that
5	that's a controversial topic; the vaccination of
6	children under 5 and might result in people posting
7	things on Facebook that Rob views as
8	misinformation, right?
9	MS. CHUZI: Objection. Calls for
10	speculation?
11	THE WITNESS: I'm not sure what Rob
12	means, but what you're saying doesn't sound crazy.
13	Q. (BY MR. SAUER) In other words,
14	that's a fair inference from what he's saying,
15	correct?
16	A. I'm not again, I don't know what
17	Rob means, but I think, yes, it seems like a fair
18	reading.
19	Q. And then as a result of that e-mail,
20	it looks like Brian Rice kept sending the COVID
21	reports, right? So here
22	A. It would appear so.
23	Q. Here we got an e-mail on July 17th of
24	2022, right?
25	A. Yes.

**Page 371** 

1	Q. And there were two more COVID insight
2	reports attached to that, right?
3	A. Yes. Yes. Correct.
4	Q. And you were copied on those as well,
5	right?
6	A. I'm copied on that, yes.
7	Q. Were you aware of any other
8	communications between anyone in the federal
9	government and Facebook in this time frame that
10	related to information about under 5 COVID
11	vaccines?
12	A. I was not familiar with that, sir.
13	MR. SAUER: David, how much time have
14	we been on the record?
15	THE VIDEOGRAPHER: We are at five
16	forty.
17	THE WITNESS: I think six forty.
18	THE VIDEOGRAPHER: Six forty. My
19	apologies. My apologies. Six forty.
20	MR. SAUER: Why don't we take a
21	five-minute break now and see if we can wrap up.
22	THE VIDEOGRAPHER: The time is 4:22
23	p.m. We are off the record.
24	(A short break was taken.)
25	THE VIDEOGRAPHER: The time is 4:27

Page 372

1	p.m. Central Standard Time. We are back on the
2	record.
3	Q. (BY MR. SAUER) Mr. Waldo, on Kyla
4	Fullenwider, whose name has come up multiple times
5	in this deposition, do you know, was she affiliated
6	with the Surgeon General's office all throughout
7	this time period from early 2021 through the RFI in
8	2022?
9	A. I only came into the office in June
10	of 2021, so I know that she was affiliated with the
11	office from the time I started until I still think
12	currently, today.
13	Q. And do you know if so she's still
14	affiliated with the office today, right?
15	A. To the best of my knowledge, yes.
16	Q. Is she a full-time employee or a
17	political appointee, do you know?
18	A. I think as we've discussed previously
19	as I've answered, I don't know what the nature of
20	her relationship, whether she's a contractor, an
21	IPA, a schedule A, etc.
22	Q. Do you know if she I mean, does
23	she kind of physically work, have her principal
24	place of work in the Surgeon General's office?
25	A. We're a hybrid office, so everyone

**Page 373** 

1	can work from home and come in person. So I've
2	seen Kyla mostly on Zooms, but she has a place in
3	in DC and Virginia so I've also seen her at
4	inperson meetings.
5	Q. So she's got a physical office in the
6	Surgeon General's office as well as remotely?
7	A. I mean we have she has space she
8	can use in the Surgeon General's office. The
9	majority of the team does hybrid and works
10	remotely.
11	Q. Does she still have a US Digital
12	Response e-mail, or does she have a HHS.gov e-mail?
13	A. I don't know.
14	Q. Do you know if she's a political
15	appointee?
16	A. I would be surprised if she's a
17	political appointee. Most of the most of the
18	people in our office are schedule A appointees.
19	Q. Do you know what her background was,
20	like what her job her career was like before she
21	worked for the Surgeon General's office?
22	A. I think she was at the Kennedy School
23	doing something before she was in the Surgeon
24	General's office and I think she had done work in
25	the Obama administration. I don't recall for what

Page 374

1	agency.
2	Q. You don't know what the nature of the
3	work was?
4	A. I think it was data-related work.
5	
6	Q. Is she a, kind of data expert?
	A. I think that's one of the areas of
7	her expertise.
8	Q. What other areas of expertise does
9	she have?
10	A. I'm I'm not deeply familiar with
11	her bio.
12	MR. SAUER: No further questions.
13	MS. CHUZI: Nothing from the
14	Government.
15	THE VIDEOGRAPHER: The time is 4:30
16	p.m. We are off the record. This concludes our
17	deposition of Eric Waldo.

     BIDEN, JR., et al.
11
     Dear Ms. Chuzi:
12
     Please find enclosed your copies of the deposition
13
     of ERIC WALDO taken on DECEMBER 22, 2022 in the
     above-referenced case. Also enclosed is the
14
     original signature page and errata sheets.
15
    Please have the witness read a copy of the
     transcript, indicate any changes and/or corrections
16
     desired on the errata sheets, and sign the
     signature page before a notary public.
17
     Please return the errata sheets and notarized
18
     signature page to Lexitas Legal, ATTN: Production
     Department, 711 N. 11th Street, St. Louis, Missouri
19
     63101 within 30 days of receipt of this letter.
20
     Sincerely,
